

NEW VISIONMOUNT® SUPER SLIM LOW-PROFILE MOUNT

Specially designed to highlight the sleek look of ultra-thin flat-panel TVs

The new LL11 Super Slim mount takes low profile to a new level. Its innovative design emphasizes the sleek look of ultra-thin LCD, plasma and LED TVs by placing them just .55" from the wall. And unlike other low-profile mounts on the market, the LL11 offers additional exclusive features that make it incredibly easy to install and use. Sanus' ClickStand™ technology holds the bottom of the TV away from the wall for easy cable access without removing the TV from the mount. The ProSet™ feature allows post-installation height and leveling micro-adjustments for perfect positioning after hanging. The TV can also shift left and right on the wall plate so it's placed exactly where you want it, even with off-center studs.

model LL11-B1 shown

Super Slim low-profile mount places TVs just .55" from wall—less than the width of a die

Innovative ClickStand™ holds TV away from wall for easy cable access without having to remove TV

ProSet™ post-installation height and leveling adjustments allow TV to be perfectly positioned after hanging

LL11-B1

Wall plate mounting holes designed to accommodate 16" or 24" on-center studs

Rail design allows TV to shift left and right for perfect placement with off-center studs

Universal TV brackets fit LCD, LED and plasma TVs from 37" – 65" and up to 150 lbs.

Convenient quick-release tabs on mounting brackets stay hidden, but easily pull down to unlock TV from wall plate for cable access

ProSet™ Technology

Problem: TV does not appear level with its surroundings.

Solution: Exclusive ProSet™ technology allows height and leveling adjustments after the TV is mounted.
