Frequency: 50/60 Hz
Net Weight: 17 Kg.
TV set Dimension: 518 x 466 x 487
(W x H x D mm)
Ambient temperature: + 5° to 45°

Product Highlights

Integrated FM radio 20HT3303
The Radio is accessed directly and simply by the RC and when the Radio is On the picture tube automatically switches off reducing operating costs and guaranteeing energy saving.

LED Clock 20HT3253 - 20HT3303
The built-in clock, which is also an alarm, eliminates the need for an additional clock with cables and connections in the room.

Smart-Loader™
Provides the ability to copy all programming settings from one set into additional sets. This feature ensures uniformity between sets and significantly reduces installation time.

Hotel-Mode features
- *Front Control locking*: this feature locks all front controls, preventing guests from adjusting any television setting.
- *Programmable Channel Blanking*: provides a means to force the picture to be blanked without affecting the audio. Perfect for audio-only services (e.g. FM radio).
- *Volume Control Locking Feature*: this feature forces the TV set to operate within a user defined volume range preventing volume adjustments.
- *Switch On Channel*: it forces the television to a specified channel when turned on. Perfect for in-house advertising or information channels.

Multi Language Teletext reception
Guests can be served in their own language. Per each channel western and eastern European languages, Greek, Turkish, Arabic or Cyrillic characters are available.

Auto Power On
Forces the default power setting to the ON position after a power interruption or preventing sets from being turned off while in use.

Audio/Video Muting
Automatically detects a loss of television signal and optionally mutes both audio and video.

Electronic Program Guide
Provides guest with onscreen directory listing number and network affiliation. Channel guide is accessed via the touch of a single button on the remote control.

ESP™ (Energy Saving Programmability)
Energy Saving system that powers television off after a specified period of use. A simple countdown clock can be selectively set to operate from 0-99 hours with automatic clock reset at each power up.

Low Battery detection Remote Control
This feature informs hotelier the need to replace RC batteries to pre-empt guest complain.

External Speaker connection
Easy installation of speaker to bathroom via rear connector.

Welcome Message
A welcome greeting (max. 2 line with 20 characters each) is displays on the screen each time the set is switched on.

Consumer Television Convertible
Easily converts to true consumer television for after-market sales.
