Owner's Manual

Important!
Return your Warranty Registration
Card within 10 days. See why inside.

PHILIPS

Return your Warranty Registration card today to ensure you receive all the benefits you're entitled to.

Once your PHILIPS purchase is registered, you're eligible to receive all the privileges of owning a PHILIPS product. So complete and return the Warranty Registration Card enclosed with your purchase at once. And take advantage of these important benefits.

Warranty Verification

Registering your product within 10 days confirms your right to maximum protection under the terms and conditions of your PHILIPS warranty.

Owner Confirmation

Your completed Warranty Registration Card serves as verification of ownership in the event of product theft or loss.

Model Registration

Returning your Warranty Registration Card right away guarantees you'll receive all the information and special offers which you qualify for as the owner of your model.

PHILIPS

Congratulations on your purchase, and welcome to the "family!"

Dear PHILIPS product owner:

Thank you for your confidence in PHILIPS. You've selected one of the best-built, best-backed products available today. And we'll do everything in our power to keep you happy with your purchase for many years to come.

As a member of the PHILIPS "family," you're entitled to protection by one of the most comprehensive warranties and outstanding service networks in the industry.

What's more, your purchase guarantees you'll receive all the information and special offers for which you qualify, plus easy access to accessories from our convenient home shopping network.

And most importantly you can count on our uncompromising commitment to your total satisfaction.

All of this is our way of saying welcome-and thanks for investing in a PHILIPS product.

Sincerely,

Robert Minkhorst
President and Chief Executive Officer

P.S.   Remember, to get the most from your PHILIPS product, you must return your Warranty Registration Card within 10 days. So please mail it to us right now!

CAUTION
RISK OF ELECTRIC SHOCK DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

This "bolt of lightning" indicates uninsulated material within your unit may cause an electrical shock. For the safety of everyone in your household, please do not remove product covering.

The "exclamation point" calls attention to features for which you should read the enclosed literature closely to prevent operating and maintenance problems.

WARNING: TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS EQUIPMENT TO RAIN OR MOISTURE.

CAUTION: To prevent electric shock, match wide blade of plug to wide slot, fully insert.

ATTENTION: Pour éviter les choc électriques, introduire la lame la plus large de la fiche dans la borne correspondante de la prise et pousser jusqu'au fond.

For Customer Use
Enter below the Serial No. which is located on the rear of the cabinet. Retain this information for future reference.

Model No._____
Serial No. _____

Safety Precautions

Warning: To prevent fire or shock hazard, do not expose this equipment to rain or moisture.
Federal Communications Commission (FCC) Warning: Any unauthorized changes or modifications to this equipment void the user's authority to operate it.

Laser Safety

This unit employs a laser. Only a qualified service person should remove the cover or attempt to service this device, due to possible eye injury.
CAUTION: USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OF PROCE-
DURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIA-
TION EXPOSURE.
CAUTION: VISIBLE AND INVISIBLE LASER RADIATION WHEN OPEN AND INTERLOCK
DEFEATED. DO NOT STARE INTO BEAM. THE BEAM IS LOCATED INSIDE, NEAR THE
DECK MECHANISM.

Special Information for Canadian Users

This Class B digital apparatus complies with Canadian ICES-003.
Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

Radio/TV Interference

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
1) Reorient or relocate the receiving antenna.
2) Increase the separation between the equipment and the receiver.
3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4) Consult the dealer or an experienced radio/TV technician for help.

Copyright Protection

Unauthorized copying, broadcasting, public performance and lending of Discs are prohibited. This product incorporates copyright protection technology that is protected by method claims of certain U.S. patents and other intellectual property rights owned by Macrovision Corporation and other rights owners. Use of this copyright protection technology must be authorized by Macrovision Corporation and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision Corporation. Reverse engineering or disassembly is prohibited.

4 Table of Contents

Welcome!

This Digital Video Disc Player will allow you to enjoy better picture quality, clearer sound, and endless playback features available on Digital Video Discs (DVDs). Expanding technology allows you to add options to your viewing - watch a director's cut of a movie, listen to the producer's comments, or play your favorite scene over and over again. Hear a movie in different languages, or listen only to the soundtrack. The possibilities are limited only by your choices and the materials available on the DVD.

Of course, you can listen to your favorite Audio Compact Discs on this DVD Player as well. Determine the order in which you want to hear the songs, or play the Disc repeatedly - all while seeing the status of the CD on your television.

We hope you enjoy this DVD Player and learn to use all of its features. To get the most out of the DVD Player, read this owner's manual carefully. It will describe how you can access all the features listed below.

Features

- Audio Language/Sound Mode Choices
- Automatic Detection of Disc Type (Audio CD or DVD)
- DVD Menus in a Desired Language *
- On-Screen Display for DVD Player
- Parental Lock
- Paused/Fast/Slow/Step-by-Step Playback

- Program Playback (Audio CD only)
- Random Playback (Audio CD only)
- Screen Saver
- Selecting a Camera Angle *
- Subtitles in a Desired Language *

* *If available on the Disc*

When referring to this manual, remember...

DVD Indicates that the feature described is available on some Digital Video Discs.

AUDIO CD Indicates that the feature described is available on some Audio Compact Discs.

Disc Menus...

Some explanations in this manual are intended to describe the Disc Menus. These menus are set by the movie producers or by the music industry, and the menus will vary among Discs. Furthermore, not all Discs are guaranteed to have menus. However, if the Disc has a menu, you can access the Disc Menu by pressing the MENU button on the remote control.

DVD Player Menus...

Some instructions explain how to use the DVD Player's menu to set up features of the DVD Player or the Disc. You get to the DVD Player Menu by pressing the SETUP button on the remote control when playback is stopped. Even if a feature is set up in the DVD Player's menu, it may not be available if the current Disc does not include that feature.

Available Disc Features...

Not all of the features described in this manual may be available on every DVD or Audio CD. If the feature is not available on the Disc, you cannot use the DVD Player to make these features available. The "No feature" symbol will appear on the TV screen if you try to set up a feature that is not available on the current Disc or not available at the current time.

6 Playable Discs

Playable Discs

This DVD Player will play Digital Video Discs (DVDs) and Audio CDs. In order to play a DVD or Audio CD on this DVD Player, make sure the Disc meets the requirements for Region Codes and Color Systems as described on this page. Also, the Discs should be labelled with the following logos and should meet these standards.

