- Caller ID on call waiting
- Operators services phonebook

### Memory Capacity

- Name & number shared phonebook: 65
- Melody download capacity: 3
- SMS storage capacity: 25
- Call log entries: 40

## Product highlights

### Ringtone download

This function offers the possibility to personalise your phone by downloading ringtones. Simply call the dedicated service provider and select your favourite song. An SMS is sent to you, together with the attached melody. You can select this melody as you would any other ringtones (country and network dependent).

### Eatoni text editor

Eatoni's LetterWise is an easy to use text entry solution requiring just 1.16 taps per correct letter. It makes typing on phone keypads as comfortable, fast, and accurate as using a typewriter keyboard. It is unique among predictive text entry solutions in its ability to easily handle the entry of abbreviations, names, addresses, and URLs.

### Text messaging (SMS)

The Short Message Service (SMS) is a mechanism for delivery of short messages which can have up to 160 characters of text. These 160 characters are plain text in nature and can be comprised of words, numbers or an alphanumeric combination. The Eatoni®LetterWise predictive text editor helps you to write text messages more quickly. With its unique SMS system you can receive up to 200 messages in 10 different mailboxes.

### Backlight on screen

Backlighting is a feature that illuminates the LCD screen or keypad for use in the dark. The two most common types of backlighting include LED and electroluminescent (EL). Remotes backlit with LEDs are typically bright but uneven with a yellow or green colour, while EL panels are smooth with blue, white or green shades.

### Full graphic display

This type of displays makes it easier to use your phone, thanks to the good quality and legibility of the characters. It also gives you more freedom of communication from your home. Now you can combine text with images or numbers.

### Alarm clock

### Keypad lock

In your pocket your DECT phone can be jolted and a key might be accidentally pressed. To prevent inadvertently calling your cousin in the US, the keypad lock is a safe way to avoid bad surprises on your next phone bill

### Pilot key & carousel menu

The pilot key navigation system allows easy navigation and settings. The pilot key is a roller on the left side of the phone that can be scrolled up and down and pressed in the middle. It commands the Carousel menu which is a circular loop of menu icons displayed on the screen.

### Do not disturb function

Tired of your children's friends calling just when you're about to serve dinner? The "Do-not-Disturb" function lets you screen unwanted calls and mute the ringer when you do not wish to be disturbed, but keeps the line open to the family.

### Free intercom

No need to stop what you are doing and go to give the handset to your son when his friend calls: you can freely and easily call the handset in his bedroom and transfer the call.
