Xerox® Phaser® 6125
Color Laser Printer
Small size, great color, exceptional value

Xerox makes color the easy choice with the refreshingly office-friendly, value-packed Phaser 6125 color laser printer. It's a compact printing solution powerful enough to handle your printing demands with ease.

- Print
- Letter / Legal
- **12 / 16** ppm color / black-and-white

WxDxH:
15.75 x 17.5 x 15.3 in.
400 x 445 x 389 mm

Productive performance

- Don't let the low price fool you. The network-ready Phaser 6125 printer means business for your desktop or small team, providing real-world print productivity and a host of built-in features.
- Superior laser printing gets your jobs out fast, with print speeds as quick as 12 ppm for color and 16 ppm for black-and-white.
- When you're ready to print, this printer jumps to action, with a first-page-out time as fast as 14 seconds for black-and-white, 17 seconds for color.
- With a 333 MHz processor and 64 MB standard memory it handles your daily workload — even pages with graphics, photos and charts.

Outstanding color

- A print resolution of up to 600 x 600 x 4 dpi delivers an amazing 16 shades of color per pixel. That means a wider color range for more impressive business graphics.
- Unique Xerox Emulsion Aggregate toner technology — with particles engineered to have uniform size and shape — gives you crisp text and printed images with superior detail and clarity. It's the same high-quality toner used in our professional graphic-arts color devices.
- PANTONE® Color approved solid-color simulations and Xerox color correction technology to provide easy tools for precisely matching the colors of important business assets, such as company logos.

Easy in the office and easy on the network

- The standard 250-sheet paper tray supports a wide range of custom media and sizes, from labels to card-stock to envelopes. A convenient manual feed slot lets you feed single-sheet media and envelopes without opening and loading the paper tray.
- Easy installation onto the network and pre-loaded toner cartridges make this printer virtually plug-and-play. It's so easy, you'll have it up and printing in minutes.
- The CentreWare IS internal web server lets you check the status of a print job or manage the device without leaving your computer.
- Super-quiet operation lets you keep your printer nearby for distraction-free convenience.
- The Run Black feature lets it keep printing in black-and-white even if it runs out of color toner.
- Only four replacement items: the ultra-slim, easy-to-load toner cartridges that come with far less packaging and take up substantially less storage space.