Disc Type	Logo	Contents	Disc Size	Maximum Playback Time	Disc Segments
Digital Video Disc	DVD VIDEO	Sound and Pictures	12 cm	Approx. 4 hours (single-sided) Approx. 8 hours (double-sided)	DVDs are divided into Titles, which are divided into Chapters. Titles and Chapters are numbered.
			8 cm	Approx. 80 minutes (single-sided) Approx. 160 minutes (double-sided)	
Audio CD	COMPACT disc DIGITAL AUDIO	Sound	12 cm	74 minutes	Audio CDs are divided into numbered Tracks, i.e., a track may be one song.
			8 cm (singles)	20 minutes	

Region Codes

DVDs also must be labelled for ALL regions or for Region 1 in order to be played on this DVD Player. You can not play Discs that are labelled for other regions.
Look for the symbols below on your DVDs. If these region symbols do not appear on your DVD, you cannot play the DVD in this DVD Player.

The number inside the globe refers to a region of the world. Region 1 represents the United States, Canada, upper regions of North America, Bermuda, the U.S. Virgin Islands, and small regions near Australia.
A Disc encoded in a specific region format can only be played on DVD Players with the same region code. For example, if a Disc is labelled for Region 2, you can not play the DVD on this DVD Player.

Color Systems

Different color systems are available throughout the world. The most common color systems are NTSC, which is used primarily in the United States and North America, PAL, and SECAM.
This DVD Player uses the NTSC color system. Therefore, the Discs that you play must be recorded in the NTSC system. You cannot play Discs recorded in other formats. The color system of the DVD may be listed on the DVD or on the Disc jacket.

Unacceptable Discs

The following Discs cannot be played on this DVD Player.

- CD-ROM
- Compact Disc-Interactive (CD-I)
- Compact Disc-Recordable (CD-R)
- Digital Video Disc-Video Recordable (DVD-VR)
- DVD-RAM
- DVD-ROM
- Photo CD
- Video CD
- Video Single Disc (VSD)

The following discs may be played, but only the audio will be available.
There will be no picture.

- Compact Disc-Graphic (CD-G)
- Compact Disc-Video (CD-V)

## Putting Batteries in the Remote Control

1

Remove the battery compartment lid on the bottom of the remote control by pressing the tab, then lifting the lid.
2

Place two AA batteries inside the battery compartment with their + and − ends aligned as indicated.
3

Replace the battery compartment lid.

Using the Remote Control

● Point the remote control at the DVD Player's remote sensor (see page 14) when using the remote control to operate the DVD Player.

● Do not put objects between the remote control and the DVD Player.

Recycling Guidelines/Battery Safety

Your new product and its packaging contain materials that can be recycled and reused. Specialized companies can recycle your product to increase the amount that needs to be properly disposed.
Your product uses batteries that should not be thrown away when depleted but should be disposed of as small chemical waste. Please find out about the local regulations on disposal of your old product, batteries, and packaging whenever you replace existing equipment.

1

2

3

Helpful Hints
• *The remote control and its batteries are supplied.*
• *Do not mix alkaline and manganese batteries.*
• *Do not mix old and new batteries.*

8 Hookups

You may connect the DVD Player several different ways, depending on your existing equipment and your preferences for sound and picture quality. To determine which hookup is best for you, examine the options on the following pages, then see which best matches your situation. Before you hook up the DVD Player, remember:

● Connect the DVD Player directly to a TV. If you connect the DVD Player to a VCR, then connect the VCR to the TV, the picture may be distorted by the copyright protection system.

● Turn off the power of all equipment before making any connections.

● Refer to the owner's manuals of your other equipment for additional information.

● Depending on your connection, you may need to purchase additional cables.

● If you do not connect the DVD Player to a Dolby Digital or DTS Decoder, set DOLBY DIGITAL and DTS to OFF on the DVD Player. *Details are on pages 11 and 38-39.* If you play a DVD when the settings are wrong, the sound will be distorted or you may damage the speakers.

Connecting the DVD Player to a TV only (no stereo or amplifier)
TV has AUDIO (red and white) and VIDEO (yellow) IN jacks
Back of TV (example only)

DVD Player

1
Connect the red and white audio cables to the red and white AUDIO OUT jacks on the DVD Player and to the red and white AUDIO IN jacks on the TV, matching the cable colors to the jack colors. If the TV has a single AUDIO IN jack, use the white audio cable to connect the DVD Player's white AUDIO OUT jack to the TV's AUDIO IN jack. You will not use the red audio cable.

2
Connect the yellow video cable to the VIDEO OUT jack on the DVD Player and to the VIDEO IN jack on the TV.

3
Connect the TV's power cord to a power outlet.
Turn on the TV and set it to the Audio/Video In channel, which also may be referred to as A/V In or Auxiliary In. This channel usually is located near channel 00. See your TV owner's manual for details.

4
Connect the DVD Player's power cord to a power outlet.
Press the POWER button to turn on the DVD Player. "HELLO" will appear briefly on the DVD Player's display panel. You should see the DVD logo on the TV screen briefly. If you do not, check your connections and make sure the TV is set to the correct Audio/Video In channel. If there is no disc in the DVD player, "no DISC" will appear on the display panel.

Connecting the DVD Player to a TV only (no stereo or amplifier)
TV has audio (red and white) and S-Video In jacks

● For better picture quality, use an optional S-Video cable to connect the S-VIDEO OUT jack on the DVD Player to the S-VIDEO IN jack on your TV. You will not use the yellow VIDEO OUT jack on the DVD Player, and you will not need the yellow video cable.

● Set DOLBY DIGITAL and DTS to OFF on the DVD Player. *Details are on pages 38-39.* If you play a DVD when the settings are wrong, the sound will be distorted or you may damage the speakers.

DVD Player

Back of TV
(example only)

1
Connect the red and white audio cables to the red and white AUDIO OUT jacks on the DVD Player and to the red and white AUDIO IN jacks on the TV, matching the cable colors to the jack colors. If the TV has a single AUDIO IN jack, use the white audio cable to connect the DVD Player's white AUDIO OUT jack to the TV's AUDIO IN jack. You will not use the red audio cable.

2

Connect an S-Video cable (not supplied) to the S-VIDEO OUT jack on the DVD Player and to the S-VIDEO IN jack on the TV.

