

SIMPLE CONNECTIVITY. MORE FREEDOM OF CHOICE.

The Jabra GN1215 cord is the solution for Avaya X-One phone systems where microphone volume controls are needed in direct connect applications. The Jabra GN1215 cord has been designed to offer unique connectivity at an affordable price.

Now your choice of headset is no longer limited by the telephone system. With the Jabra GN1215 cord you are able to connect a range of GN Netcom's most popular professional Jabra headsets dedicated for all-day use in even the toughest environments. And best of all, the Jabra GN1215 cord represents an extremely affordable solution for Avaya X-One based systems.

Jabra GN1215 features eight microphone compatibility settings ensuring proper compatibility and volume level with Jabra corded headsets. Simply connect the Jabra GN1215 cord and Jabra headset from GN Netcom through the Quick Disconnect plug and set the selector switch to the appropriate compatibility setting.

Jabra GN1215

FEATURES & BENEFITS

FEATURES	BENEFITS
Simple 8-position slide adjustment	No need for a user manual; simply slide until receiving end can hear you clearly
Standard connector (RJ9)	Connects to all Avaya x-One telephones using a standard modular plug
Standard GN Netcom Quick disconnect plug to headset straight 80 cm / 31.5 inch cord	Guaranteed to work with our most popular headsets equipped with Quick disconnect

The new Avaya X-One phones, at present the 96xx, 16xx and 17xx series is being introduced across all Avaya phone platforms. The phones have headset ports with unique electrical characteristics that are not compatible with some existing GN Netcom direct connect corded headsets. This compatibility issue is resolved when using the Jabra GN1215 cord. GN Netcom wireless headsets such as Jabra GN9125 and Jabra GN9300e Series, and amplifiers such as Jabra GN8000 and Jabra GN8210, are fully compatible with

these phones on compatibility "A" setting. The Jabra GN1215 cord compensates for the differences in electrical characteristics of the various microphones on our family of corded headsets. The Jabra GN1215 solves this and works with all our headsets. It has a setting for each different headset. The cord will only work on aforementioned phones and is not a "universal" solution like the Jabra GN1200. The Jabra GN1215 cord has been tested with the following GN Netcom corded headsets with the switch settings shown below.

HEADSET TYPE	MICROPHONE SETTING
Jabra GN2000 NB series	5
Jabra GN2000 IP series	3
Jabra GN2100 NC series	6
Jabra GN2100 ST series	5
Jabra GN1900 switch setting	8
Setting may vary +/-	1
