

# Polycom VoiceStation 300 & 500

Crystal –clear conferencing for smaller rooms and desktops

Phone: 1300 664 892

## The quality of Polycom designed for offices and small meeting spaces

The Polycom VoiceStation is a small conference phone ideally suited for desktops, offices and other small rooms. With a microphone range of up to seven feet, the VoiceStation is ideal for up to three or four participants. The compact industrial design fits well on a desk or small table, making it a great solution for offices. The VoiceStation provides Polycom's legendary voice quality at an affordable price.

Use your Bluetooth-enabled mobile phone to connect wirelessly to the VoiceStation 500 for hands-free voice conferencing. It can also connect to a Bluetooth-enabled computer for high quality hands-free conferencing over internet calling services such as Skype. If your mobile phone or computer is not Bluetooth-enabled, simply use the integrated 2.5mm applications port on the VoiceStation 500 for wired connections.

Featuring Polycom's award-winning Acoustic Clarity Technology, The VoiceStation 300 and VoiceStation 500 deliver significantly improved voice quality over the previous generation VoiceStation 100. Three sensitive microphones offer 360-degree room coverage. Smart technology such as Dynamic Noise Reduction (DNR) provides maximum microphone sensitivity, while reducing distracting room and background noise. Plus, Polycom's legendary full-duplex technology ensures that everyone on the call can be heard.

Convenient controls for Bluetooth\*, volume adjustment, mute, redial, flash and hold are located on an intuitive easy-to-use keypad. When dialling over regular phone lines, a handset phone can be plugged in for private calls.