3

Connect the TV's power cord to a power outlet.
Turn on the TV and set it to the S-VIDEO IN channel. This channel usually is located near channel 00. See your TV owner's manual for details.
4

Connect the DVD Player's power cord to a power outlet.
Press the POWER button to turn on the DVD Player. "HELLO" will appear briefly on the DVD Player's display panel. You should see the DVD logo on the TV screen briefly. If you do not, check your connections and make sure the TV is on the correct S-Video In channel. If there is no disc in the DVD player, "no DISC" will appear on the display panel.

Connecting to a TV and a Stereo

● Set DOLBY DIGITAL and DTS to OFF on the DVD Player. *Details are on pages 38-39.* If you play a DVD when the settings are wrong, the sound will be distorted or you may damage the speakers.

AUDIO (LEFT) IN

Back of Stereo
(example only)

1
Connect the red and white audio cables to the red and white AUDIO OUT jacks on the DVD Player and to the red and white AUDIO IN jacks on the Stereo, matching the cable colors to the jack colors.

2
Connect the supplied yellow video cable to the yellow VIDEO OUT jack on the DVD Player and to the VIDEO IN jack on the TV. (Or, you may connect an optional S-Video cable to the S-VIDEO OUT jack on the DVD Player and to the S-VIDEO IN jack on the TV.)

3
Plug in the Stereo's power cord. Turn on the Stereo and select the Stereo's Auxiliary IN station. During Disc playback, you will adjust the volume at your Stereo. See your Stereo owner's manual for details.

4
Plug in the TV's power cord. Turn on the TV and set it to the Video In channel (or S-VIDEO IN channel), which usually is located near channel 00. During Audio CD playback, you may check the status of Audio CDs on your TV screen. During DVD playback, you will watch the program on the TV. See your TV owner's manual for details.

5
Connect the DVD Player's power cord to a power outlet.
Press the POWER button to turn on the DVD Player. "HELLO" will appear briefly on the DVD Player's display panel. You should see the DVD logo on the TV screen briefly. If you do not, check your connections and make sure the TV is on the correct channel. If there is no disc in the DVD player, "no DISC" will appear on the display panel.

Connecting to a Dolby Digital Decoder or DTS Decoder

Some Discs are recorded in a 5.1 channel Dolby Digital Surround or Digital Theater System (DTS) Surround format. These Discs will sound best if you connect the DVD Player to a Dolby Digital or DTS Decoder.

● You will need a coaxial digital audio cable or an audio optical cable (not supplied). *Details are on page 12.*
● If you use the OPTICAL jack, remove the protective cap.
● If you connect the DVD Player to a Dolby Digital Decoder, set DOLBY DIGITAL to ON. *Details are on pages 38-39.*
● If you connect the DVD Player to a DTS Decoder, set DTS to ON. *Details are on pages 38-39.*
  If the DVD Player is not connected to a Dolby Digital or DTS decoder, set DOLBY DIGITAL and DTS to OFF. Incorrect settings may cause noise distortion and damage the speakers.
● Select the 5.1 channel Dolby Digital Surround sound in the Disc menu.
● Connect a subwoofer and the center, front, and surround speakers to the Decoder as described in the Decoder owner's manual.
1
Connect a coaxial digital audio cable to the COAXIAL jack on the DVD Player and to the COAXIAL DIGITAL AUDIO IN jack on the Decoder. (Or, you may connect an audio optical cable to the OPTICAL jack on the DVD Player and to the OPTICAL DIGITAL AUDIO IN jack on the Decoder.)

2
Connect the supplied yellow video cable to the yellow VIDEO OUT jack on the DVD Player and to the VIDEO IN jack on the TV. (Or, you may connect an optional S-Video cable to the S-VIDEO OUT jack on the DVD Player and to the S-VIDEO IN jack on the TV.)

3
Plug in the Decoder's power cord. Turn on the Decoder and select the Auxiliary IN station. During Disc playback, you will adjust the volume at the Decoder. See your Decoder owner's manual for details.

4
Plug in the TV's power cord. Turn on the TV and set it to the correct Video In channel. During Audio CD playback, you may check the Disc status on your TV screen. During DVD playback, you will watch the program on the TV. See your TV owner's manual for details.

5
Connect the DVD Player's power cord to a power outlet. Press the POWER button to turn on the DVD Player. "HELLO" will appear briefly on the DVD Player's display panel. You should see the DVD logo on the TV briefly. If you do not, check your connections and make sure the TV is on the correct channel. If there is no disc in the DVD player, "no DISC" will appear on the display panel.

Connecting to a TV and an Amplifier with Coaxial Digital Audio In jacks, a Mini-Disc Deck or a Digital Audio Tape Deck

● Use a coaxial digital audio cable or an audio optical cable (not supplied) for this connection.
● If you use the OPTICAL jack, remove the protective cap.
● If the Disc is recorded in 5.1 channel Dolby Digital Surround, you cannot dub the Disc in digital sound using a Mini-Disc or Digital Audio Tape Deck.
● Set DOLBY DIGITAL and DTS to OFF on the DVD Player. *Details are on pages 38-39.* If you play a DVD when the settings are wrong, the sound will be distorted or you may damage the speakers.

1
Connect a coaxial digital audio cable to the COAXIAL jack on the DVD Player and to the COAXIAL DIGITAL AUDIO IN jack on the Amplifier. (Or, you may connect an audio optical cable to the OPTICAL jack on the DVD Player and to the OPTICAL DIGITAL AUDIO IN jack on the Amplifier.)

2

Connect the supplied yellow video cable to the yellow VIDEO OUT jack on the DVD Player and to the VIDEO IN jack on the TV. (Or, you may connect an optional S-Video cable to the S-VIDEO OUT jack on the DVD Player and to the S-VIDEO IN jack on the TV.)

3

Plug in the Amplifier's power cord. Turn on the Amplifier and select the Auxiliary IN station. During Disc playback, you will adjust the volume at the Amplifier. See your Amplifier owner's manual for details.

4

Plug in the TV's power cord. Turn on the TV and set it to the correct Video In channel. During Audio CD playback, you may check the status of the Disc on your TV screen. During DVD playback, you will watch the program on the TV. See your TV owner's manual for details.

