1 Standard cable access

The best method of connecting your computer and cable service access, depends on the type of cable connection available in your home.

1 Connect one end of the TV coaxial cable (supplied) to your cable service access.

2 Connect the other end of the TV coaxial cable to the VHF/UHF port on the back panel of your computer.

Using Giga Pocket

Giga Pocket® Personal Video Recorder is a suite of interactive Sony audio and video components that are designed to create, capture, and play back video files derived from television and your personal videos.

Giga Pocket® enables you to watch a TV program on your computer display while recording it onto your hard disk drive. Using the Giga Pocket Slip Play feature, you can view a program from the beginning even while it is being recorded.
Starting Giga Pocket
1 Click **Start** > **All Programs** > **Giga Pocket.**

Hard Disk Drive Recovery

Your computer is equipped with the VAIO Recovery Wizard, a utility program that recovers your computer's operating system and preinstalled software to original factory installed settings.
For online information about hard disk recovery:

1 Click **Start** > **Help and Support**.

2 From the **VAIO Help And Support Center** menu, click **VAIO Recovery Options**.

You can create a VAIO Recovery Media Kit using CD-R, single layer DVD+R, or single layer DVD-R media on VAIO computers equipped with the appropriate optical drive (a CD-RW, DVD-RW, or DVD±RW drive).

DVD+RW, DVD-RW, double layer DVD+R, and double layer DVD-R media (when it becomes available) cannot be used to create a VAIO Recovery Media Kit.
