ONE FOR ALL®

UNIVERSAL REMOTE CONTROLS

URC 6800
Cinema 6+
Manual

CONTENTS

OVERVIEW

Thank you for purchasing the One For All® *Cinema 6+*™ universal remote control with learning. Along with being a complete Home Theater universal remote, the Cinema 6+'s sophisticated technology will allow you to finally consolidate the clutter of all of the original remotes in your home entertainment system. Through patented learning technology, you can teach your Cinema 6+ the unique features of your original remotes and create the complete universal remote control – only from One For All.

Before you can use your new remote control, you will need to program it to operate the specific home entertainment components you wish to control. Follow the instructions detailed in this manual to set up your *Cinema 6+* and enjoy your new remote control.

The illustration below and the chart on the next three pages describe the features and functions of the *Cinema 6+* universal remote control. Use the drawing to locate each feature of the remote, then refer to the chart for a description of what function each feature performs.
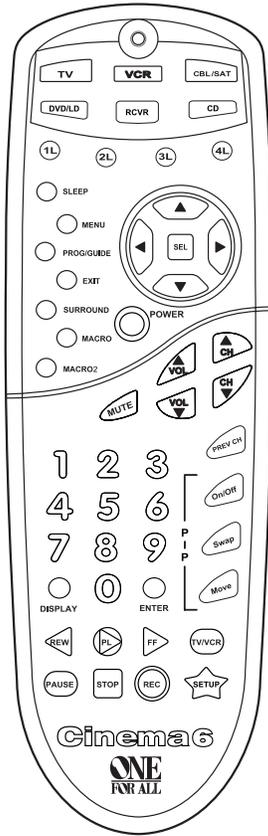

○ The Light (**LED**) flashes red to show that the remote is working and is sending a signal.

SETUP The **SETUP** key is used to program your *Cinema 6+*.

POWER The **POWER** key controls power ON and OFF the same as the POWER key on your original remote. Please note that most CD Players do not have an ON/OFF function on the original remote control. If this is the case with your CD Player, then **POWER** will have no effect on your CD Player.

TV VCR DVD/LD RCVR CD CBL/SAT The **TV**, **VCR**, **DVD/LD**, **RCVR**, **CD** and **CBL/SAT** keys are used to select the home entertainment component you want to control. If your component does not respond when you press a key on the remote control, press the appropriate device key (**TV**, **VCR**, **DVD/LD**, **RCVR**, **CD** or **CBL/ SAT**) first to tell the remote control which component you would like the remote to operate.

VOL VOL MUTE The **VOL ▲**(Volume Up), **VOL ▼**(Volume Down) and **MUTE** keys control the volume the same as the Volume Up and Down and Mute keys on your original remote.

CH CH The **CH ▲**(Channel Up) and **CH ▼**(Channel Down) keys change channels the same as the Channel Up and Down keys on your original remote. The **CH▲ / ▼** keys also control the following functions in other modes: **DVD/LD** mode = Skip Forward/ Skip Reverse, **RCVR** and **CD** mode = Preset Up/Preset Down.

0-9 The Digit keys (**0-9**) control direct channel access the same as the Digit keys on your original remote. The Digit keys (**0-9**) may also control the following functions in other modes: **RCVR** mode = Input Selections.

○ ENTER The **ENTER** key operates the same as the Enter key on your original remote. If your original remote control required you to use an Enter key to change channels, use the **ENTER** key on the *Cinema 6+* after entering your channel number. The **ENTER** key may also control the following functions in other mode: **RCVR** mode = TAPE MON.

PREV CH The **PREV CH** (Previous Channel) key operates the same as the Last Channel or Recall key on your original remote. The **PREV CH** key may also control the following functions in other modes: **DVD/LD**, **RCVR** and **CD** mode = Random.

SLEEP   The **SLEEP** key accesses the Sleep Timer of your home entertainment components (**TV**, **CBL/SAT** and **RCVR** modes only). Even if your component does not have a Sleep Timer, the *Cinema 6+* may access its own built-in sleep timer. See page 28 for additional information.

REW / PL / FF / REC / STOP / PAUSE   The **REW** (Rewind), **PL** (PLAY), **FF** (Fast Forward) **REC** (Record), **STOP**, and **PAUSE** keys operate the same as the transport keys on your original VCR, Laser Disc, DVD and CD Player remote. As a safety feature of the *Cinema 6+*, you must press the **REC** key twice before recording.

TV/VCR   The **TV/VCR** key operates the same as the TV/VCR key on your original VCR remote. The **TV/VCR** key may also control the following functions in other modes: **TV** mode = TV/VIDEO, **CBL/SAT** mode = A/B or TV/SAT, **DVD/LD** mode = TV/LD, **RCVR** mode = Input Select, **CD** mode = A/B.

