AIR DRYING TUNNEL FOR RTM

RACK TYPE DISHWASHERS **ZANUSSI** PROFESSIONAL

FUNCTIONAL AND CONSTRUCTION FEATURES

- ◆ It is designed to be placed on any Zanussi modular (RTM) rack type dishwasher.
- ◆ The air drying tunnel is available in two versions: 900mm for machines faster than 165 rack/hour and 600mm suited for machines slower than 165 rack/hour.
- ◆ The feeding system from the dishwasher and the curve will automatically move the racks through the Air-Drying Tunnel.
- ◆ The drying zone removes every trace of water from the crockery, through a high powered fan that extracts dry air from outside, providing dry plates at a low temperature.

- ◆ The automatic start/stop function switches off the machine when not in use, to save energy.
- ◆ Electronically controlled to optimize the drying results.
- ◆ The hygienic design provides easy cleaning through a door that gives full accessibility to the interior of the tunnel.
- ◆ 304 AISI stainless steel front, side and top panels.
- ◆ Developed and produced in an ISO 9001 and ISO 14001 certified factory.
- ◆ CFC free packaging.