5

Plug in the DVD Player's power cord. Press the POWER button to turn on the DVD Player. "HELLO" will appear briefly on the DVD Player's display panel. You should see the DVD logo on the TV briefly. If you do not, check your connections and make sure the TV is on the correct channel. If there is no disc in the DVD player, "no DISC" will appear on the display panel.

Helpful Hints

• *Optical cable (not supplied) may be damaged when bent at acute angles. Ensure cables are coiled in loops with a diameter of 6 inches or more when storing them.*

Minimum 6 in. in diameter

• *Use a cable which is 9.8 feet or shorter.*

• *Insert cable plugs firmly into the jacks when making connections.*

• *If a plug has minor scratches or is dirty, clean it with a soft cloth before inserting it into a jack.*

• *Replace the protective cap on the OPTICAL jack when it is not in use.*

DVD		AUDIO CD

Playing a DVD or an Audio CD

Before you begin...
Turn on the power of the TV, amplifier and any other equipment connected to the DVD Player. Make sure the TV and the stereo or amplifier (if applicable) are set to the correct channel. *Details are on pages 8-12.*

1

Press the POWER button to turn on the DVD Player.
"HELLO" will appear briefly on the display panel.

2

Press the OPEN/CLOSE button to open the Disc tray.

3

Place a Disc into the tray. Make sure the Disc is sitting properly in the correct recess.
Some DVDs are recorded on both sides. Make sure the side you want to play is facing up. Or, if the DVD is recorded on only one side, place the Disc in the tray with the label facing up.

4
Press the PLAY button. The tray will close automatically, and playback will begin at the first Chapter or Track of the Disc.
Or, you may press the OPEN/CLOSE button to close the tray, and DVD playback will start automatically. (You also may close the tray by gently pressing the Disc tray toward the DVD Player.)
If the DVD in the tray has a menu, the menu may appear on the screen instead. *Details are on page 19.*
With some Audio CDs, playback will not begin unless you press the PLAY button.

5

Press the STOP button to stop playback.

> ### Remember, this DVD Player
> ### will play only certain Discs.
> ### See page six for details.

3 Insert a Disc.
Helpful Hints

- *A "No Feature" symbol may appear at the bottom right of the TV screen. This symbol means either the feature you tried is not available on the Disc, or the DVD Player can not access the feature at this time. This does not indicate a problem with the DVD Player.*
- *If a Disc is dirty or has scratches, the pictures may appear distorted and playback may stop. In such cases, remove the Disc and turn off the DVD Player. Disconnect the power cord, then reconnect it. Clean the Disc, then turn on the DVD Player again and reinsert the Disc for playback.*
- *When the DVD or CD light appears on the display panel, the Disc is loaded completely and is ready for playback.*

DVD

Using the DVD Menus

Some DVDs contain menus that describe the contents of the Disc or allow you to customize Disc playback. For example, the menu may offer choices for subtitle languages, director's commentary, or soundtrack playback.

To use the DVD menu and select playback features, follow these steps.

To access the DVD's Main Menu...

1

Press the MENU button. The DVD's main menu will appear.

2

Press the arrow buttons (▲/▼/◄/►) to select an item, then press the ENTER button. Continue this process to set up all the features you wish to see on the Disc.
Using the Title Menu

Some DVDs have a Title Menu, which lists the Titles available on the Disc. Use the Title Menu to start playback at a specific Title. Some DVDs may allow you to choose Chapters from the Title menu.

For example, if a DVD has 10 Titles and you want to go directly to Title 5, follow these steps.

To access the DVD's Title Menu...

1

Press the TITLE button. The Title Menu will appear.

If a Title menu is not available, the 🖑
symbol will appear on the TV screen.
NOTE: If the DVD only has a main menu, the main menu may appear when you press the TITLE button.

2

Press the arrow buttons (▲/▼/◄/►) to select the desired Title, then press the ENTER button.
Playback will begin at the Title you selected.
Helpful Hints

• *Menus may vary among Discs. Refer to the information accompanying the Disc for details.*
• *Not all DVDs have Title menus.*
• *Some DVDs may refer to Chapters as "scenes." Some DVDs may refer to the Title Menu as the "scene index."*

Pausing Playback

Pausing Playback...

1

During playback, press the PAUSE/STILL button on the remote control (or press the PAUSE button on the DVD Player). Playback will pause and the sound will be muted.

PAUSE

2

Press the PLAY button to resume playback.
PLAY

DVD

Memory On: Resuming playback from the point where playback stopped

Memory On...

1

Press the STOP button during playback. Playback will stop, and STOP will appear at the top right corner of the TV screen. In a few seconds, MEMO ON (Memory On) will appear in the top left corner of the TV screen.

STOP

MEMO ON

2
Press the PLAY button. Playback will resume from the point where playback stopped last.
PLAY

Helpful Hints

- *Memory On can be erased by pressing the STOP button a second time while playback is stopped. MEMO OFF will appear briefly at the top left corner of the TV screen.*
- *Memory On is not available with Audio CDs.*
- *The DVD player will turn itself off automatically after being in Pause mode for 30 minutes. This helps avoid the possible burning of the still image into the TV screen.*
- *To see the on-screen display messages, such as PLAY, STOP, or PAUSE, set OSD MESSAGE to ON. Details are on page 43.*

DVD

1

Press the PAUSE/STILL button to pause playback. The sound will be muted.

PAUSE

2
Press the PAUSE/STILL button repeatedly to see the picture advance one frame (or step) at a time.
The sound will remain muted. PAUSE will appear briefly on the screen each time you press the PAUSE/STILL button. (OSD MESSAGE must be set to ON. *Details are on page 43.*)

3

Press the PLAY button to resume playback.
PLAY will appear briefly on the screen. (OSD MESSAGE must be set to ON. *Details are on page 43.*)

1

During playback, press the FWD►► button or the REV◄◄ button on the remote control (or press the SEARCH buttons on the DVD Player).

● On a DVD, pressing the FWD►► or REV◄◄ button repeatedly will forward or reverse the picture at twice, eight times, or 32 times the normal playback speed. Sound will be muted during searching.

● Use the FWD ►► button for a forward search. Press the REV◄◄ button for a reverse search.

Press the REV ◄◄ button.
◄◄X2

Press the REV ◄◄ button again.
◄◄X8

Press the REV ◄◄ button again.
◄◄X32

Press the REV ◄◄ button again.

