

Xerox Nuvera® 100/120/144 EA
Production System

Xerox Nuvera® 100/120/144 EA Production System

Put Your Best Image Forward

Image quality to impress your audiences

You can expect exceptional output and a healthy return on your investment for every application you create with the Xerox Nuvera® 100/120/144 EA Production System. It offers all the capabilities you need to wrap up every job professionally: outstanding monochrome imaging quality, three highly efficient speeds (100, 120 and 144 pages per minute), power, productivity, modularity and a wide range of finishing options.

Building your business in versatile black and white

There is no substitute for great images – it's the first thing your audience will notice, and it makes a lasting impression. By combining progressive monochrome technology with customer focused-engineering, the Xerox Nuvera® EA provides image quality that challenges offset.

Innovative EA toner

Fine particle EA (Emulsion Aggregation) Toner is a key factor in this system's high image quality:

- It produces fine lines with maximum detailing, sharp text, halftones and deep solid blacks
- Printed pages have a smooth, offset-like matte finish

- Fine scatter typically associated with monochrome digital printing is transparent, so even the most detailed line work is razor sharp. Images are crisp and clear
- High yields mean longer production print runs are possible without operator attention or intervention to change toner/developer.
- Friendly to the environment, EA Toner achieves better distribution of smaller particles for higher quality with less toner per page

More unattended run time saves your time

Toner and developer are uniquely combined in a single container, offering you key benefits:

- Replace less often—average yield is up to 210,000 prints per cartridge
- Maximum unattended run time—add optional second toner container system
- More uptime—change-while-run cartridge replacement

You'll get excellent resolution in a clean environment

The Xerox Nuvera® EA offers you the highest monochrome resolution of any digital production printing system currently available.

- RIPs at 1200 x 1200 dots per inch (dpi)
- 4,800 x 600 dpi printing
- Halftone screens available at 85, 106, 125, 134 and 156 lines per inch (lpi) – ensure smooth grays, more realistic pictures and sharper details
- Unique Cyclone Cleaning Technology automatically removes stray toner, paper dust and particles, creating a pristine environment for consistently sharp text, images and photos

1
Excellent image rendition with a wide range of gray levels

2
Even lines with smooth, uniform curves

3
Outstanding detail

4
Dark, uniform blacks

5
Sharp, highly detailed text rendering

6
Fine lines and tints

Xerox Nuvera® 100/120/144 EA Production System with FreeFlow® Print Server, Enhanced Line Screens, Post Insertion, In-line stacking and stapling, with direct connect to Xerox Tape Binder

TELER registration keeps sheets in place

You'll achieve superior image-to-sheet (± 0.65 mm) and front-to-back (± 0.65 mm) registration, which meets or exceeds general publishing standards. Our TELER registration (Translating Electronic Registration) precisely controls the position of each sheet of paper according to the image on the photoreceptor, and the speed of each sheet traveling through the paper path. In this way, it ensures each sheet is in exactly the right position to receive the latent image.

Media to match your applications

You can choose from an expansive range of substrates to match your application requirements and build your application capabilities, even oversized coated papers. Expect consistently high image quality on popular coated and uncoated stocks, including bond, bristol, cover, index, offset, recycled, transparencies, carbonless, labels, tabs and preprinted forms

Optimal sheet flatness anywhere you are

Optimally flat sheets, delivered by our slim, automated Sheet Enhancement Module (SEM) yield better image quality and smoother print runs, regardless of your production print environment:

- Stack quality is optimized, ensuring high performance from your downstream finishing alternatives
- Your operators can fine-tune automated controls or access a "manual override" function to overcompensate when fighting heat and humidity in your print production environment. This ensures you achieve optimal sheet flatness.
- Works in conjunction with the stock library to automatically adjust to the characteristics of the paper you are running

Options to make it yours

Choose from an expansive array of options to create the Xerox Nuvera® 100/120/144 EA Production System that reflects your business, your environment, your customers. From feeding to finishing, it's a modular system that's all about you.

1

Scanning options

To minimize your operator's involvement while enhancing image quality, pick the scanning option that best fits your workflow.

