the following precautions:

Getting started

Unpacking the system

- one AM loop antenna one user manual
- Connections **Back view** 1. FM pigtail antenna 3. Main speaker jacks

You should have the following: one main unit (with 2 main speakers) one remote control

2. AM loop antenna jack

Using FM and AM antennas

Before you use your audio system you'll want to make sure both the FM and AM antennas are positioned properly. Uncoil the FM antenna at the back of the unit, making sure it is fully extended (you may even want to tape it to the wall behind the unit

You'll also need to connect the AM antenna loop to the back of the unit if you listen to AM stations. Rotate the AM loop

if possible, the higher the better).

Connecting main speakers Match the red wire (on the left

speaker) to red terminal for the left speaker (L) on the back of the unit and the black wire (on the left speaker) to the black terminal for left speaker (L). Follow the same procedure to connect the right (R) speaker.

connection points

lock wire in the terminal. NOTE: Make sure the insulation is completely removed from the

ends of the speaker wires at all
