## Product highlights

### Use a normal telephone

VoIP: Voice Over IP (Voice over Internet) USB: Universal Serial Bus

### Skype Free Internet telephony

With Skype you can enjoy making free calls all over the world to any other Skype users. Skype, SkypeOut are trademarks of Skype Limited. Windows XP/2000 through Broadband. PC should be switched on and Skype connected.

### Fully Plug & Play

Plug & Play: A way to improve installation simplicity

### Crystal Clear Sound Quality

The use of digital communication virtually eliminates interference, buzzing and hissing. It improves the intelligibility of messages left on the answering machine and even makes it possible for users to record and reproduce music.

### Instrumental ringtones

Instead of the traditional aggressive "buzzer" ringtones, instrumental melodies are a more pleasant way to let you know when someone is calling.

### Use all major VoIP services

VoIP: Voice over IP: Provides low-cost voice and data communication

### Compatible with VoIP clients

VoIP: Voiceover IP: provides low-cost voice and data communication