Remote scanning via the Xerox FreeFlow® Scanner 665 offers:

- Excellent image quality
- 65 ipm distributed scanning
- 600 x 600 dpi scan resolution
- High-quality graphics (1200 x 1200 dpi RIP) and photos
- All optimized by a push of a button to activate Intelligent Image technology

Fully integrated onboard scanner provides:

- Excellent image quality and 600 x 600 dpi
- Scans at an industry-leading 120 ipm, single- or double-sided
- Dual scan heads scan two-sided documents in a single pass – no slowdown

2

Feeding options

The Xerox Nuvera® EA offers you excellent paper handling:

- Paper trays rely on air shuttle feed technology. Processor-controlled, using information from the stock library, this technology ensures reliable feeding and supports heavier media and coated paper. Air knives separate paper to avoid misfeeds
- Tiltatron technology supports production of DocuCard® applications. The system's innate intelligence tells rollers when to press harder, when the air knives should add thrust, and more, to deliver a highly intuitive and productive paper-handling process
- You can reload paper without job interruption to significantly increase continuous productivity

Choose from the following Sheet-feed modules. You can use them independently, together or in combinations that suit your workflow:

Standard Sheet-Feed Module

- Four trays, 5,800-sheet capacity
- Do more high-value applications with more unattended run time, at point of need, and produce high-impact jobs on demand

High Capacity Sheet-Feed Module

- Two trays, 3,200-sheet capacity
- Ideal alternative if you want to leverage oversize stocks up to 12.6" x 18.5"

Note: You can add up to two of the above modules in any combination to your configuration, enabling up to an 11,600 sheet capacity with as many as eight pick points.

DocuSheeter™ NV Roll Feeder with Optional Grain Rotator

- Attaches to a standard Sheet-feed Module.
- Can provide paper cost savings, reduce operator intervention and add up to five hours of continuous feed in a production print environment while still providing access to the paper trays for multiple pick points.

3

Imaging and processing options

The powerful Xerox FreeFlow® Print Server is integrated into the Xerox Nuvera® EA to make the most of your space. All variations of the system feature a standard print engine. We offer you three true production speeds: 100, 120 or 144 pages per minute (ppm). The FreeFlow Print Server is available in the standard or professional edition.

Standard Edition

- Basic workflow capabilities including one queue and simple stock handling.
- An easy-to-use Graphical User Interface (GUI). It allows your operators to easily manage multiple print jobs from multiple queues. From the interface, you can hold, interrupt, proof, reprogram, and forward jobs to maximize print engine productivity
- A 125 lpi line screen

Professional Edition

The Professional Edition is achieved when you add any of the following options to the standard edition FreeFlow® Print Server to accommodate your workflow and enable greater connectivity to mainframe applications:

- An expansive range of data streams supported in their native languages (Adobe PostScript®, PCL, PDF, TIFF, ASCII, LCDS and IPDS and variable data formats such as FreeFlow® VI Interpreter (VIPP®) and PPML), no converter or transformer required
- A Productivity Pack supporting production features such as multiple queues and a robust 250 stock library
- Image Quality Pack providing expanded line screens, from 85 lpi to 156 lpi

4

Inserting options

You can add value and impact to your output by inserting color covers, inserts or specialty media with our Post-print Paper Insertion Modules:

Insertion Module

- Four trays, 5,800-sheet capacity

High Capacity Insertion Module

- Two trays, 3,200 oversized sheets

Note: This option can provide an overall system total of up to 12 pick points and 17,400 sheet capacity (three Sheet-feed Modules and one Insertion Module)

5

Finishing options

Choose from a wide variety of in-line and off-line professional finishing options, both from us and from our industry-leading third-party suppliers. These options are designed to accommodate your requirements:

- From mid-production to full production
- From complex documents to challenging environments

An adaptable solution

That means you choose the configuration that best suits your business model. Choose from inserting options and optional feeding and finishing modules and configure the Xerox Nuvera® EA the way you want.

Finishing your jobs with finesse

Finishing can make or break your applications. The Xerox Nuvera® 100/120/144 EA Production System offers you many ways to finish your output – and to create high-quality, high-impact applications right at your point of need.

Xerox Nuvera® EA with Standard FreeFlow® Print Server, Integrated Onboard Scanner, Multifunction Finisher Pro Plus

For example, you can choose from the following:

Multifunction Finisher Professional

- For mid-production environments
- Capabilities include stacking, stapling, folding and booklet making

Multifunction Finisher Pro Plus

- Offers all the benefits of the Multifunction Finisher Professional, plus
- Three-hole punch and

- 200-sheet color/cover insertion to boost document value at a fraction of the cost of full color

Note: The Sheet Enhancement Module is not compatible with or included in configurations featuring the Multifunction Finisher Professional or the Multifunction Finisher Pro Plus. These specific finisher configurations accommodate only uncoated stock.

Basic Finisher Module

- For production print environments
- Capabilities include in-line stapling and stacking up to 3,000 sheets

Basic Finisher Module Plus

Offers all of the benefits of the Basic Finisher Module, plus:

- Convenient side exit lets you integrate basic in-line finishing with other finishing equipment
- Together with the Basic Finisher Module, enables standalone dual finishers that stack up to 6,000 sheets and delivers unload-while-run finishing capability, ensuring greater throughput without interruption
- Can be used in tandem, enabling you to integrate two Basic Finisher Modules Plus with other in-line finishing alternatives for even greater capacity

Basic Finisher Module – Direct Connect

Offers all of the benefits of, and works seamlessly with, the Basic Finisher Module Plus along with the added benefit of Document Finishing Architecture (DFA), which is your gateway to alternative in-line finishing. The BFM-DC provides direct connection to center-registered finishing devices such as the Xerox Tape Binder, C.P. Bourg (Watkiss) PowerSquare™ 200, CEM DocuConverter and more.