MENU / ▲ / ▼ / ◀ / ▶ / SEL / EXIT   The **MENU** key operates the same as the MENU or OSD (On Screen Display) key on your original remote. Use ▲, ▼, ◀ and ▶ (Menu Up, Down, Left and Right) to navigate your menus. If your original remote control had a SELECT key to select options in your menus, use **SEL**. Use the **EXIT** key to exit/clear your On-Screen menus. Please consult your home entertainment component's original owner's manual for more detailed instructions on using On-Screen menus.
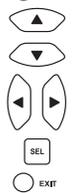

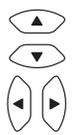

▲ / ▼ / ◀ / ▶   The ▲, ▼, ◀ and ▶ (Menu Up, Down, Left and Right) keys are used to navigate your On-Screen menus. The ▲, ▼, ◀ and ▶ keys may also control the following functions in other modes: **RCVR** mode = Rear Level +/- and Balance Left/Right, **CD** mode = Track +/- and Disc +/-.

SEL   The **SEL** (Select) key selects options in your On-Screen menus. The **SEL** key may also control the following functions in other modes: **RCVR** mode = Surround Mode, **CD** mode = Disc Select, **DVD/LD** mode = Chapter.

EXIT   The **EXIT** key exits or clears your on screen menus. The **EXIT** key may also control the following functions in other modes: **RCVR** and **CD** mode = Open/Close.

PROG/GUIDE / ▲ / ▼ / ◀ / ▶ / SEL / EXIT   The **PROG/GUIDE** key operates your components secondary menus as well as your DBS system's and Cable Converter's Guide function. Use the ▲, ▼, ◀ and ▶ (Menu Up, Down, Left and Right) keys to navigate your menus. If your original remote control had a SELECT key to select options in your menus, use **SEL**. Use the **EXIT** key to exit/clear your On-

Screen menus. Please consult your home entertainment component's original owner's manual for more detailed instructions on accessing and navigating your On-Screen menus.

DISPLAY   The **DISPLAY** key operates the Display function of your home entertainment components.

PIP On/Off   The **PIP On/Off** key accesses your TV's Picture-in-Picture feature. The **PIP On/Off** key may also control the following functions in other modes: **CD** mode =Disk Skip, **DVD/LD** mode = Subtitle On/Off, **CBL/SAT** mode = View.

Swap   The **SWAP** key swaps the Picture-in Picture window and the TV's main picture. The **SWAP** key may also control the following functions in other modes: **CBL/SAT** mode = SAT.

Move   The **MOVE PIP** key moves the Picture in-Picture window around your TV screen. The **MOVE PIP** key may also control the following functions in other modes: **DVD/LD** mode = Angle, **CBL/SAT** mode = Next.

SURROUND   The **SURROUND** key operates the same as the Surround On/Off key on your original remote. The **SURROUND** key may also control the following functions in other modes: **VCR** mode = Auto Tracking, **DVD/LD** mode = Disc, **CBL/SAT** mode = Favorite Channel, **CD** mode = 10+.

MACRO / MACRO2   The **MACRO** and **MACRO2** keys can sequentially memorize up to 15 key strokes per key for access with a single key press. These keys are not mode specific. See page 26 for more details.

1L / 2L / 3L / 4L   **1L**, **2L**, **3L**, and **4L** are mode-specific learning keys that allow you to customize your *Cinema 6+* for unique functions not found on your new remote control. They will accept up to four new functions per device mode for a total of 24 new functions. See page 22 for additional details.

INSTALLING THE BATTERIES

Your *Cinema 6+* requires four (4) new AAA alkaline batteries. To install the batteries:

1. On the back of the *Cinema 6+*, pull back on the tab and lift the battery cover off.
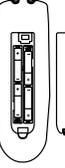

2. Match the + and - marks on the batteries to the + and - marks in the battery case, then insert the batteries.

3. Press the battery cover back into place.

4. Test the unit by pressing **POWER**. If the bateries are inserted correctly, the red light will blink.

NOTE: Removing the batteries will not require you to reprogram your remote control because the Cinema 6+ has unlimited memory backup.

SETTING UP YOUR COMPONENTS

Programming the *Cinema 6+* to operate your TV:

NOTE: If you are trying to program a TV/VCR combination, do not perform these instructions. Instead, follow the steps in "Programming the Cinema 6+ to operate your TV/VCR Combo" starting on page 13.

Locate the brand name of your TV in the "Setup Codes For TVs" section (starting on the next page), and write it in the space below.

TV Brand: _____

The brands are listed in alphabetical order with the most popular codes listed first. You will use one of these codes to program your *Cinema 6+* to operate your TV as follows:

1. Turn on your TV.

2. On the *Cinema 6+*, press **TV** and release. Press and hold **SETUP** until the red light blinks twice, then release **SETUP**.

3. Enter the first four-digit TV code listed for your brand. If performed correctly, the red light will blink twice when you enter the final digit.

4. Aim the *Cinema 6+* at your TV and press

POWER. The TV should turn off. If it does not respond, repeat steps 2-4, trying each code listed for your brand until you find the one that operates your TV.

