

# MultiTwin front loader

*The space saving miracle for notebook, printer, and documents.*

A surprisingly compact case that contains enough space for notebooks up to 15", printer, and mobile accessories.

The effective protective cushioning surrounds the notebook and printer and guarantees maximum safety from bumps and knocks.

The well-engineered compartments - including the new extractable CD compartment in the interior - make for an ideal segmentation of accessories. Additional storage space for documents and mobile accessories is available in the newly designed front pocket with holders for pens, mobile phone, and business cards. Even more documents can be placed in the zippered document compartment on the rear side and power supply units can be stored in the separate meshed cable bag.

The MultiTwin makes it easy to transport a whole working office: the soft and specially designed carrying handle provides carrying comfort and the padded shoulder strap plus trolley fastening strap allow you to keep your hands free.

The MultiTwin is made of robust polyester.
