- Included Accessories: 2 x AAA Batteries, Remote Control, User Manual

Dimensions
- Box dimensions (W x H x D): 690 x 530 x 565 mm
- Color cabinet: Bi-colour Black and Silver Frost
- Set dimensions (W x H x D): 600 x 459 x 481 mm
- Weight incl. Packaging: 25.5 kg

Product highlights

Real Flat picture tube
The flatter tube provides a wider viewing angle while minimizing reflections for the best picture possible.

Crystal Clear
Combining picture enhancements like Contrast plus and color improvement, Crystal Clear improves picture depth.

Noise Reduction
During weak signal transmission, random noise will appear on the image. When viewed, the image contains dark and white dots. Noise reduction significantly reduces the appearance of these dots, hence creating a pleasant viewing experience.

Incredible Surround™
Incredible Surround is an audio technology from Philips that dramatically magnifies the sound field to immerse you in the audio. Using state-of-the-art electronic phase shifting, Incredible Surround mixes sounds from left and right in such a way that it expands the virtual distance between the two speakers. This wider spread greatly enhances the stereo effect and creates a more natural sound dimension. Incredible Surround allows you to experience total surround with greater depth and width of sound, without the use of additional speakers.

Smart Picture and Smart Sound
Philips preset modes for Smart Picture and Smart Sound provide you with direct access via a single key on the remote control. You can select optimized picture and sound settings for the various picture and sound modes.

Component Video Input (YPbPr)
Component Video is the highest quality interconnection standard for analog video. It is sharper than S-video and composite video.