NOTE: If you have tried all the codes listed for your brand and your TV does not respond, try using the search method found on page 21.

5. Your *Cinema 6+* is now programmed to operate your TV. Write your TV code in the boxes to the left for future reference.

Remember, if you want to use your *Cinema 6+* to operate your TV, press the **TV** key first.

Programming the *Cinema 6+* to operate your VCR:

Locate the brand name of your VCR in the "Setup Codes For VCRs" section (starting on the next page), and write it in the space below.

VCR Brand: _____

The brands are listed in alphabetical order with the most popular codes listed first. You will use one of these codes to program your *Cinema 6+* to operate your VCR as folllows:

1. Turn on your VCR and play a tape.

2. On the *Cinema 6+*, press **VCR** and release. Press and hold **SETUP** until the red light blinks twice, then release **SETUP**.

3. Enter the first four-digit VCR code listed for your brand. If you perform this procedure correctly, the red light will blink twice when entering the final digit.

4. or Aim the *Cinema 6+* at your VCR and press **POWER**. Your VCR should turn off. If your original VCR remote control did not have a POWER key, press **STOP**. Your VCR should stop. If your VCR does not respond, repeat steps 2-4, trying each code listed for your brand until you find the one that operates your VCR.

   NOTE: If you have tried all the codes listed for your brand and your VCR does not respond, try using the search method found on page 21.

5. Your *Cinema 6+* is now programmed to operate your VCR. Write your VCR code in the boxes to the left for future reference.

Remember, if you want to use your Cinema 6+ to operate your VCR, press the **VCR** key first.

NOTE: If your TV/VCR works with one of the above codes highlighted with an asterisk (*), you may need to program a separate TV code to control the volume. Check the list of codes below and follow the instructions in the "Programming the Cinema 6+ to Operate Your TV" section to program the supplied TV code.

TV/VCRs working on VCR code 0032 may require TV code 0000 for volume control.
TV/VCRs working on VCR code 0035 may require TV code 0051 for volume control.
TV/VCRs working on VCR code 0048 may require TV code 0093 for volume control.
TV/VCRs working on VCR code 0060 may require TV code 0047 for volume control.
TV/VCRs working on VCR code 0081 may require TV code 0054 for volume control.
TV/VCRs working on VCR code 0162 may require TV code 0250 for volume control.
TV/VCRs working on VCR code 0278 may require

TV code 0451 for volume control.

Programming the Cinema 6+ to operate your DVD or Laser Disc Player:
Locate the brand name of your DVD or Laser Disc Player in the DVD or Laser Disc Player setup codes (starting on the next page), and write it in the space below.

DVD/LD Player Brand: _____

The brands are listed in alphabetical order with the most popular codes listed first. You will use one of these codes to program your *Cinema 6+* to operate your DVD or Laser Disc Player as follows:

1. Turn on your DVD or Laser Disc Player and insert a
[DVD/LD] disc.

[SETUP] 2. Press **DVD/LD** and release. Press and hold **SETUP** until the *Cinema 6+*'s red light blinks twice, then release **SETUP**.

3. Enter the first four-digit DVD or Laser Disc Player code listed for your brand. If performed correctly, the
[POWER] red light will blink twice when entering the final digit.

4. Aim the *Cinema 6+* at your DVD or Laser Disc Player and press **POWER**. Your DVD or Laser Disc Player should turn off. If it does not respond, repeat steps 2-4, trying each code listed for your brand until you find the one that works.

NOTE: If you have tried all the codes listed for your brand and your DVD or Laser Disc Player does not respond, try using the search method found on page 21.

☐
☐
5. ☐ Your *Cinema 6+* is now programmed to operate your
☐ DVD or Laser Disc Player. Write your DVD or Laser
☐ Disc Player code in the boxes to the left for future reference.

Remember, to use *Cinema 6+* to operate your DVD or Laser Disc Player, press the **DVD/LD** key first.

Programming the *Cinema 6+* to operate your Receiver/Tuner:
Locate the brand name of your Receiver/Tuner in the "Setup
Codes For Receiver/Tuners" section (starting below page),
and write it in below.

Receiver/Tuner Brand: _____

The brands are listed in alphabetical order with the most
popular codes listed first. You will use one of these codes to
program your *Cinema 6+* to operate your Receiver/Tuner as
follows:

1. [RCVR] Turn on your Receiver/Tuner.

2. [SETUP] Press **RCVR** and release. Press and hold **SETUP**
    until the *Cinema 6+*'s red light blinks twice, then
    release **SETUP**.

3. Enter the first four-digit Receiver/Tuner code listed
    for your brand in the "Setup Codes For
    Receivers/Tuners" section. If performed correctly, the
    red light will blink twice when you enter the final
    digit.

