DVP1100

DVD Player

Versatile slim-line DVD. The best of both form and function.

Versatility doesn't have to be bulky. The DVP1100 offers style and functionality in a convenient, sleek design with an attractive smoked mirror front panel. It stands about 2 inches high, so it won't clutter up your entertainment center. You'll still have plenty of room for that big-screen TV and all of your DVDs. Complete with analog and digital audio and video outputs for superior viewing quality, the DVP1100 lets you play a wide range of digital media, with just one compact system. Plus, a built-in Dolby Digital® decoder lets you surround yourself in sound for a theater-like DVD experience.

Progressive Scan– Delivers sharp, crisp video quality on your digital TV

Slim Design– More features in roughly half the space of traditional players

Maximum Versatility– Plays DVDs, video CDs, music CDs, HDCDs and MP3s on CD-R and CD-RW

Unique Features– Playback digital slideshows on your TV with JPEG file support

Multi-Angle Viewing– Zoom, frame advance, smooth scan, high-speed search and smooth slow motion

Surround Sound– Experience the excitement of home theater with Dolby Digital® and DTS Digital® output

SONIC|blue™
