Universal TV/VCR/Cable Remote
(Remote # RCU81BX)

Let's make things better.

PHILIPS **MAGNAVOX**

Picture

Dynamic Comb Filter
With up to 640 lines of horizontal resolution[3], this set provides razor-sharp picture performance and breathtaking clarity (through the A/V input jacks).

Improved Image Definition (IID™)
Get greater picture resolution for sharper, clearer, more detail-perfect color picture reproduction. Capable of delivering 800 lines of horizontal resolution[4], this set exceeds the maximum clarity of 330 lines of horizontal resolution delivered by broadcast television and easily supports the demands of DVD Video, Web browsers, and other advanced high-resolution video media (through the S-video inputs).

SmartPicture™
A touch of the SMART PICTURE button on the remote control provides the option of selecting one of four factory preset positions to enhance enjoyment of video games, sports, movies, and weak signals. Select the desired option and all important picture elements are instantly adjusted to optimize viewing pleasure.

Green Stretch
Advanced chroma processing circuitry takes automatic flesh-tone correction to a new level, making flesh-tones more true-to-life for eye-popping realism in your TV picture.

36" Invar Mask Picture Tube
Black Stretch
Blue Stretch

Remote Control

Backlit LED Remote Control
Makes it easy to use select remote TV functions even in low light conditions. No more fumbling with tiny buttons; just press the ☼ button and the 4-way cursor, VOLUME ⊕ ⊖, CHANNEL ⊕ ⊖, MENU, and SURF buttons light up.

Universal TV/VCR/Cable Remote
Controls all features and functions of this monitor/receiver with direct menu access, including Multimedia Mode, Incredible Stereo™, Surf™, and the dual A/V input/tuner switch. It also activates the exclusive SmartSound™, SmartClock™, and SmartPicture™ options. In addition, this remote controls all important operating features and functions of virtually all infrared VCRs, most brands of DVD Video players, virtually all brands of DBS receivers, and on/off as well as CHANNEL ⊕ ⊖ functions on most cable converter/decoders. (Remote # RCU81BX)

Convenience

Multimedia Mode
Simply press the MULTIMEDIA button on the remote control and sequentially scroll through the various inputs. The SmartPicture™ option is automatically set to MULTIMEDIA for optimal adjustment of customer controls. The third time the MULTIMEDIA button is pressed, the TV returns to the original tuner source and all settings revert to their previous condition…automatically!

SmartSurf™
Eliminates the frustration of trying to remember what channels had programs of interest while channel surfing. After establishing the SmartSurf™ configuration with the user-friendly menu, store up to ten stations in the SmartSurf™ memory and then surf only those channels at the touch of a button. The versatility of this feature is enhanced by the availability of an onscreen list of the channels stored and offers the option of adding or deleting channels in the list by remote control.

* **Smart Window, SmartSound, SmartPicture, SmartClock, SmartMute, SmartSurf, Surf, IID, and Incredible Stereo are trademarks of Philips Consumer Electronics Company.**
dbx is a registered trademark of dbx, Inc. Sunnyvale, CA.

SmartClock™
Finally, an accurate digital clock that's always right! By monitoring the vertical blanking interval of PBS broadcasts, Philips Magnavox TVs equipped with SmartClock™ can automatically set the right time of day and maintain it through brown-outs, power failures, and even daylight savings time adjustments.

SmartMute™
Easy First Time Setup
Alternate Channel
Onscreen Clock with Sleep Timer and Alarm Timer
Parental Control
Trilingual Onscreen Display
Auto Programming
Closed Caption
Onscreen Volume Bar

Sound

SmartSound™
When activated, SmartSound™ keeps volume levels constant between programs and commercials, and from one channel to another. SmartSound™ constantly monitors the audio signal, reducing a signal that's too loud and increasing a signal that's too weak.

dbx® Hi-Fi Stereo Sound System
Incredible Stereo™
Tone Controls

Audio/Video Jack Panel

Audio/Video Jack Panel (J810)
The A/V jack panel on the back of this set includes dual audio/video inputs for connection of a VCR, DVD Video player, Web browser, or other accessory equipment; variable audio outputs which allow sound from TV or accessories to be routed through a home audio system; standard video output for connection to a VCR; and an S-video input for connection of a high-resolution video accessory.

Additional Features Include:
• Channel edit
• Total remote menu format tuning with multicolor onscreen graphics
• 181-channel capability
• 4-way cursor control
• Random channel access
• Programmable scan tuning
• Status recall
• Mono/stereo/SAP select
• Cable/normal select
• Two 5" oval, full-range speakers with menu-selectable speaker switch