4. Aim the *Cinema 6+* at your Receiver/Tuner and press
    POWER. The unit should turn off. If it does not
    respond, repeat steps 2-4, trying each code listed for
    your brand until you find one that works.

    *NOTE: If the unit still does not respond, try using the
    search method on page 21.*

5. Your *Cinema 6+* is now programmed to operate your
    Receiver/Tuner. Write your
    Receiver/Tuner code in the boxes to the left for
    future reference.

Remember, to use your *Cinema 6+* to operate your
Receiver/Tuner, press the **RCVR** key first.

Programming the *Cinema 6+* to operate your CD Player:
Locate the brand name of your CD Player in the "Setup Codes
For CD Players" section (starting on the next page), and write
it in the space below.

CD Player Brand: _____

The brands are listed in alphabetical order with the most
popular codes listed first. You will use one of these codes to
program your *Cinema 6+* to operate your CD Player as fol-
lows:

1. [CD] Turn on your CD Player and insert a disc.

2. [SETUP] Press **CD** and release. Press and hold **SETUP** until
    the *Cinema 6+*'s red light blinks twice, then release
    SETUP.

3. Enter the first four-digit CD Player code listed for
    your brand. If performed correctly, the red light will
    blink twice when you enter the final digit of your
    code.

4. Aim the *Cinema 6+* at your CD Player and press **PL**
    (Play). Your CD Player should play your disc. If it
    does not respond, repeat steps 2-4, trying each
    code listed for your brand until you find the one that
    operates your CD Player.

    *NOTE: If you have tried all the codes listed for your
    brand and your CD Player does not respond, try
    using the search method found on page 21.*

5. Your *Cinema 6+* is now programmed to operate your
    CD Player. Write your CD Player code in the boxes
    to the left for future reference.

Remember, if you want to use your *Cinema 6+* to operate your CD Player, press the **CD** key first.

Programming the *Cinema 6+* to operate your Cable Converter or Satellite Receiver:

Locate the brand name of your Cable Converter or Satellite Receiver in the "Setup Codes for Cable Converters" or "Setup Codes for Satellite Receivers" section (starting on the next page), and write it in either space below.

Cable Converter Brand: _____

or

Satellite Receiver Brand: _____

The brands are listed in alphabetical order with the most popular codes listed first. You will use one of these codes to pro-

gram your *Cinema 6+* to operate your Cable Converter or Satellite Receiver as follows:

1. Turn on your Cable Converter or Satellite Receiver.

2. Press **CBL/SAT** and release. Press and hold **SETUP** until the *Cinema 6+*'s red light blinks twice, then release **SETUP**.

3. Enter the first four-digit Cable Converter or Satellite Receiver code listed. If you perform this procedure correctly, the red light will blink twice when you enter the final digit of your code.

4. Aim the *Cinema 6+* at your Cable Converter or Satellite Receiver and press **POWER**. Your Cable Converter or Satellite Receiver should turn off. If it does not respond, repeat steps 2-4, trying each code listed for your brand until you find the one that operates your Cable Converter or Satellite Receiver.

   NOTE: If you have tried all the codes listed for your brand and your Cable Converter or Sateliite Receiver does not respond, try using the search method found on page 21.

5. Your *Cinema 6+* is now programmed to operate your Cable Converter or Satellite Receiver. Write your Cable Converter or Satellite Receiver code in the boxes to the left for future reference.

Remember, if you want to use your *Cinema 6+* to operate your Cable Converter or Satellite Receiver, press the **CBL/SAT** key first.

SEARCHING FOR YOUR CODE

If your TV, VCR or Cable Converter does not respond to the *Cinema 6+* after trying all of the codes listed for your brand, or if your brand is not listed at all, try searching for your code. For example, after trying all of the codes for your TV, you still cannot get the *Cinema 6+* to operate your TV, then:

1. Turn on your TV.

2. Press **TV** and release. Press and hold **SETUP** until the *Cinema 6+*'s red light blinks twice, then release **SETUP**.

3. Press **9** - **9** - **1**.

4. Slowly alternate between pressing **POWER*** and **TV** until your TV turns OFF. Make sure that the *Cinema 6+* is aimed at your TV during the search. You may have to press this sequence of buttons (**POWER*** then **TV**) up to 100 times to search the entire library of codes.

5. When your TV turns OFF, press and release **SETUP** to lock in the code for your TV. Your *Cinema 6+* is now programmed to operate your TV.

*If you are searching for your VCR, CD, LD or DVD Player code, you may want to play a tape or disk and use the **STOP** key instead of the **POWER** key to search for your code. When your VCR stops, press **SETUP** to lock in your code.