Multifunction Finisher Pro Plus

Basic Finisher Module Plus

Basic Finisher Module – Direct Connect

Xerox Tape Binder

Finishing Transport Module

C.P. Bourg BDFx Booklet Maker with Square Edge

Xerox SquareFold® Booklet Maker

C.P. Bourg (Watkiss) PowerSquare™ 200

Finishing Transport Module

- Document Finishing Architecture (DFA) provides a gateway to add just about any third-party finishing option you need, whether you are working in a publishing or transactional printing environment

Xerox Tape Binder

- Fully automated tape binding to quickly and easily assemble and bind tamper resistant books
- Ideal for documents too large to staple books/manuals with short life expectancy
- Binding color and tab options with convenient binder tape cartridges

C.P. Bourg Manual and Book Factory with Challenge Machinery CMT 330 3 Knife Trim

GBC Fusion Punch II with Offset Stacker

- Use in-line with Basic Finisher Module – Direct Connect or Finishing Transport Module for standard stapling and stacking along with other third-party finishing alternatives
- Binding and Bypass Modes
- Easily produces bound books and manuals from 15-125 sheets

Our partners offer you the best finishing in the business

We offer you the finishing options you need to wrap up your jobs professionally. From booklet makers and perfect binders to inserters, stackers, stitchers, spiral binders and more, we partner with the makers of today's best finishing devices and equipment. These include products from recognized industry leaders, such as the GBC Fusion Punch II, the C.P. Bourg BDFx Booklet Maker with Square Edge, the Xerox SquareFold® Booklet Maker and others.

Productivity: Doing more for you in less time

Productivity is essential to achieving a great return on your equipment investments. The Xerox Nuvera® 100/120/144 EA Production System, driven by the FreeFlow® Print Server, offers you excellent imaging plus the maximum productivity you need. You'll enjoy excellent job control with this system. In addition, it offers the flexibility and freedom to work within a number of network environments to produce business-building applications on a variety of equipment.

How the FreeFlow® Print Server benefits your business

The FreeFlow® Print Server enhances your business's productivity, effectiveness and, ultimately, its profitability in vital ways, for example:

- Receive/RIP/print jobs concurrently to efficiently produce hundreds of small jobs or transactional data jobs with thousands of customer database entries
- Print and re-print on-demand with simple controls to preview, edit, impose, proof, interrupt, reprogram and forward jobs
- Advanced security controls allow individual or group settings

FreeFlow® option	Function	What it does for you
FreeFlow® Web Services	24/7 Web portal connecting your print shop to your customers	From anywhere, your customers can submit new jobs securely and reorder existing ones over the internet (or an intranet).
FreeFlow® Process Manager	Automates your print shop's common prepress steps	In addition to a touchless workflow, you can process more jobs faster, for less, and maximize your printers.
FreeFlow® Output Manager	Automates load balancing and job scheduling	You can automate your application production and enhance efficiency.
FreeFlow® Makeready and Scanner 665	Optimizes document assembly processes, can blend hard copy with digital	Gets your input ready for printing and archiving, facilitates easy retrieval.
FreeFlow® Variable Information Suite	Enhance transactional or marketing materials with personalization and/or security features	Get a better return on your investment with TransPromo pieces, ensure security for your valued documents.
FreeFlow® Express to Print	Intuitive visual interface simplifies job ticketing and prepress functions while template-based automation streamlines job set up	Cost-effectively increase your productivity, even on cumbersome jobs like business cards, books and manuals.

Xerox Nuvera® 100/120/144 EA Production System with FreeFlow® Print Server Professional, Integrated Scanner, Enhanced Line Screens, Post Insertion, In-line Stacking and Stapling

- Submit jobs from just about anywhere, including desktop/commercial publishing workflows. Submit data from mainframe systems, and client/server architectures, XML/database/ASCII input or simply from DVDs, CDs and even portable USB devices. Submit print-ready jobs into pre-set Hot Folders for easy, automatic printing
- Submit print-ready jobs into pre-set Hot Folders for easy, automatic printing.
- Automate job ticketing and customize job workflows through up to 250 programmable queues with minimal operator intervention
- Use stock library to promote efficient use of media
- Save on training costs and increase uptime – familiar interface and workflow lends itself to “train once” paradigm
- Ideal for both publishing (high imaging quality and speed) and transactional environments (readily accommodates multiple data streams)

A smooth workflow: easier for your business, easier for you

The Xerox FreeFlow® Digital Workflow Collection is designed to take you easily through every stage of managing your jobs, from creation to final output. Integrating with the Xerox Nuvera® EA, this suite of optional solutions enables you to enhance, automate and simplify your existing workflow, increasing productivity and making the most of your investment.

