## Package contents

> Handset > Charger > 1 NiMH battery pack  
> Power adapter > User manual > Warranty leaflet

## Radio RF power

<250 mW

## Philips Compliance

> CTR 37 > TBR 22

<sup>1</sup> -The quoted range is under ideal conditions, i.e. with no obstacles between the base and handset. The range of DECT cordless telephones depends on: the environment in which the base station is located: thick walls, metallic window frames etc. near the base will reduce the phones' range the presence of obstacle between the base station and handset: for example, when using a handset in the garden with the base station inside the house, the range may be reduced by the exterior wall of the house

Availability in individual countries depends on approval by the relevant authorities. Data subject to alteration without notice.