NOTE: *To search for the codes of your other components, repeat Steps 1 through 5, only substitute the appropriate device key (ie., **VCR**, **DVD/LD**, **RCVR**, **CD** or **CBL/SAT**) for the component you are searching for.*

RETRIEVING THE CODES PROGRAMMED INTO THE Cinema 6+

If you have set up the *Cinema 6+* using the "SEARCHING FOR YOUR CODE" procedure, you may want to figure out which four-digit code is operating your equipment. Use this procedure after you have set up your components to find out which four-digit code is operating your equipment. For example, to find out which code is operating your TV after setting up your TV using the "SEARCHING FOR YOUR CODE" procedure:

1. Press **TV** and release. Press and hold **SETUP** until the *Cinema 6+*'s red light blinks twice, then release **SETUP**.

2. Press **9** - **9** - **0**.

3. For the first digit of your four-digit code, press **1** and count the number of times the red light (LED) blinks on the *Cinema 6+*. If the light does not blink when you press the number **1**, the digit is zero.

4. For the second digit, press **2** and count the number of times the red light (LED) blinks on the *Cinema 6+*.

If the light does not blink when you press the number **2**, the digit is zero.

5. For the third digit, press **3** and count the number of times the red light (LED) blinks on the *Cinema 6+*. If the light does not blink when you press the number **3**, the digit is zero.

6. For the fourth and final digit, press **4** and count the number of times the red light (LED) blinks on the *Cinema 6+*. If the light does not blink when you press the number **4**, the digit is zero. Now you have your four-digit code.

NOTE: To find out the code for your other components, repeat Steps 1 through 6, only substitute the appropriate device key (VCR, DVD/LD, RCVR, CD or CBL/SAT) for the component code you wish to learn.

### LEARNING FUNCTIONS ONTO THE 1L, 2L, 3L AND 4L KEYS

The 1L, 2L, 3L and 4L keys can be used to customize those functions that are unique to your home entertainment needs. For example, the *Cinema 6+* does not offer *Tracking Up* or *Down* for a VCR. With the learning feature on the *Cinema 6+*, you can add these functions and many others learned from your original remote control.

NOTE: Please have your original remote controls handy before performing learning on the Cinema 6+.

1. Press and hold **SETUP** until the *Cinema 6+*'s red light blinks twice, then release **SETUP**.

2. Press **9** - **7** - **5**. The *Cinema 6+*'s red light will blink twice.

3. Press and release the Device key in which you want to learn a feature (e.g., **TV**).

NOTE: Steps 4 through 6 need to be completed within 10 seconds. Please read the next three steps before proceeding.

4. Press and release the **L** key in which the new feature is to be learned. The *Cinema 6+*'s red light will flash rapidly.

5. Align your original remote control with the arrow mark to the left of the LED on your Cinema 6+ remote control (see diagram below)
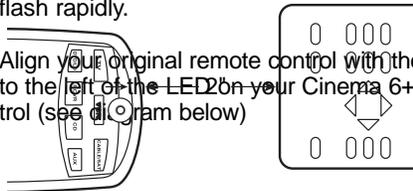

6. On your original remote, press and hold the key (feature) you want to learn until the red light on the

Cinema 6+ blinks twice. (If the red light does not blink twice, stop and repeat steps 1 through 6.)

NOTE: You can now repeat steps 3 through 6 to learn functions on the other L keys.

7. Press and hold in the **SETUP** key until the *Cinema 6+*'s red light flashes twice to lock in your new feature. (If the red light does not blink twice, stop and repeat steps 1 through 6).

8. To test the new feature, press and release the Device key in which the feature was learned followed by the **L** key on which the feature was learned.

Deleting Functions from the L Keys:

1. Press and hold in the **SETUP** key until the *Cinema 6+*'s red light flashes twice and then release the **SETUP** key.

2. Enter in **9** - **7** - **6**.

3. Press and release the Device key (e.g., **TV**) where the learned feature to be deleted is stored.

4. Press the **L** key to be deleted twice. The *Cinema 6+*'s red light will blink twice after the second press of the **L** key.

SETTING UP OTHER COMPONENTS

In addition to the components labeled on the device keys (**TV**, **VCR**, **DVD/LD**, **CBL/SAT**, etc.), the Cinema 6+ can also operate the following components: Cassette Decks, Infrared Home Automation, MiniDisc, Video Accessories, Amplifier and Miscellaneous Audio Components (Graphic Equalizers and Digital Music Service Boxes).

The Setup Codes for these components can be accessed under the following device keys:

Cassette Decks: Use the **VCR** Key

IR Home Automation: Use the **CD** Key

MiniDisc: Use the **CD** Key

Video Accessories: Use the **CBL/SAT** Key

(**Note** : WebTV found under Video Accessories)

Amplifier Use the **RCVR** Key

Miscellaneous Audio: Use the **RCVR** Key

For example, to set up a Cassette Player on the VCR key:

1. Turn on your Cassette Player and insert a tape.

2. Press **VCR** and release. Press and hold **SETUP** until the *Cinema 6+*'s red light blinks twice, then release **SETUP**.

3. Enter the first four-digit Cassette Player code listed for your brand in the "Setup Codes For Audio Cassettes" section. If you perform this procedure

correctly, the red light will blink twice when you enter the final digit of your code.

