#### Description

Tripp Lite's Round, enhanced IDE (EIDE) ribbon cable connects up to two internal IDE hard drives to a controller card. This internal dual Ultra DMA/ATA ribbon supports UDMA/33, ATA/66 and ATA/100. This 18-inch cable is constructed with 80 conductor ribbon and contains three 40pin socket connectors (one for the controller card and the other two for drives). Round cables reduce overheating and saves internal space within the CPU unit for easy movement when adding or removing hard drives, PCI cards or other adapters. Tripp Lite warrants this product to be free from defects in materials and workmanship for life.
