

VN900 Classic/LT Gel Seats VN900 Custom Gel Seats Installation Instructions

- 1. Remove the stock seat (see Vehicle Owner's Manual).**
- 2. Remove the eight rubber dampener grommets from the underside of the seat pan and replace onto the Gel Seat in the same manner (lightly lubricate to ease installation).**
- 3. Remove the mounting brackets, washers and nuts from the seat pan and also remove the passenger hand hold strap.**
- 4. Replace the passenger hand hold strap, mounting brackets, washers and nuts onto the Gel Seat in the reverse order as you removed them. Tighten firmly.**
- 5. Replace the seat onto the motorcycle in the normal way (see Vehicle Owner's Manual)**
- 6. Clean the Gel Seat with a soft damp cloth. Do not use hard abrasive cleaners.**
