## INSTRUCTIONS

使用说明书

使用說明書

LVT1248-002A  
[US]

Thank you for purchasing a JVC product.  
Before you begin using it, please read the instructions carefully.

## Warnings, Cautions and Others

### Warning

Observe the following carefully before installation; otherwise, the speaker may fall over, causing damage or injury.

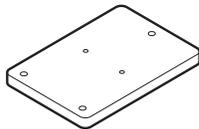

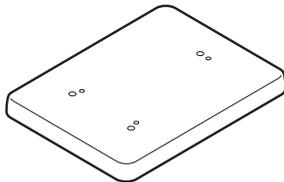

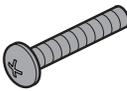

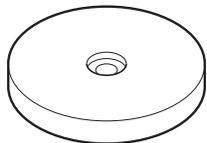

- Do not install the speaker stand on an uneven surface or in a place subject to vibration.
- Do not lean against the speaker stand. Especially pay attention to children not to do so.
- Fasten all the screws firmly when assembling the speaker stand, and check its tightness afterwards regularly.
- Do not install any overweight equipment (over 10 kg) on the speaker stand.

### Precautions

- **For safety use**
  - Do not climb or hang on to the speaker stand.
  - Attach the speaker firmly to the speaker stand.
- **For installation**
  - While installing the speaker on the stand, do not drop it from the stand. Pay attention not to damage the speaker cabinet.
  - To obtain the best bass sound quality, install the speaker stand on the flat floor.
- **For daily use**
  - Wipe with a dry, soft cloth if the speaker stand should become dirty. If very dirty, wipe with a cloth applied a small amount of water or neutral detergent, then wipe with a dry cloth.
  - Do not use chemicals such as benzine and thinner for cleaning the speaker stand; otherwise, the speaker stand may deteriorate or its paint may come off.

### Checking the supplied parts

Check to be sure you have the following supplied parts.  
The quantity of piece supplied is for one pair of speaker stands.

<b>Top plate</b> ----- 2 	<b>Bottom plate</b> ----- 2 	<b>Leg A</b> ----- 2  (thick)	<b>Leg B</b> ----- 4  (thin)
<b>Screws A</b> ----- 6  (Black: M6 x 30 mm)	<b>Screws B</b> ----- 6  (Black: M6 x 16 mm)	<b>Screws C</b> ----- 4  (Silver: M5 x 28 mm)	<b>Leg holder</b> ----- 6 

If any item is missing, contact your dealer immediately.

## Assembly

### Before assembling—

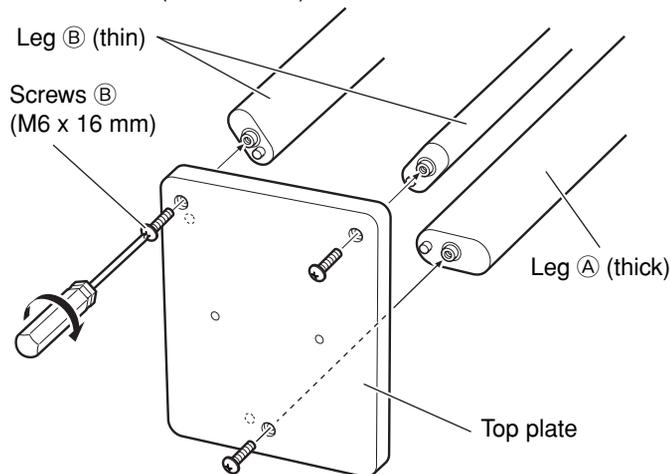

- Prepare a Phillips screwdriver.
- Place a large, thick cloth on the floor where you assemble the speaker stand to protect the floor and the speaker stand.

### ■ Assembling the speaker stand

- **Tighten the screws firmly so that no space is left between the legs and plates.**