4. Aim the *Cinema 6+* at your Cassette Player and press **PL** (Play). Your unit should play the tape. If it does not respond, repeat steps 2-4, trying each code listed for your brand until you find the one that works.

5. Your *Cinema 6+* is now programmed to operate your Cassette Player.

Remember, if you want to use your *Cinema 6+* to operate your Cassette Player, press the **VCR** key first.

RE-ASSIGNING DEVICE KEYS

You can use the *Cinema 6+* to operate a second TV or a second VCR or any combination of six home entertainment components. For example, you may want your *Cinema 6+* to control 1 Cable Converter, 1 Receiver, 1 CD Player, 1 DVD Player and 2 VCRs. To accomplish this, you must re-assign one of the device keys to operate the desired component, in this case, a second VCR. The chart below shows you how to re-assign a particular device key and then set up your new component.

TV to VCR	**SETUP* - 992 - VCR - TV - TV - SETUP*** - VCR code
TV to DVD/LD	**SETUP* - 992 - DVD/LD - TV - TV - SETUP*** - DVD or LD Player code
TV to RCVR	**SETUP* - 992 - RCVR - TV - TV - SETUP*** - Audio code
TV to CD	**SETUP* - 992 - CD - TV - TV - SETUP*** - CD Player code
TV to CBL/SAT	**SETUP* - 992 - CBL/SAT - TV - TV - SETUP*** - Cable/DBS code
VCR to TV	**SETUP* - 992 - TV - VCR - VCR - SETUP*** - TV code
VCR to DVD/LD	**SETUP* - 992 - DVD/LD - VCR - VCR - SETUP*** - DVD/LD Player code
VCR to RCVR	**SETUP* - 992 - RCVR - VCR - VCR - SETUP*** - Audio code
VCR to CD	**SETUP* - 992 - CD - VCR - VCR - SETUP*** - CD Player code
VCR to CBL/SAT	**SETUP* - 992 - CBL/SAT - VCR - VCR - SETUP*** - Cable/DBS code
DVD/LD to TV	**SETUP* - 992 - TV - DVD/LD - DVD/LD - SETUP*** - TV code
DVD/LD to VCR	**SETUP* - 992 - VCR - DVD/LD - DVD/LD - SETUP*** - VCR code
DVD/LD to RCVR	**SETUP* - 992 - RCVR - DVD/LD - DVD/LD - SETUP*** - Audio code
DVD/LD to CD	**SETUP* - 992 - CD - DVD/LD - DVD/LD - SETUP*** - CD Player code
DVD/LD to CBL/SAT	**SETUP* - 992 - CBL/SAT - DVD/LD - DVD/LD - SETUP*** - Cable/DBS code
RCVR to TV	**SETUP* - 992 - TV - RCVR - RCVR - SETUP*** - TV code
RCVR to VCR	**SETUP* - 992 - VCR - RCVR - RCVR - SETUP*** - VCR code
RCVR to DVD/LD	**SETUP* - 992 - DVD/LD - RCVR - RCVR - SETUP*** - DVD/LD Player code
RCVR to CD	**SETUP* - 992 - CD - RCVR - RCVR - SETUP*** - CD Player code
RCVR to CBL/SAT	**SETUP* - 992 - CBL/SAT - RCVR - RCVR - SETUP*** - Cable/DBS code
CD to TV	**SETUP* - 992 - TV - CD - CD - SETUP*** - TV code
CD to VCR	**SETUP* - 992 - VCR - CD - CD - SETUP*** - VCR code

CD to DVD/LD	**SETUP* - 992 - DVD/LD - CD - CD - SETUP*** - DVD or LD Player code
CD to RCVR	**SETUP* - 992 - RCVR - CD - CD - SETUP*** - Audio code
CD to CBL/SAT	**SETUP* - 992 - CBL/SAT - CD - CD - SETUP*** - Cable/DBS code
CBL/SAT to TV	**SETUP* - 992 - TV - CBL/SAT - CBL/SAT - SETUP*** - TV code
CBL/SAT to VCR	**SETUP* - 992 - VCR - CBL/SAT - CBL/SAT - SETUP*** - VCR code
CBL/SAT to DVD/LD	**SETUP* - 992 - DVD/LD - CBL/SAT - CBL/SAT - SETUP*** - DVD or LD code
CBL/SAT to RCVR	**SETUP* - 992 - RCVR - CBL/SAT - CBL/SAT - SETUP*** - Audio code
CBL/SAT to CD	**SETUP* - 992 - CD - CBL/SAT - CBL/SAT - SETUP*** - CD Player code

NOTE: Here (*) you must hold SETUP until the Cinema 6+'s red light blinks twice.

