features

# **Premium Wireless Performance with Exceptional Features**

The Intel® Centrino® Advanced-N 6235 delivers premium Wi-Fi performance with exceptional Intel-only features for an ultra mobile experience. This dual-stream (2x2), dual-band, Wi-Fi plus Bluetooth 4.0® product with Wi-Fi Direct® combines faster speeds (up to 300 Mbps¹), greater range and more reliability with innovative Intel® features, such as Intel® Smart Connect Technology, Intel® Wireless Display, Intel® My WiFi Dashboard and Intel® vPro™ Technology.

allows remote management of wireless settings and profiles by IT managers.

### **Recommended For**

Business or home, data intensive apps, streaming HD video, gaming, and network connectivity in crowded, heavy traffic and large area Wi-Fi environments.

Next-Gen Wireless Connectivity	
Dual-Stream, Dual Band 802.11a/g/n 2x2 and 2.4/5 GHz	Delivers up to 300 Mbps speed with dual streams (2x2) for better performance and connectivity in more places, through more walls, doors and floors. Use the power of 5 GHz to boost speeds and reduce congestion compared to older 2.4 GHz networks and devices.
Bluetooth 4.0* (Low Energy) Dual mode Bluetooth	Connects to Bluetooth enabled devices such as a headset, keyboard, mouse and more, including Bluetooth low energy devices.
Wi-Fi Direct* New game-changing technology certified by the Wi-Fi Alliance for direct device-to-device Wi-Fi connectivity	Enables Wi-Fi enabled devices to connect directly without the need for a WLAN or hotspot. With the Intel® My WiFi Dashboard you can chat, transfer files, create a personal hotspot, and sync over Wi-Fi Direct.*
Energy Efficient <sup>2</sup> Optimized power modes during periods of inactivity	Saves battery life for greater mobility and convenience.
Available in Low Profile Version For the thinnest Utrabook™ devices	Provides the same performance and reliability of the standard version in a low profile version for more aggressive system designs.
Ultra Mobile Experience	
Intel* Wireless Display <sup>3</sup> Share your personal and online content on a big HD screen (up to 1080p) with a simple wireless connection	Experience your favorite movies, videos, photos, online shows and more in full HD on your TV with great image clarity and sound. With a PC featuring Intel® Wireless Display and powered by an Intel® Core processor, share content from your hard disk, network or anywhere a browser can take you to a big screen.
Intel® Smart Connect Technology <sup>4</sup> Instant Internet and always updated mobility	Automatically updates important content and can identify access points while asleep for quicker Internet access on resume.
Intel® My WiFi Dashboard  Visually intuitive app for managing Wi-Fi Direct* connectivity and services	Use the ultimate portability of Wi-Fi Direct with the Intel® My WiFi Dashboard on your Ultrabook™, PC or other devices. Whether you're connected to a Wi-Fi network, public hotspot or no network at all – connect, communicate and collaborate with others in your vicinity. No extra hardware or cloud-based service needed. No fumbling for USB flash drives or complicated network setup.
Business-Class Management	
Intel' vPro™ Technology <sup>6</sup> Supports Intel's hardware-based security and management features built into Intel® Core™ vPro™ processors and chipsets	Manage PCs virtually anywhere, anytime while reducing deployment costs, improving security and ROI.
Intel® Active Management Technology® Supports Intel asset management, remote system diagnostics, network protection, and network security technologies	Provides IT managers the capability to remotely discover, heal, and protect wireless clients regardless of the functional state of the operating system resulting in reduced on-site support costs.
Intel' PROSet/Wireless Enterprise Software <sup>8</sup> Business-class WLAN client software with must-have IT	Combines simplified user interface design with advanced IT tools that improve security, reduce complexity and save IT time and money. Streamlines client deployments and

# Intel® Centrino® Advanced-N 6235 Technical Specifications

### General

Dimensions (H x W x D) Standard: 26.80 mm x 30.00 mm x 2.4 mm Max (Top Side) / 1.35 mm Max (Bottom Side)

Low profile: 26.80 mm x 30.00 mm x 1.5 mm Max (Top Side) / 0.6 mm Max (Bottom Side)

Weight

Diversity On-board diversity support for systems designed with two antennas

Radio ON/OFF Control Supported in both hardware and software

Connector interface Half Mini Card form factor, based on PCIe electrical interface

On/Off **LED Output** 0° to +80°C Operating Temperature (Adapter Shield)