#### 1 Fix the top plate.

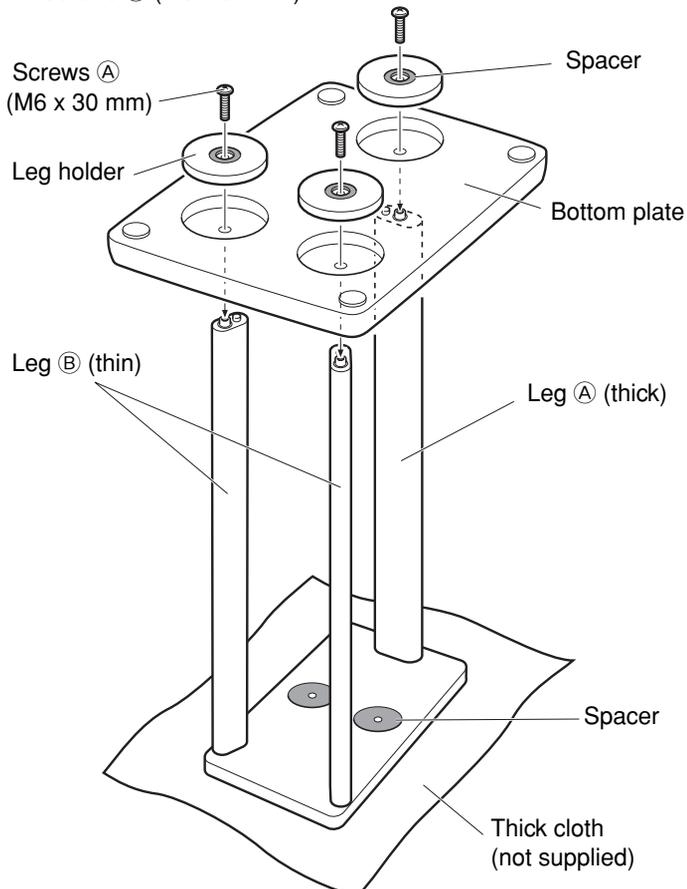

- Align the projection of the legs to the holes of the top plate correctly, then attach them with three of the supplied screws **B** (M6 x 16 mm).

\* The side without spacer should face outside.

#### 2 Fix the bottom plate and leg holders.

- Align the projection of the legs to the holes of the bottom plate correctly, then attach them with three of the supplied screws **A** (M6 x 30 mm).

#### 3 Finally tighten screws **A** and **B** fully.

- Tighten them firmly and fully so that no space is left between the legs and plates.

## Installing Speaker

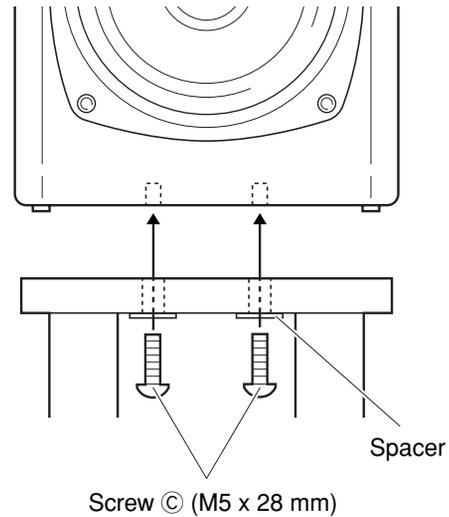

### ■ Attach the speaker on the stand

#### 1 Locate the speaker properly by aligning both screw holes of the speaker and the speaker stand.

- Do not install the speaker stand on an uneven surface or in a place subject to vibration.
- Do not install any overweight equipment (over 10 kg) on the speaker stand.

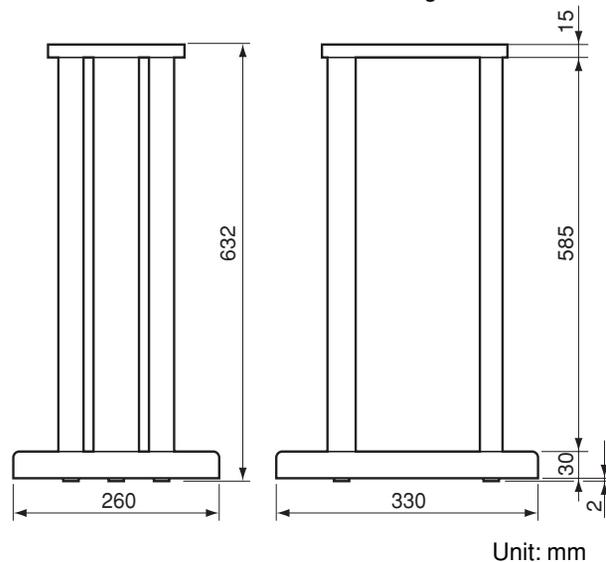

#### 2 Fix the speaker with the supplied screws **C** (M5 x 28 mm).

- Do not overtighten the screws, but firmly enough to prevent the speakers from being shaky.

## Specifications