Configuration: It's all about providing what you need

With the Xerox Nuvera® 100/120/144 EA Production System, you can customize our product to fit your business. Since it's flexible, scalable and customizable, the possibilities are many. For example, you might choose the Xerox Nuvera® EA with FreeFlow® Print Server Standard, and then add an integrated onboard scanner and the Multifunction Finisher Pro Plus.

Or you might start with Xerox Nuvera® EA with FreeFlow® Print Server Professional and add:

- An integrated scanner; enhanced line screens; post-insertion, in-line stacking and stapling
- Enhanced line screens; post-insertion, in-line stacking and stapling, Xerox DB120-D Document Binder
- Enhanced line screens; post-insertion, dual DS5000 High Capacity Stackers, C.P. Bourg BDFx Booklet Maker with Square Edge

¹The Sheet Enhancement Module is not compatible or included in configurations featuring the Multifunction Finisher Professional or the Multifunction Finisher Pro Plus.

²Available "Dual" finishing combinations (not shown) Stand-alone (1) Basic Finisher Module Plus and (1) Basic Finisher Module, or in combination with other in-line finishing solutions (2) Basic Finisher Modules Plus and (1) Finishing Transport Module or (1) Basic Finishing Module Plus and (1) Basic Finishing Module-Direct Connect with other in-line center-registered finishing solutions

Every application opportunity is your opportunity

From transactional and Transactional Promotional (TransPromo) applications to publishing applications to books and manuals and more, the Xerox Nuvera® 100/120/144 EA Production System makes it easy for you to add value and deliver results for your customers. You'll have limitless opportunities to develop and create new and enhanced applications that will expand your business. It offers the high image quality, speed and productivity needed to make the most of every application.

Achieve better response rates for your transactional pieces

Because the Xerox Nuvera® EA simultaneously accommodates a wide range of common data streams natively, it can easily produce all of your transactional applications. And you can increase response rates for those applications by adding high-quality data-driven graphics to your customers' bills and statements.

Increase your return on investment with TransPromo

You'll get a better return on your investment with TransPromo pieces. The Xerox Nuvera® EA lets you turn your standard transactional applications into cost-effective sales tools – it's easy to add personalized graphics, promotional offers and marketing content. And you'll save on print and postal costs.

Quick and high-quality publishing applications

The Xerox Nuvera® EA makes quick work of publishing applications while delivering the high image quality you and your customers demand. Whether it's a communication to an audience of thousands or a personalized

newsletter, you can produce your applications with speed and efficiency – and exceed your customers' expectations with exceptional image quality. For example, you can:

- Personalize text and graphic content to capture attention and add value to your communications.
- Deliver high-quality output on media that gives your customers a competitive advantage in their markets – the Xerox Nuvera® EA lets you choose from an expansive range of substrates so you can be creative.

You'll find the book opportunity easy to read

With the Xerox Nuvera® EA, you are well prepared to succeed printing books and manuals – we offer the right business model, the right workflow tools and experience, and the right technology to help ensure your success in the growing digital book printing business. An excellent complement to offset, this system enables you to deliver the look and feel authors, publishers and readers demand with high imaging quality and an offset-like matte finish.

Reliably productive for you

We offer these options to ensure you enjoy maximum uptime from your Xerox Nuvera® EA.

Xerox Nuvera® Productivity Plus (XPP) Integrated Maintenance Program

Xerox Nuvera® Productivity Plus (XPP) is an innovative, customer-focused maintenance program that makes it easy for you to diagnose and replace many routine items for the Xerox Nuvera® EA. It enables you to increase your productivity and print volumes, while effectively managing print quality – all while avoiding service intervention across every shift. Two program options are available, XPP Basic and XPP Advanced. You can choose which is best for you based on the level of participation that works for your business.

Xerox prInteractSM Remote Service Offerings

Remote service is available through a secure, online connection between Xerox engineering staff and your Xerox Nuvera® EA. Using this connection, we can quickly respond to your service needs, enabling us to:

- Easily access equipment data to provide real-time recommendations and help optimize overall performance
- Automatically generate up-to-the-day accurate meter reads with MeterAssistant™

For all that your business demands

From image quality to power to productivity to finishing, the Xerox Nuvera® 100/120/144 EA Production System delivers the business-building capabilities you need to succeed. Let us help you create a system that meets all of your requirements and more.

For more information on Xerox Nuvera® EA, call toll-free 1-800-ASK-XEROX or visit us on the web at www.xerox.com
