## Product Highlights

### Black Line

TV tube technology using darker glass for better contrast and a narrow tube neck for better brightness in 21" models

### Contrast Plus

A special electronic circuit has been incorporated into this television to enhance the darker portions of the picture for added realism and improved picture quality.

### Stereo

Two channel sound signal able to deliver different sound from left and right channels

### RMS

The standard professional measure of sound output power. All our TV's are measured in RMS with 10% Distortion. There are other terms than RMS which often show higher numbers but are not comparable.

### Plug & Play

Having connected the tv, it automatically searches for all channels and installs them.

### Sleeptimer

The Television can be programmed to go into standby mode at a time defined by the user.