Press the FWD ►► button.
►►X2

Press the FWD ►► button again.
►►X8

Press the FWD ►► button again.
►►X32

Press the FWD ►► button again.
● On an Audio CD, you may search forward or backward at 16 times the normal playback speed (◄◄X16 or ►►X16). Pressing the FWD ►► or REV◄◄ button repeatedly will not affect the speed of the search. Sound will be intermittent during searching on an Audio CD.

● Use the FWD ►► button for a forward search. Press the REV◄◄ button for a reverse search.

Press the REV ◄◄ button during Audio CD playback.
◄◄X16

Press the FWD ►► button during Audio CD playback.
►►X16

2

Press the PLAY button to return to normal playback.
Helpful Hint
• *To see the search speed on the screen, OSD MESSAGE must be set to ON. Details are on page 43.*

DVD

1

Press the PAUSE/STILL button during playback.

2

Press the FWD button. Slow motion playback will begin.
Press the FWD button repeatedly during slow motion playback to
vary the speed of slow motion playback. You may play the DVD at
1/16, 1/8, or 1/2 the normal playback speed.

3

Press the PLAY button to return to normal playback.
Helpful Hints

- *The sound will be muted when playback is paused and during slow motion playback.*
- *You can not play the DVD in reverse slow motion.*

AUDIO CD

Starting Playback at a Specific Track

There are three ways to begin playback on an Audio CD at a specific Track. You may use the Number buttons, the SEARCH MODE button, or the SKIP |◀◀ ▶▶| buttons. For details, read the information below.

A

Using the Number Buttons to Select a Track
Press the Number buttons to enter the desired Track number. The selected Track will be located, and playback will start. You may select a Track with the Number buttons during playback or when playback is stopped.

For single-digit Tracks, press a single Number button. For example, to play Track three, press the Number 3 button.

For Tracks numbered 10 and above, press the +10 button (repeatedly, if necessary), then press the Number button of the second digit. For example, to play Track 12, press the +10 button, then press the Number 2 button. For Track 22, press the +10 button twice, then press the Number 2 button.

If you enter a Track number that is not available on the Disc, playback will not begin (or the current Track will continue to play).

B

Using the SEARCH MODE Button to Select a Track
Press the SEARCH MODE button once, then press the ▲/▼ buttons to select the Track number you desire. Finally, press the PLAY button to begin playback at the selected Track.

If you press the SEARCH MODE button once during playback, the current Track number will be displayed inside the brackets.

```
    SEARCH/TRACK

  TOTAL  TRACKS: 07

   TRACK: [  6 ]

  PLAY  Start    RETURN  Exit
```
C

Using the SKIP|◀◀ ▶▶| Buttons to Select a Track
Press the SKIP ▶▶| button during playback to skip the current Track and move to the next Track. Press the SKIP ▶▶| button repeatedly to skip subsequent Tracks. The Track number will appear briefly on the TV screen.

Press the SKIP|◀◀ button during playback to return to the beginning of the current Track. Press the SKIP|◀◀ button repeatedly to go to previous Tracks. The Track number will appear briefly on the TV screen.

If you press a SKIP button when playback is paused, you must press the PLAY button to resume playback.

If you press a SKIP button when playback is stopped, the selected Track will begin playing automatically.
DVD

Starting Playback at a Specific Title/Chapter
There are two ways to begin DVD playback at a specific Title or Chapter. You may use the Number buttons or the SEARCH MODE button.

A

Using the Number Buttons to Select a Title/Chapter
During playback, press the Number buttons to select a Chapter. The Chapter will be located and playback will start.
When playback is stopped, press the Number buttons to select a Title. The Title will be located and playback will begin.
For single-digit Chapters or Titles, press a single Number button. For example, to play Chapter three, press the Number 3 button during playback. To play Title two, press the Number 2 button while playback is stopped.
For Chapters/Titles numbered 10 and above, press the +10 button (repeatedly, if necessary), then press the Number button of the second digit. For example, to play Chapter 12, press the +10 button, then press the Number 2 button during playback. For Title 22, press the +10 button twice, then press the Number 2 button when playback is stopped.

B

Using the SEARCH MODE Button to Select a Title/Chapter
To start playback at a specific Chapter, press the SEARCH MODE button once, then press the Number buttons or the ▲/▼ buttons to enter the Chapter number. Press the PLAY button to begin playback at the selected Chapter.

```
        SEARCH/CHAPTER

     TOTAL  CHAPTERS: 027

       CHAPTER: [ 15]

   PLAY Start    RETURN Exit
```
To start playback at a specific Title, press the SEARCH MODE button twice, then press the Number buttons or the ▲/▼ buttons to enter the Title number. Press the PLAY button to begin playback at the selected Title.

```
         SEARCH/TITLE

      TOTAL  TITLES: 07

        TITLE: [  5 ]

   PLAY Start    RETURN Exit
```
Helpful Hint
• *During DVD playback, press the SKIP buttons to go to the next chapter, return to the beginning of the current chapter, or go to a previous chapter.*

DVD   AUDIO CD

Starting Playback at a Specific Disc Time

1

Press the SEARCH MODE button repeatedly (three times for DVDs or two times for Audio CDs).

```
         SEARCH/TIME

  TOTAL TIME: 1h23m45s

    TIME [ _h_ _m_ _s ]

  PLAY Start    RETURN Exit
```
2

Use the Number buttons to enter the Disc time at which you want playback to begin.

● Example: 1 hour, 23 minutes and 30 seconds

1 → +10 → +10 → 3 → +10 → +10 → +10 → 0

● To enter zero, press the Number 0 (zero) button or press the ► button.

● Make sure the time you enter is within the total time of the Disc. If it is not, you will have to enter a different time.

● If you make a mistake, press the ► button repeatedly until you reach the item you need to correct (hour, minute, or second), then enter the correct information.

```
         SEARCH/TIME

  TOTAL TIME: 1h23m45s

    TIME [1h05m30s]

  PLAY Start    RETURN Exit
```
3

Within 30 seconds, press the PLAY button. Playback will start at the time that you specified.
Helpful Hint

• *Specific time playback is not available with some discs or if MEMORY OFF is activated for a DVD. Details are on page 20.*

1

Press the REPEAT button repeatedly until the repeat mode you want appears in the top left corner of the TV screen.

