

Press to retract the cable.
Note: Keep your finger clear as the cable retracts.

Connect devices such as a digital camera, MP3 player, or scanner.

Back View

Extend the cable and connect the USB plug to your computer. The hub installs automatically. If necessary, follow the on-screen instructions to complete installation.

Your hub automatically shuts off any port with a low or excessive current.

If **USB Hub Current Limit Exceeded** appears on your screen, disconnect the affected USB device, click **Reset** on the screen, and reconnect the device.

If one of your hub ports is disabled, but **USB Hub Current Limit Exceeded** does not appear:

- Disconnect and reconnect the affected device.
- If the port still doesn't work, disconnect the hub and the device, and then reconnect both.

RF Emissions Information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult your local **RadioShack** store or an experienced radio/TV technician for help.

(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.