PROGRAMMING THE MACRO KEYS

The *Cinema 6+* has two Macro keys (**MACRO** and **MACRO2**) that allow the user to play back a series of key-strokes, at any time, with the press of one key. For example, to set up a sequence that will turn on your components and change the components to the proper inputs:

1. Press and hold **SETUP** until the *Cinema 6+*'s red light blinks twice, then release **SETUP**.

2. Press **9** - **9** - **5**. The *Cinema 6+*'s red light will blink twice.

3. Press and release one of the **MACRO** keys. This will be the key that will play back the series of key-strokes assigned to that key.

4. Begin entering the sequence of keystrokes, up to 15, that you wish to be played back when you press the **MACRO** key. For example:

   RCVR – POWER – TV – POWER – TV/VCR (To change the input on the TV to VIDEO 1) **– CBL/SAT – POWER**.

5. Once your sequence is entered, press and hold **SETUP** until the *Cinema 6+*'s red light blinks twice.

Now, using the example as above, whenever the pro-grammed **MACRO** key is pressed, the Receiver would power ON, the TV will power ON and change the input to VIDEO 1 and then the Satellite would power ON.

Repeat steps 1 - 5 to then setup a second sequence on the **MACRO2** key.

VOLUME LOCK

Volume Lock allows the user to designate which component will control the volume in the **TV**, **DVD/LD** and **CBL/SAT** modes. To set the Volume Lock to the **TV** mode:

1. Press and hold **SETUP** until the *Cinema 6*'s red light blinks twice, then release **SETUP**.

2. Press **9** - **9** - **3**. The *Cinema 6+*'s red light will blink twice.

3. Press and release **TV**. The *Cinema 6+*'s red light will blink twice.

Now, whenever you press **VOL**, **VOL** or **MUTE** in the **VCR**, **DVD/LD** and **CBL/SAT** modes your TV will control the volume. If you would like to change the Volume Lock setting to the **VCR**, **DVD/LD** or **CBL/SAT** modes repeat steps 1-3, only substitute the appropriate device key. Setting the Volume Lock to the **TV**, **VCR**, **DVD/LD** or **CBL/SAT** mode will not effect the volume control in the **RCVR** and **CD** mode.

You can also change the Volume Lock setting so that an Audio component controls the volume in all device modes. To change the Volume Lock setting on the Cinema 6+ to the **RCVR** mode:

1. Press and hold **SETUP** until the *Cinema 6+*'s red light blinks twice, then release **SETUP**.

2. Press **9** - **9** - **3**. The *Cinema 6+*'s red light will blink twice.

3. Press and release **RCVR**. The *Cinema 6+*'s red light will blink twice.

Now, whenever you press **VOL**, **VOL** or **MUTE** your Audio component will control the volume in all device modes.

You can also change the Volume Lock setting so that each component controls its own volume. However, some compo-nents do not have volume control. Using this setting may eliminate volume control in some device modes. To change the Volume Lock setting on the *Cinema 6+* so each mode controls its own volume:

1. Press and hold **SETUP** until the *Cinema 6+*'s red light blinks twice, then release **SETUP**.

2. Press **9** - **9** - **3**. The *Cinema 6+*'s red light will blink twice.

3. Press and release **VOL**. The *Cinema 6+*'s red light will blink twice.

Now, whenever you press press **VOL**, **VOL** or **MUTE** on the *Cinema 6+* each component will control its own volume, provided each component has volume control.

USING THE SLEEP KEY

The **SLEEP** key allows you to access the sleep timer of your TV, Cable Converter/DBS Satellite or Audio component. You can access your TV, Cable Converter, DBS Satellite or Audio component's Sleep Timer by pressing the **SLEEP** key. Most Sleep Timers advance in increments of 10 or 15 minutes, however, for specific instructions on setting your components Sleep Timer, please consult your original owner's manual.

Even if your original Cable Converter remote control did not have a sleep timer, your *Cinema 6+* has its own built-in sleep timer. If your Cable Converter does not have a sleep timer, press the **SLEEP** key to activate the *Cinema 6+*'s built-in sleep timer. For example:

1. Press and release the **CBL/SAT** key then press the **SLEEP** key once to set the *Cinema 6+*'s built-in sleep timer for 15 minutes. The red light will blink once.

2. Each additional press of the **SLEEP** key will add 15 more minutes to the Sleep Timer, up to a maximum of 60 minutes. The LED will blink twice when the sleep timer is set for 30 minutes, 3 times for 45 minutes, or 4 times for 60 minutes.