DVD

● Repeatedly pressing the REPEAT button during playback lets you choose REPEAT CHAPTER, REPEAT TITLE, or REPEAT OFF.

● If a Chapter is playing repeatedly, then you press the Number buttons to select a new Chapter, the new Chapter will play repeatedly.

| REPEAT [CHAPTER] | Press the REPEAT button to select REPEAT CHAPTER. The current Chapter plays over and over. |

| REPEAT [TITLE] | Press the REPEAT button again to select REPEAT TITLE. The entire Title plays over and over. |

| REPEAT [OFF] | Press the REPEAT button again to select REPEAT OFF. Regular playback will resume. |
AUDIO CD

● Repeatedly pressing the REPEAT button during playback lets you choose REPEAT TRACK, REPEAT ALL and REPEAT OFF.

● If a Track is playing repeatedly, then you press the Number buttons to select a new Track, the new Track will play repeatedly.

| REPEAT [TRACK] | Press the REPEAT button to select REPEAT TRACK. The current Track plays over and over. |

| REPEAT [ALL] | Press the REPEAT button again to select REPEAT ALL. The entire Audio CD plays over and over. |

| REPEAT [OFF] | Press the REPEAT button again to select REPEAT OFF. Regular playback will resume. |
Helpful Hint

• *Repeat playback is not available with some discs.*

DVD   AUDIO CD

You can play a section of an Audio CD or DVD repeatedly.
Follow these steps to set up the section that you want to play
over and over.

1

**Play the Disc to the point at which you want repeated
playback to begin.**

2

**Press the A-B REPEAT button to set the starting point
(A).**

```
REPEAT
[ A -   ]
```
3

**Play or fast forward the Disc to the point at which you
want repeated playback to end, then press the A-B
REPEAT button again.**
The section will begin to play immediately, playing over and over
until you cancel the A-B Repeat feature.

```
REPEAT
[ A - B ]
```
4

**To cancel the A-B Repeat feature, press the A-B REPEAT
button so that REPEAT [OFF] appears on the TV screen.**
Regular Disc playback will resume.

```
REPEAT
[ OFF ]
```

1   **3**

2-4
Helpful Hints

• *A-B Repeat playback is not available
  with some DVDs.*
• *With DVDs, the entire A-B repeat
  section must be within a single Title.*
• *With Audio CDs, the A-B repeat
  section can contain multiple Tracks.*
• *Point B must be later on the Disc
  than Point A.*

AUDIO CD

You may determine the order in which Tracks will play. The order that you set is called the Program. To set up programmed playback, follow these steps.

1

While playback is stopped, press the MODE button. The program screen will appear.

```
           PROGRAM
  T [_ _] / 14  TOTAL    0h00m00s

 PLAY Start, CLEAR Delete RETURN Exit
```
2

Press the Number buttons or the ▲/▼ buttons to enter the number of the first Track that you want to play. Then, press the ENTER button to store the selected Track in the Program.
● If you enter a wrong Track number, press the CLEAR button. The last Track in the Program will be removed.

position in program ⟶
```
           PROGRAM
  T [_ _] / 14  TOTAL    0h07m46s
      01: 12  ◄
```
⟶ track number
```
 PLAY Start, CLEAR Delete RETURN Exit
```
3

Repeat step 2 until you have selected all the Tracks you wish to play in the Program.
● Up to 20 Tracks may be stored in the Program.
● Make sure the Track numbers you enter are available on the Audio CD. If it is not, you will have to enter a different track.

4

Press the PLAY button. The Tracks will play in the order in which you programmed them. The Program will play once.
● The contents of the program will be stored until you turn off the DVD Player or open the Disc tray.

2-3

4

1
Helpful Hints

- *Specific Track and random playback cannot be combined with programmed playback. During programmed playback, the MODE and SEARCH MODE buttons will not operate.*
- *You may play a Program repeatedly. During programmed playback, press the REPEAT button so that REPEAT [ON] appears. The program will play over and over.*
- *To see which Tracks you stored in the Program, press the STOP button to stop playback, then press the MODE button so that the PROGRAM screen appears.*
- *Programmed playback can only be started from the program screen.*

AUDIO CD

You may play the Tracks of an Audio CD in Random order
instead of the order in which they are recorded (1,2,3...). To set
up Random Playback, follow these steps.

1

**While playback is stopped, press the MODE button
repeatedly so that the RANDOM screen appears.**

```
RANDOM

PLAY Start          RETURN Exit
```

2

**While the RANDOM screen appears, press the PLAY but-
ton.** The Tracks will play in random order. After all the Tracks on
the disc have played once, playback will stop.

The DVD Player allows you to select a Language for DVDs or a
Sound Mode for Audio CDs.

DVD **Language**

1

**Press the AUDIO button during playback, then press the
▲/▼ buttons to select the desired language.**
● The language can be changed only if multiple languages are avail-
able on the DVD.

AUDIO 1 : ENG /8   Press the ▲/▼ buttons.

AUDIO 2 : FRE /8   Press the ▲/▼ buttons again.

AUDIO 8 : PN /8   Press the ▲/▼ buttons again.

HELLO → BONJOUR ●●●

AUDIO 1   AUDIO 2
AUDIO CD **Sound Mode**

1

**Press the AUDIO button during playback, then press the
▲/▼ buttons until the sound mode you want appears.**
● When producers record an Audio CD, they record the sound
on two channels - the left and the right. You can choose to hear
the sound on the left channel, the sound on the right channel,
or the sound on both channels (Stereo). You will select L-CH,
R-CH, or STEREO.

AUDIO STEREO ← Both right and left channels
are active (stereo).

AUDIO R CH ← Only the right channel is active.

AUDIO L CH ← Only the left channel is active.

Helpful Hints

- *If a desired language is not shown
  after pressing the ▲/▼ buttons sev-
  eral times, the DVD does not have
  that language.*
- *The display will disappear after
  about 15 seconds.*
- *Some DVDs only allow you to
  change the language in the Disc
  menu.*
- *When you use the DIGITAL AUDIO
  OUT COAXIAL jack, the sound mode
 of audio CDs cannot be changed.*

DVD

The DVD Player allows you to select a language for subtitles.

1

Press the SUBTITLE button during playback. The subtitle menu will appear on the TV screen.

