

RCA

F20TF20

20" (Diagonal) TruFlat™ Stereo
Television

Features

Benefits

TruFlat™ Picture Tube

Reduces peripheral screen reflections & glare by over 60% compared to standard tubes. Offers a wider effective viewing area from any angle. Detail clarity adds realism.

Exclusive RCA VPORT™

A unique jack which simplifies connection of Microsoft's Xbox™ video game console. Also functions as a second component video input with optional cable.

Component Video Input (Y Pr Pb) on rear allows a single device with Y Pr Pb outputs (such as a DVD player, or a satellite receiver) to be connected.

Improves video quality by separating the signal into 3 video connectors. Provides more vibrant, sharper images compared to single video inputs.

Connections for 2 rear L+R+V devices (when Component Video input unused), plus 1 set of front L+R+V inputs. A rear L+R+S-Video can be substituted for L+R +V input.

Simplifies connecting other devices such as a game system, digital camera, or VCR. Stereo audio outputs offer selectable fixed or variable output.

Digital 3-Line Comb Filter

Separates black-and-white detail from color information to virtually eliminate edge crawls and rainbow effects while enhancing picture resolution.

Guide Plus+¹ On-Screen Program Guide

Find out What's On! The Guide Plus+¹ feature is a free, built-in service that provides instant listings of all your TV shows at the touch of a button.

Sound Logic™ Audio Leveler

Eliminates the annoying "blast" of sound during commercial breaks. Also amplifies soft sounds maintaining a constant volume level.
