**Product highlights**

**Real Flat picture tube**

The flatter tube provides a wider viewing angle while minimizing reflections for the best picture possible.

**Crystal Clear**

Combining picture enhancements like Contrast plus and color improvement, Crystal Clear improves picture depth.

**Incredible Surround™**

Incredible Surround is an audio technology from Philips that dramatically magnifies the sound field to immerse you in the audio. Using state-of-the-art electronic phase shifting, Incredible Surround mixes sounds from left and right in such a way that it expands the virtual distance between the two speakers. This wider spread greatly enhances the stereo effect and creates a more natural sound dimension. Incredible Surround allows you to experience total surround with greater depth and width of sound, without the use of additional speakers.

**10 page Smart Text**

The teletext is a common system transmitted by most broadcasters. The 10 page smart text feature gives you fast access to information when changing pages.