2

Within 15 seconds, press the ▲/▼ buttons to select a subtitle language. Select a language from those available on the DVD.
SUBTITLE 1 : E N G /8 ← Press the ▲/▼ buttons.

SUBTITLE 2 : F R E /8 ← Press the ▲/▼ buttons to select another language. Subtitle 2

SUBTITLE 0:O F F /8 ← To turn off subtitles, press the ▲/▼ buttons repeatedly until OFF appears in the subtitle menu. No subtitles

HELLO → BONJOUR ●●●

SUBTITLE 1   SUBTITLE 2

3

The subtitle menu will disappear after about 15 seconds.

Helpful Hints

- *With some DVDs, you may select a subtitle language in the Disc menu.*
- *If the desired language is not shown after pressing the ▲/▼ buttons several times, the Disc does not have subtitles in that language.*
- *The subtitles may be delayed for a few seconds.*
- *Your subtitle selection will be cancelled if you open the Disc tray or turn off the power. The default setting of the DVD will be selected again.*

DVD

Some DVDs contain scenes that were recorded from different angles. You may select a camera angle with the DVD Player.

1

Press the ANGLE button during playback.

2

Within 15 seconds, press the ▲/▼ buttons to select a different angle.

ANGLE [1]/8 ← Angle 1 (default) of eight possible angles

ANGLE [2]/8 ← Press the ▲/▼ buttons to select another angle. Angle 2

ANGLE [8]/8 ← Press the ▲/▼ buttons again. Angle 8
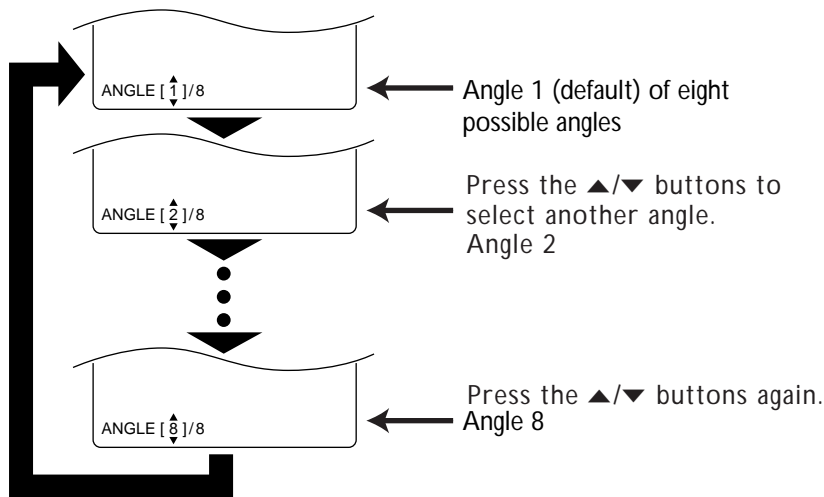

● If the Disc contains sequences recorded from different camera angles, the angle symbol will appear at the bottom-right of the screen. You can change the camera angle when the symbol appears on the screen.
● The camera angle cannot be changed if the Disc does not contain sequences recorded from different camera angles.

Helpful Hints

• *The ANGLE ICON must be set to ON in order for the angle symbol to appear as described in step 2. To set ANGLE ICON to ON, see page 43.*
• *If the angle status appears on the screen (for example, ANGLE [1]/8), the angle symbol will not appear on the screen.*

1

While playback is stopped, press the SETUP button. The setup screen will appear.

```
            SETUP
        1. LANGUAGE
        2. VIDEO
        3. AUDIO
        4. LOCK
        5. OTHERS

    ENTER Enter   RETURN / SETUP Exit
```
2

Press the Number 4 button to select LOCK.
The SETUP/LOCK menu will appear.

```
         SETUP/LOCK
    PASSWORD      [ _ _ _ _ ]

    1. LEVEL          [NONE]
    2. CHANGE PASSWORD

    ENTER Enter, RETURN Back
```

3
Press the Number buttons to enter the 4-digit password.
● When doing this for the first time, enter any 4 digits. That number will be the password until you change it.

```
         SETUP/LOCK
    PASSWORD      [ ✱✱✱✱ ]

    1. LEVEL          [NONE]
    2. CHANGE PASSWORD

    ENTER Enter, RETURN Back
```

4

Press the Number 2 button to select CHANGE PASS-WORD. The first space in the PASSWORD will start flashing.

5

Press the Number buttons to enter your new password.

6

Press the RETURN button twice to remove the menu.

3,5

6

4

2

1
Helpful Hints

- *Write down the password in case you forget it.*
- *To erase the old password, press the POWER button to turn off the DVD Player. Then, press and hold the STOP button <u>on the DVD Player</u> while pressing the POWER button <u>on the DVD Player</u> to turn on the power again. When "HELLO" appears on the display panel, you may release the STOP button. Follow the steps on this page to set the password that you desire.*
1

**While playback is stopped, press the SETUP button.** The
setup screen will appear.

```
         SETUP
     1. LANGUAGE
     2. VIDEO
     3. AUDIO
     4. LOCK
     5. OTHERS

ENTER Enter   RETURN / SETUP Exit
```

2

Press the Number 4 button to select LOCK.
The SETUP/LOCK menu will appear.

```
     SETUP/LOCK
PASSWORD      [ _ _ _ _ ]

1. LEVEL          [NONE]
2. CHANGE PASSWORD

ENTER Enter, RETURN Back
```

3
Press the Number buttons to enter your 4-digit password.

```
     SETUP/LOCK
PASSWORD      [ **** ]

1. LEVEL          [NONE]
2. CHANGE PASSWORD

ENTER Enter, RETURN Back
```

4

Press the Number 1 button to select LEVEL.

```
        SETUP/LOCK
       PARENTAL LOCK
NONE                        Parental Lock is off.
LEVEL 8  [PLAY ALL]         All DVDs will play, regardless of rating.
LEVEL 7  [NC-17]            DVDs rated NC-17 or higher will not play.
LEVEL 6  [R]                DVDs rated R or higher will not play.
LEVEL 5
LEVEL 4  [PG13]             DVDs rated PG13 or higher will not play.
LEVEL 3  [PG]               DVDs rated PG or higher will not play.

ENTER Enter                 DVDs that are not rated will play.
```

5

**Press the ▲/▼ buttons to select the level you desire, then
press the ENTER button.** For example, if you want to play
Discs rated PG13, you must select LEVEL 5 or higher.
The SETUP/LOCK menu will reappear. The level you selected will
appear on the screen beside LEVEL.

