1 Install the software

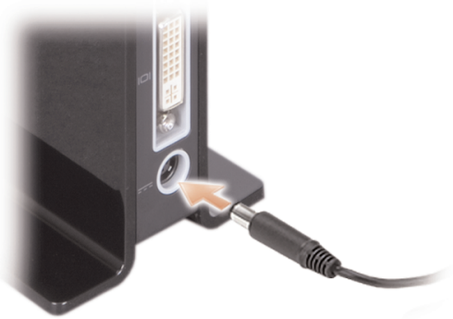
NOTE: If you ordered your computer with the Dell Wireless Dock, the software is pre-installed.

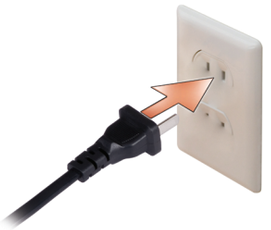
a) Insert the *Drivers and Utilities for the Dell Wireless Dock* media. The **Dell Wireless USB Install Shield Wizard** window appears.

b) Select **UWB Card and Wireless Dock drivers.**

c) Follow the instructions on the screen to install the software.

2 Connect the AC adapter cable and the power cable

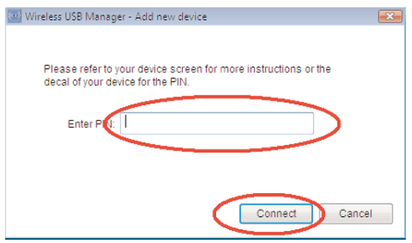




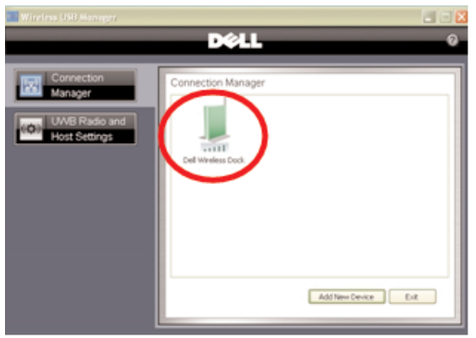
3 Complete the PIN association

a

b



c



a) Double-click the icon located on the taskbar to open the **Wireless USB Manager**. Click **Add New Device** to scan for wireless devices.

b) The **Add new device** window appears. Enter the PIN code found on the label located at the bottom of your Dell Wireless Dock. Click **Connect→ Next→ Finish.**

c) The Dell Wireless Dock icon turns green to indicate a successful wireless connection.

NOTE: To associate your computer with the wireless docking station using the cable association method, see the *User Manual* that ships with your Dell Wireless Dock.
