Zebra Blu-Ray Burner/HD DVD player

Model: ZBW-H63DEU

User's Guide

Version 1.0

FCC Warning Statement

This equipment has been tested and found to comply with the limits for a class B digital device pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy. If not installed and used in accordance with the instructions, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment on and off, the user is encouraged to try and correct the interference by one or more of the following suggestions.

Reorient or relocate the receiving antenna

Increase the distance between the equipment and the receiver

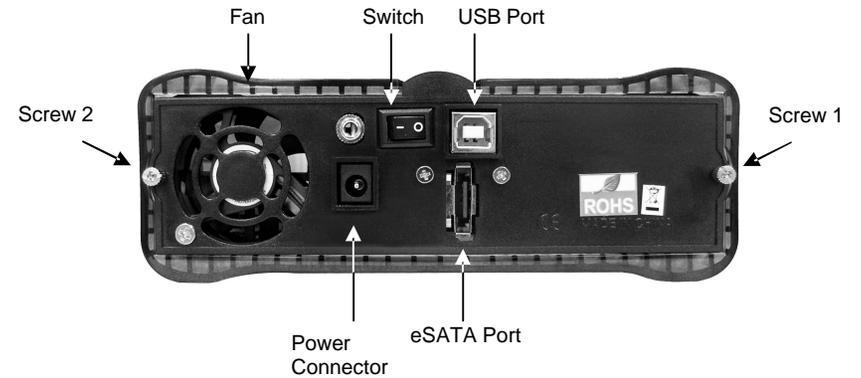

Connect the equipment to a different power outlet other than the one where receiver is connected

Consult a certified television or radio technician

Enclosure Overview

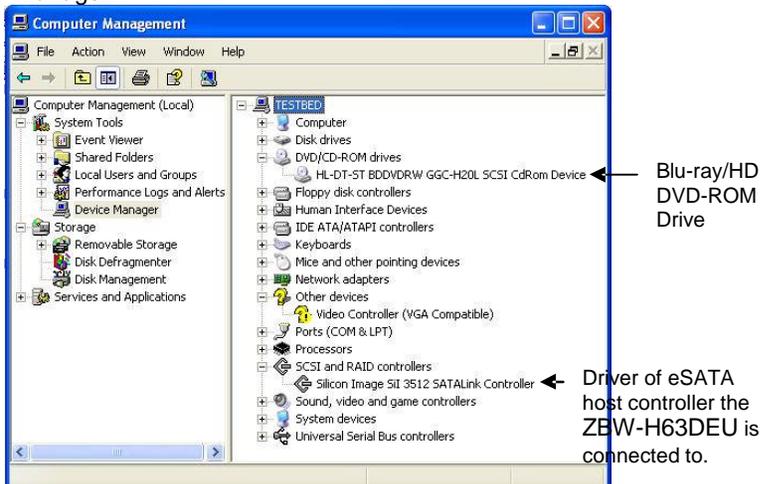

Zebra Blu-Ray Burner/HD DVD player with eSATA and USB 2.0 Model: ZBW-H63DEU

Configuring eSATA Connection:

The ZBW-H63DEU is plug and play in Windows. You should have configured the eSATA host controller on your system before you connect the ZBW-H63DEU. Once the eSATA host controller is configured, do the following steps below.

1. Connect the power adapter and eSATA cable to the enclosure. Attached the other end of the eSATA cable to your eSATA host controller.
2. Power ON the enclosure using the switch on the back panel. You should see the Green Power LED on the front panel at the bottom right light up.
3. To check if your system detects the Blu Ray drive, go to Device Manager.

Note: It is important that you have configured correctly the driver of your eSATA host controller before connecting the ZBW-H63DEU.

4. The Blu Ray drive will also show up in My Computer.

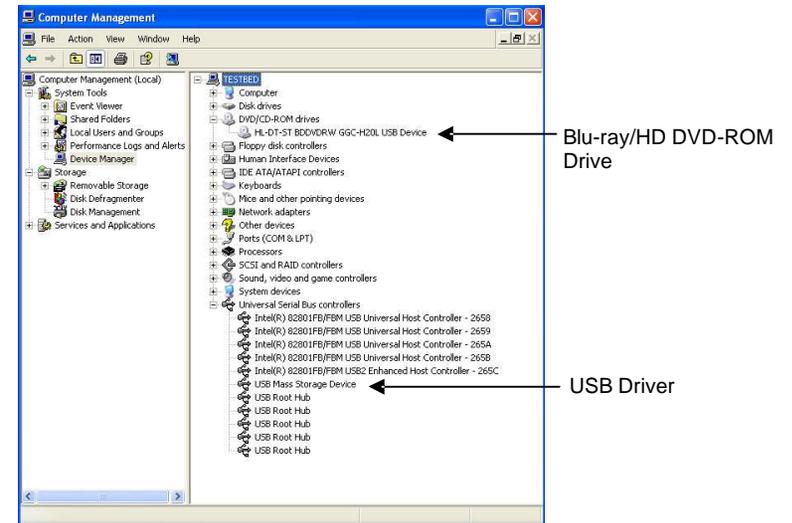

Configuring USB Connection:

The ZBW-H63DEU is plug and play in Windows using USB connection.

Using USB2.0 Connection:

1. Connect the power adapter to the back of the enclosure. Attach the USB cable to the USB port on the enclosure and in your system.
2. Power ON the enclosure using the switch on the back panel. You should see the Green Power LED on the front panel at the bottom right light up.
3. To check if your system detects the Blu-ray/HD DVD-ROM drive, go to Device Manager.

