

# Listen to your baby without interference

This Philips digital baby monitor system, using DECT technology, ensures absolutely no interference from other systems and lets you get on with your work or simply relax by yourself or with friends. A newborn can not yet regulate its own temperature, so it is important to keep an eye on the temperature in the baby room. You can do this by checking the LCD display on the Parent unit or Baby unit. Be sure that your baby is comfortable without having to disturb it. You can control the system from the Parent unit, wherever you are!

- 100% Digital - Zero interference guaranteed
- 120 Channels, with auto select
- Privacy guaranteed
- Single-Point Control
- Sound level lights
- Talk back to comfort baby
- Night light on Baby unit
- LCD on both Parent unit and Baby unit
- 5 Lullabies
- Room temperature monitor

## Standard product information

- Type Corrugated carton window gift box
- Languages packaging English, French, Spanish, German, Dutch, Italian and Portuguese
- Languages IFU English, French, Spanish, German, Dutch, Italian, Portuguese, Greek, Swedish, Norwegian, Finnish, Danish

### Giftbox

- Dimensions (HxWxD) 267 x 233 x 95 mm
- Weight 1.36 kg
- Material 90% recycled
- EAN / Barcode /00 87 10895 85370 5

### Outer carton

- Contents 3
- Dimensions 318 x 283 x 256 mm
- Weight (gross) 4.6 kg
- EAN / Barcode /00 87 10895 85518 1

## Product Highlights

### Zero Interference

100% Digital DECT 'cordless telephone technology' guarantees you hear only your baby and no distracting noise or the neighbour's child!

### 120 Channels

It continuously searches for and automatically selects a channel that is free from other baby monitors, taxis, police radios or anything else.

### Privacy guaranteed

The unique and secure one-to-one connection means no one can eavesdrop on you.

### Single-Point Control

You can remotely adjust the volume and sound sensitivity of the baby unit using simple controls on your parent unit.

### DECT System Link

The continuous 100% digital two-way system check shows that you have contact and sounds an alarm if the contact is broken, so there's no need for a ticking clock to check if it is working.

### Sound Level Lights

Even if the parent unit's volume is turned down you can still 'see' how loud your baby's sounds are.

### 5 Lullabies

Choose from 5 lullabies to soothe your baby in to sleep.

### Room temperature monitor

The room temperature is constantly displayed on both the Baby and the Parent unit.

### Talk-back to comfort your baby

Reassure your baby with the soothing tones of your voice without having to go upstairs.

### Night-light

A warm glowing light to make your baby feel secure.

### Rechargeable batteries

Enjoy the convenience and savings of rechargeable batteries and a charging base for the parent unit.

### Portable parent unit

With the adjustable belt clip, you can easily take the Parent unit with you, wherever you go.

### Wide operating range

You can move freely in and around your house within a range of around 50 metres indoors and up to 300 metres in ideal open-air conditions.

### Adjustable sound sensitivity

Set the baby unit's sound sensitivity level to pick up the sounds you want to hear.

### Two AC power adapters included

You can run both the baby unit and parent unit on mains power to save on batteries. Rechargeable batteries for Parent unit included.

### Battery back up

You can use the baby unit on batteries and on the mains. In case of mains failure it will automatically switch over to batteries (if batteries are installed).

### Battery-low indication

To know in time when the batteries need to be recharged or replaced.

### Volume control

You can set the volume to the ideal level to suit your preference.

### Paging

If the Parent unit is misplaced and the volume is off, you can use the page button on the Baby unit to locate the Parent unit.
