

The perfect solution for migration of coax or twinax AFP/IPDS printers into an Ethernet network

Print Server

LAN Brick™

- **Preserves Existing Investments**
- **Supports Coax or Twinax Printers**
- **True Migration**
- **No Changes Necessary**
- **Supports TCP/IP**

The MPI Tech LAN Brick Eth 10 is the only and obvious choice when existing coax- and twinax attached AFP/IPDS printers should be moved into an Ethernet LAN environment.

The solution preserves existing investments into AFP/IPDS printing equipment as well as it removes the need for double cabling systems.

The MPI Tech LAN Brick is designed for Ethernet networks and supports 10Base-2 (coax BNC connector) and 10Base-T (RJ45 connector) networks.

The LAN Brick operates with IBM PSF/MVS, IBM PSF/400, IBM PSF/2 and PSF for AIX Version 2.1 to provide LAN connectivity for IBM compatible midrange IPDS printers.

Printing and Conversion Solutions

Attachment LAN Brick™ Eth 10 Ethernet 10Base-2 (IEEE 802.3) at 10 Mbps Ethernet 10Base -T (IEEE 802.3) at 10 Mbps	Indirect LAN IPDS Printing Requirements S/370 - S/390 PSF for MVS rel. 2.1 or higher incl. PTFs AS/400 OS/400 V3R1 or higher incl. PTFs	Approvals UL, cUL, CE Safety Low Voltage Directive, 73/23/EEC EN 60950 with amendments UL 1950, 3rd edition
AFP/IPDS System Support IBM S/370-S/390 (MVS) IBM AS/400 IBM RS/6000 IBM PS/2	Supported IPDS printers IBM 3112/3116 IBM 3812/3816 IBM 3912/3916 IBM 3930 IBM 4028 AS1/NS1 IBM 4230 IBM 4312/4317/4324 IBM 6408/6412 MPI Tech coax/twinax IPDS solutions Other IPDS printers compatible with the above	EMC EMC Directive: 89/336/EEC, FCC Part 15 Subpart B Class B, AS/NZS 3548 Class B, EN 55022: 1998 Class B, EN61000-3-2, EN61000-3-3, EN 55024: 1998