4. The Blu-ray/HD DVD-ROM drive will also show up in My Computer.

Installing PowerDVD from CyberLink Hi-Def Suite CD

Place the CyberLink BD & HD DVD-ROM Drive Solution CD to the BD & HD DVD-ROM Drive.

Step 1. Click Install Now button.

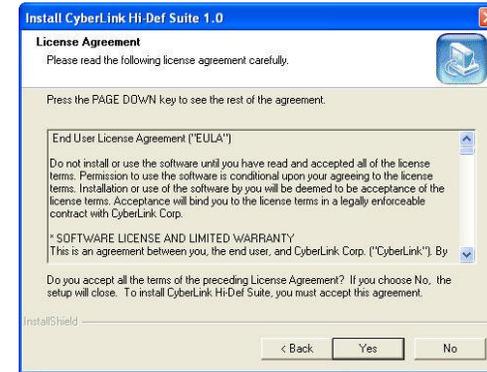

Step 2. Select OK.

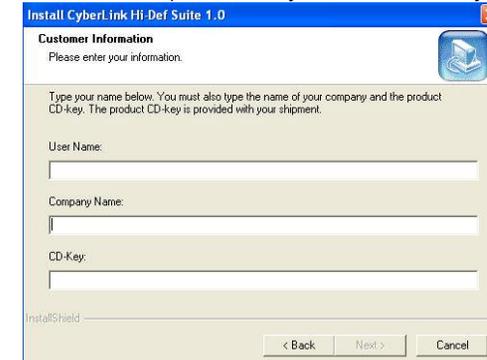

Step 3. Select Next.

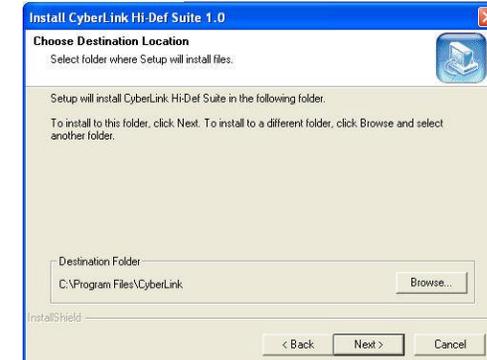

Step 4. Select Yes.

Step 5. Select Next. (The CD key will automatically show up)

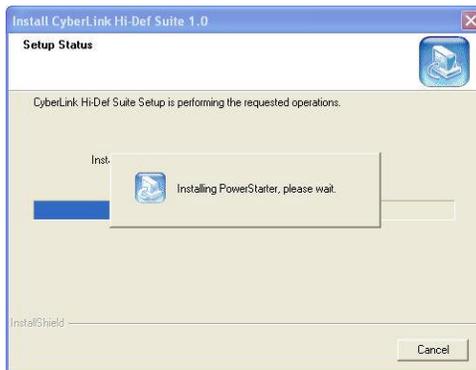

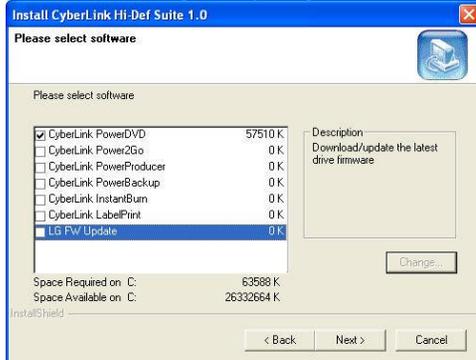

Step 6. Select Next.

Step 7. Select Programs as needed:

- PowerDVD Allows you to watch movies.
- Power2Go Is a high featured CD and DVD burning utility.
- PowerProducer Allows you to Create your own DVDs.

LIMITED WARRANTY

Addonics guarantees that every product is free from physical defects in material and workmanship during the warranty period specified for each product when used within the limits set forth in the Specifications section in the user guide. Unauthorized tampering of the product or using it outside the scope of the product specifications will result in voiding the warranty. If the product proves defective during this warranty period, call Addonics Technical Support to obtain a Return Authorization number. **BE SURE TO HAVE YOUR PROOF OF PURCHASE ON HAND WHEN CALLING. RETURN REQUESTS CANNOT BE PROCESSED WITHOUT PROOF OF PURCHASE.** When returning a product, mark the Return Authorization number clearly on the outside of the package and include your original proof of purchase. Customers are responsible for paying the shipping and handling of the products to Addonics warranty service location.

IN NO EVENT SHALL ADDONICS' LIABILITY EXCEED THE PRICE PAID FOR THE PRODUCT FROM DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THE PRODUCT, ITS ACCOMPANYING SOFTWARE, OR ITS DOCUMENTATION. Addonics makes no warranty or representation, expressed, implied, or statutory, with respect to its products or the contents or use of the user guide and all accompanying software, and specifically disclaims its quality, performance, merchantability, or fitness for any particular purpose. Addonics reserves the right to revise or update its products, software, or documentation without obligation to notify any individual or entity.

Technical Support

If you need assistance to get your unit functioning properly, please call Addonics Technical Support. Our technical staff will be happy to assist you, but they will need your help to do so. Calling the technical support staff without all the proper information can be both time consuming and frustrating. Here are some tips to help you out:

MODEL NUMBER – Please have this number on hand.

SYSTEM INFORMATION – Type of computer, peripherals, etc.

OPERATING SYSTEM – What version of Windows

WHAT'S THE TROUBLE? – Give enough information

about your problem so that we can recreate and diagnose it.