NOTE: *The sleep timer starts 10 seconds after the last press of the **SLEEP** key. Once you have activated the Cinema 6+'s built-in sleep timer, you must keep the remote control aimed directly at the component.*

3. To de-activate the built-in sleep timer, press **POWER**.

NOTE: *Plugging your TV into the outlet on the back of the Cable Converter may allow you to turn both your Cable Converter and TV ON and OFF.*

TROUBLE SHOOTING

Problem	Solution
Red light does not blink when you press a key?	Replace the batteries with four (4) new AAA alkaline batteries.
The *Cinema 6* does not operate your home entertainment components or is not performing commands properly?	Try all of the codes listed for your brand of home entertainment component in the "Setup Codes" section. Many setup codes may allow for partial functionality, however, only one setup code will operate your home entertainment component correctly. **Make sure that all of the components you are setting up can be operated with an infrared remote control**.
Problems programming a TV/VCR combo?	Try the VCR set-up codes for your brand. However, some combo units may require both a TV code for volume control and a VCR code for the remaining functions.
VCR not recording?	As a safety feature on the *Cinema 6*, you must press the **REC** key twice.
CH▲/**▼** and **PREV CH** not working for your RCA TV?	Due to RCA design (1983-1987), only the original remote control will operate these functions.
Problems changing channels?	If your original remote control required an Enter keystroke when changing channels, press the **ENTER** key on the *Cinema 6* after you enter the channel number.
The red light blinks when you press a key but you receive no response from your home entertainment component?	Make sure you are aiming your *Cinema 6* at your home entertainment component and that you are within 15 feet before using your remote.
Cinema 6 not learning a command from your original remote control?	Make sure your remote controls are nose-to-nose and are no more than 2 inches apart (see diagram in step 5 on page 22).
Tried "Search Method" and still did not find the code?	Try the "Search Method" again after clearing out the device key as follows: Press and hold **SETUP** until red light blinks twice, then release. Next enter **9**-**9**-**2**. Then press and release the device key to be cleared twice.
Sony's Picture In Picture (PIP) won't turn off?	Press **TV** once. Press and hold **SETUP** until red light blinks twice, then release. Enter **9**-**9**-**4** and press **SETUP** once. Then enter **6**-**2**-**1** and press **PIP On/Off**. The red light should blink twice. PIP should operate properly now.
Sharp's Picture In Picture (PIP) won't work properly?	Sharp's PIP feature requires separate PIP functions for "on" and "off". For PIP "on", press **TV** once. Press and hold **SETUP** until red light blinks twice, then release. Enter **9**-**9**-**4** and press **SETUP** once. Enter **3**-**4**-**8** and press **PIP On/Off**. The red light should blink twice. PIP "on" should operate properly now. For PIP "off", press **TV** once. Press and hold **SETUP** until red light blinks twice, then release. Enter **9**-**9**-**4** and press **SETUP** once. Enter **6**-**0**-**6** and press **SETUP PIP On/Off**. The red light should blink twice. PIP "off" should operate by pressing SETUP then the PIP key.

TROUBLE SHOOTING (continued)

Problem	Solution
Surround on Sony receiver will not turn on?	Press **RCVR** once. Press and hold **SETUP** until red light blinks twice, then release. Enter **9**-**9**-**4** and press **SETUP** once. Enter **3**-**9**-**8** and press **SUR-ROUND**. Red light should blink twice. Surround should operate now.
Sony receiver will turn off but not back on?	Try using the number pad on the *Cinema 6* to turn the receiver back on. For example, try pressing 0 to turn on in the CD mode, or 4 to turn on in the Video 1 mode. Other numeric keys will also turn the receiver on. If this doesn't work, try the following: Press **RCVR** once. Press and hold **SETUP** until red light blinks twice, then release. Enter **9**-**9**-**4** and press **SETUP** once. Then enter **5**-**9**-**1** and press **POWER**. The red light should blink twice. Power should operate properly now.
Audio component not fully-operational?	Audio functionality may be split between codes. For example, Pioneer's Tuner code 0014 works tuner presets, but only Amplifier code 0013 works power and volume. This also true for Sony's Receiver code 0158 and Misc. Audio code 0159. If some functionality is missing, try other codes to see if functionality resides there.
Mini-system, book-shelf, or boombox not working?	These systems may operate using a CD or Misc. Audio code. If the original remote control did not have a power key, press **PL** (or **STOP**) to turn on (or off) the system.

ONE FOR ALL® PRODUCTS
Limited Warranty

One For All ("OFA") warrants, to the original purchaser only, that this product will be free from defects in materials and workmanship, under normal use, for ninety (90) days from the date of original purchase.

This warranty does not cover damage or failures caused by products or services not supplied by OFA, or which result from accident, misuse, abuse, neglect, mishandling, misapplication, faulty installation, set-up adjustment, improper maintenance, alteration, maladjustment of consumer controls, modifications, commercial use, or that is attributable to acts of God.

There are no express warranties except as listed above. OFA SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT OR ARISING OUT OF ANY BREACH OF WARRANTY. ALL EXPRESS AND IMPLIED WARRANTIES, INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE WARRANTY PERIOD SET FORTH ABOVE. Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, so the above exclusions or limitations may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

To obtain warranty service for a defective product during the warranty period, please return the product, preferably in the original carton, along with your purchase receipt, to the store of original purchase. A note detailing the complaint would be helpful. The store, at its option, will replace or repair this product if found to be defective.
