Table Top - External Suction Device

The new range of appliances developed for the vacuum packing of cooked and raw foods can provide the highest quality and hygiene, in line with every professional kitchen that requires the best conservation standards. The model detailed on this sheet is a vacuum packaging machine with an external suction device.

603353

FEATURES

- Constructed in stainless steel.
- Its compact dimensions and light weight make it easy to store and to use.
- Sealing bar is 435 mm in length.
- The control panel is easy to use and allows the user to select the program mode (manual, automatic or for external suction), sealing and vacuum time.
- Suitable to work both with bags and containers.

- Two cycle modes: automatic and manual.
 - There are nine different levels of suction/vacuums in the automatic cycle, which range from 0 to 45 seconds.
 - The manual cycle requires that the sealing time is set and that the user manually stop the vacuum process when the product has reached the desired vacuum-packing level.

Vacuum Packers

DITO

Electrolux

- Tube and valve for external suction modes.
- 3 liter plastic container for external vacuum is available as optional accessory.
