TELEVISION

Picture

- Dynamic BlackStretch Circuitry**
 Extends black levels in bright scenes to enhance contrast and detail.
- AutoColorControl**
 Automatically maintains natural flesh tones and color fidelity from channel to channel and scene to scene.
- Adjustable Color Warmth**
 Customer-selectable color temperature system allows for background color balance adjustment of the picture to personal preference. Setting choices are Cool, Warm, or Normal.
- Contrast/Color Tracking System**
 Synchronizes contrast and color settings to maintain vibrant images.
- Adjustable Picture Control**
 Custom picture settings are just a button-press away. Adjust and store Contrast, Color, Tint, Black Level, and Sharpness settings for personal picture performance depending on your own individual tastes.
- Preferred Picture Presets**
 Optimize the picture by selecting the correct setting depending on the lighting conditions of the room. Choose between four settings for bright lighting, normal lighting, dim (soft) lighting, and a customer-selectable and savable "personal" setting.
- 181-Channel Tuning Capability²**
 Digitally-controlled frequency synthesis tuning system "locks on" to cable and standard signals with unsurpassed accuracy.
- Dark-Tint, High-Contrast Picture Tube**
 Dark glass picture tube delivers outstanding picture contrast for blacker blacks, brilliant whites, and deep rich colors even in bright room conditions.

Sound

- Front-Fired Speaker System**
 Front-fired full-range frequency drivers provide excellent imaging while localizing voices at the screen.

Remote

- ChanneLock Direct Access Remote CRK17TA1**
 Ergonomic design and color-coded buttons make it easy to control power, volume, direct access of channels, plus TV picture adjustments and features.

Program Info

Guide Selector

Program Grids

1 Press Here.

2 The Program Guide appears on your television.

GUIDE Plus+ GOLD¹ Interactive Program Guide

Find out What's On! The GUIDE Plus+ Gold¹ Program Guide is a FREE, built-in service that provides instant listings of all your TV shows at the touch of a button. View listings up to seven days in advance and enjoy the capability of One-Touch Recording to your VCR.

2 ways to find your programs

The Grid Guide

Using your remote, easily scroll through current or future TV listings to see what's on. As each program is highlighted, an informative summary appears in the Program Info area.

The Sort Guide

Find your favorite sports, movies, or kids' programs, for up to seven days in advance, instantly with the Sort Guide.

And The Benefit of One-Touch Record*

Even if your VCR is flashing 12:00, the GUIDE Plus+ GOLD¹ Program Guide can record your favorite shows. Simply use your remote to highlight the program you want to record, set it to record and the GUIDE Plus+ GOLD¹ Program Guide does the rest! You can even set shows to record daily and weekly!

*compatible with most VCRs

MSNBC News Guide

Check out up-to-date national and world news stories from MSNBC in the News Guide. Comprehensive coverage includes business, sports, and entertainment news.

- **Commercial Skip**

Countdown timer returns TV to original channel, so other channels can be browsed during program breaks.

- **Picture Reset**

Instantly returns picture to factory settings for Color, Tint, Contrast, Brightness, and Sharpness.

- **Advanced Auto Channel Search**

Auto Cable/Air Switch sets tuner to cable or "off-air" frequencies during initial setup. Then system automatically scans for and locks active channels into channel memory.

- **On-Screen Menu System**

On-screen displays make it easy to adjust more picture, sound, and convenience features from either the remote control or the TV front panel buttons.

- **Interactive Setup Menu**

Convenient on-screen menu system automatically steps user through the initial setup procedures.

- **Trilingual On-Screen Display**

Allows the on-screen menu system to be displayed in one of three languages (English, French, or Spanish).

- **On-Screen Time and Channel Display**

Displays time and channel number at the press of a button.

- **Programmable Timer System**

Convenient scheduling system can be used in a variety of ways:

- **Sleep Timer**

Automatically turns off the TV after a preset time period—for those times when you drift off to sleep in front of the television.

- **Alarm Timer**

Wake up to your favorite morning show or turn on your television automatically to catch your favorite program.

- **Scheduling Timer**

Since the alarm setting remains in the TV memory indefinitely, the TV can be scheduled to turn on at the same time every day.

- **Channel Labeling**

Assign on-screen characters to easily identify channels (e.g. NBC, HBO, ESPN, VH-1).

- **Front Panel Lockout**

Completely disables front panel controls to prevent toddlers from altering settings.

- **V-Chip Parental Control**

Puts control back into the hands of the viewer by blocking unwanted television broadcasts with U.S. Government required circuitry. Blocks three types of programs: regular television programs, broadcast movies and unrated programs.

Program rating information is sent by the broadcaster continuously during the program. The television will match program rating to user preference and block the entire program (when program is aired with the encoded signal). User preference is secured using a four-digit password.

- **Non-Volatile Memory**

In case of most power outages, the picture adjustments and channel selections are stored in electronic memory.

- **Caption Vision Closed Caption Capability²**

Assists the hearing impaired, helps children learn to read, and aids in the teaching of English as a second language. Built-in Closed Caption Decoder displays the audio portion of a program as text on the TV screen (when program is aired with the encoded signal).

Connections

► Front Audio/Video Inputs

Color-coded front monitor panel provides direct audio and video connections for optimum performance and system flexibility. The front jacks allow for the convenient connection of components such as game systems, camcorders, digital cameras, and other AV components.

• G-LINK¹ Connector

The G-LINK¹ connector allows the GUIDE Plus+ GOLD¹ Program Guide to work with your VCR (enabling one-touch record) and/or cable box (ability to tune directly to a station when the program guide is on your TV screen).

• Front Panel

• Back Panel