**Humidity Non-Operating** 50% to 90% RH non-condensing (at temperatures of 25°C to 35°C)

Operating Systems Microsoft Windows 7\*, Microsoft Windows 8\*, Linux\*

Wi-Fi CERTIFIED\* for 802.11a, 802.11b, 802.11q, 802.11n, WMM\*, WPA\*, WPA2\*, and WPS Wi-Fi Alliance

Wi-Fi Direct for peer to peer device connections

Microsoft WHOL

IEEE WLAN Standard IEEE 802.11a/b/g/n, 802.11d, 802.11e, 802.11i, 802.11h

Infrastructure and SoftAP; Supports simultaneous Client and SoftAP modes in 2.4 GHz or 5 GHz Architecture

Roaming9 Supports seamless roaming between respective access points

(802.11b, 802.11g, 802.11a/b/g, and 802.11a/b/g/n) Dual Mode Bluetooth\* 2.1, 2.1+EDR, 3.0, 3.0+HS, 4.0 (BLE)

Bluetooth\* Security<sup>10</sup>

Authentication WPA and WPA2, 802.1X (EAP-TLS, TTLS, PEAP, LEAP, EAP-FAST), EAP-SIM, EAP-AKA

**Authentication Protocols** PAP, CHAP, TLS, GTC, MS-CHAP\*, MS-CHAPv2 Encryption 64-bit and 128-bit WEP, AES-CCMP, TKIP

Wi-Fi Direct\* Encryption and Authentication WPA2, AES-CCMP

**Product Safety** UL, C-UL, CB (IEC 60950-1)

Compliance

Retail (Credit Card Processing) PCI, CISP Government FIPS11, FISMA

operating system; national and soliware configurations. Circlex with your PC manufacturer for electars.

References to Wi-Fi module power consumption comparisons versus competing 802.11a/In WLAN solutions. Actual platform battery life savings will vary depending on your specific operating system, hardware and software configurations. Check with your PC manufacturer for details.

Requires an Intel® Wireless Display enabled PC, compatible adapter, and TV. 1080p and Blu-Ray\* or other protected content playback only available on 2nd generation Intel® Core™ processor-based PCs with built-in visuals enabled. Consult your PC manufacturer. For more information, see <a href="https://www.intel.com/go/widi">www.intel.com/go/widi</a>.

Intel® Smart Connect Technology requires a select Intel® processor, Intel® software and BIOS update, Intel® Wireless adaptor, and Internet connectivity. Solid state memory or drive equivalent may be required. Depending on system configuration, your results may vary. Contact your system manufacturer for more information.

Intel® W WiFi Dashboard is an optional feature and requires additional software and an Intel® Centrino® wireless adapter. Wi-Fi devices must be certified by the WiFi Alliance for 100 players and the processor of the process

802.11a/g/n and Wi-Fi Direct\* in order to connect. See <a href="www.intel.com/network/connectivity/products/wireless/mywifi.htm">www.intel.com/network/connectivity/products/wireless/mywifi.htm</a> for more details.

<sup>6</sup> Intel® vPro™ Technology is sophisticated and requires setup and activation. Availability of features and results will depend upon the setup and configuration of your hardware, software and IT environment. To learn more visit: http://www.intel.com/technology/vpro

Requires activation and a system with a corporate network connection, an Intel® AMT-enabled chipset, network hardware and software. For notebooks, Intel AMT may be unavailable or limited over a host OS-based VPN, when connecting wirelessly, on battery power, sleeping, hibernating or powered off. Results dependent upon hardware, setup & configuration. For more information, visit <a href="http://www.intel.com/technology/platform-technology/intel-amt">http://www.intel.com/technology/platform-technology/intel-amt</a>

http://www.intel.com/technology/piatrorm-technology/inter-and <sup>8</sup> Intel® PROSet/Wireless Software may not be supported by your PC manufacturer. Check with your PC manufacturer for details on availability.

Roaming is supported only within each respective band and mode of access points.

Roaming is supported only within each respective band and mode of access points.

Some security solutions may not be supported by your PC's operating system and/or by your PC manufacturer. Check with your PC manufacturer for details on availability.

Microsoft Windows 7 only.

Software and workloads used in performance tests may have been optimized for performance only on Intel microprocessors. Performance tests, such as SYSmark and MobileMark, are measured using specific computer systems, components, software, operations and functions. Any change to any of those factors may cause the results to vary. You should consult other information and performance

tests to assist you in fully evaluating your contemplated purchases, including the performance of that product when combined with other products.
