21PT2482 / 21PT2622
21PT2682

AI. PICTURE (Artificial Intelligence Picture)

Picture performance is enhanced with a special black stretch circuitry that gives more depth to the picture. This enables you to watch a more brilliant picture and hence improved viewing pleasure.

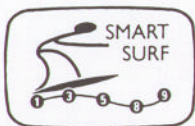

4 X 3 EXPAND

When you are watching a picture (e.g. movies) with black bars at the top and bottom, using this 4 x 3 Expand feature allows you to fill up more of the screen and hence enhancing your viewing pleasure.

A.V.L. (Auto Volume Leveller)

Adapts the sound output to a constant level. Hence you do not need to adjust the volume settings during commercial breaks or whenever you change channels. Hence you would not be startled by loud commercial breaks anymore.

SMART SURF (Switchable with A/Ch button)

This feature allows you to skip among up to 8 programmes (i.s.o. only 2 for alternate channels) at a touch of a button. Hence you could switch or surf among your favourite 8 programme.

CHILD LOCK

This feature allows you to lock out some channels which may transmit programmes which are not suitable for your children.