6

Press the RETURN button twice to remove the menu.
RATING EXPLANATIONS
- NC-17 - Under 17 not admitted
- R - Restricted; under 17 requires
  accompanying parent or adult
  guardian
- PG13 - Unsuitable for children
  under 13
- PG - Parental Guidance suggested
- G - General Audience

Helpful Hints

- *Some DVDs are not compatible
  with Parental Lock. Make sure the
  DVD plays according to the Parental
  Lock settings you have made.*
- *The DVD Player will not allow you
  to change LEVEL settings until you
  enter the correct password.*
- *When you try to play a Disc that
  has a rating that exceeds the level
  you set, a message will appear on
  the screen, indicating the Disc can-
  not be played. If this happens, press
  the OPEN/CLOSE button to remove
  the Disc, then select a level that
  allows playback. Or select NONE to
  turn off Parental Lock. Load the
  Disc again and begin playback as
  usual. Some Discs may allow you to
  simply enter your 4-digit password,
  then begin playback automatically.
  Follow the instructions provided by
  the Disc message.*

Helpful Hints

• *If the original or automatic settings for AUDIO and SUBTITLE are the same language, the subtitles will not be shown.*
• *Language settings for AUDIO, SUBTITLE, and DISC MENU are not available with some discs. Use the AUDIO and SUBTITLE buttons instead to select different languages for the audio and subtitles. Details are on pages 31 and 32.*
• *Not all discs provide different languages for audio, subtitles, or disc menus.*

4

Press a Number button to select a setting.

● If OTHER is selected on the AUDIO, SUBTITLE or DISC
  MENU screen, the COUNTRY CODE screen will appear. Press
  four Number buttons to enter the country code you desire,
  then press the ENTER button. Refer to the list on page 42.

● You can only select other languages for AUDIO, SUBTITLE, and
  DISC MENU if the language is available on the Disc.

```
SETUP/LANGUAGE

If you are having problems with your product, check this list of problems and possible solutions before requesting service. You may be able to solve the problem yourself.

If you need to call a customer service representative, please know the model number and serial number of your product before you call. This information is displayed on the back of the product. Also, please take a moment to identify the problem you are having, and be prepared to explain this to the representative. If you believe the representative will need to help you with operations, please stay near the product. Our representatives will be happy to assist you.

The DVD Player has no power.
• Make sure the power cord is connected completely to an AC (alternating current) outlet.
• Press the POWER button to turn on the DVD Player. "HELLO" will appear briefly on the display panel as the power is turning on.

The remote control will not operate the DVD Player.
• Aim the remote control directly at the DVD Player's remote sensor. *Details are on page 14.*
• Remove all obstacles between the remote control and the DVD Player.
• Inspect and/or replace the batteries in the remote control. *Details are on page seven.*
• Use the remote control within 23 feet of the DVD Player.

No picture
• Make sure the video cable is connected correctly. You may connect either the yellow video cable (supplied) or an optional S-Video cable. *Details are on pages 8-12.*
• Make sure the TV is set to the correct Video channel (usually the AUX IN, A/V IN, Auxiliary In, or S-Video In channel). Check your TV owner's manual for details.
• Insert a Disc that is playable on this DVD Player. *Details are on page six.*

Disc cannot be played.
• Insert a playable Disc. *Details are on page six.*
• Place the Disc correctly in the recesses in the Disc tray. If the Disc is one-sided, place the Disc in the tray with the label facing up. If the Disc is two-sided, make sure the side you want to play is facing up.
• Clean the Disc.
• Cancel the parental lock, enter the password, or change the control level. *Details are on pages 34-35.*
• Make sure the Disc is labelled for use in Region 1 or ALL regions. *Details are on page six.*

No sound
• Connect the audio cables firmly. Make sure the cables are connected to the AUDIO IN jacks on the TV or audio equipment. *Details are on pages 8-12.*
• Check the audio settings of the DVD Player. *Details are on pages 38-39.*
• Turn on the power of the audio equipment and make sure it is set to the correct channel, usually Auxiliary IN. Refer to the owner's manual of the audio equipment for details.
• Check the audio settings of the Disc. For example, you may have selected "soundtrack" playback on a DVD. Only the music of the movie will play, not the characters' dialog; music might not be recorded throughout the entire DVD.

Distorted picture
• Connect the DVD Player directly to the TV.
• There are some cases where the picture may be distorted slightly; this is not a malfunction of the DVD Player.

The camera angle cannot be changed.
• The DVD might not contain segments recorded from different camera angles. See if multiple angles are available. *Details are on page 33.*

The audio or subtitle language cannot be changed.
• The DVD does not contain audio or subtitles in the desired language. Not all DVDs contain audio or subtitles in multiple languages. See if other languages are available. *Details are on pages 31-32.*

"No feature" symbol appears on the screen, prohibiting an operation.
• That operation is currently prohibited by the DVD Player or is not available on the Disc. *Details are on page five.*

The DVD Player turns off after 30 minutes.
• The power is turned off automatically if playback is paused or stopped for more than 30 minutes (and no buttons are pressed on the remote control or the DVD Player).

A screen saver appears on the TV screen.
• The DVD whale will appear on the TV screen if Disc playback is stopped for more than one minute (and no buttons are pressed on the remote control or the DVD Player). The DVD whale moves around on the screen to prevent damage to your TV's picture tube. A prolonged still image, including TV station identification logos or video games, may damage the picture tube.

Cleaning the DVD Player

• Wipe the front panel and other exterior surfaces of the DVD Player with a soft, slightly damp cloth.
• Never use a solvent, thinner, benzene or alcohol to clean the DVD Player. Do not spray insecticide liquid near the DVD Player. Such chemicals may discolor the surface or damage the DVD Player.
Don't use cleaners.

Cleaning a Disc

• Use a soft, dry cloth to wipe the Disc.
• Wipe the Disc in a straight line from the center to the edge. Never wipe the Disc in a circular motion.
• Do not use detergent or abrasive cleaning agents.
• Handle the Discs so that fingerprints and dust do not adhere to the surfaces of the Discs.
• Always store the Disc in its protective case when it is not in use.
Wipe Discs from the center to the edge.

Checking the Laser

• If the DVD Player does not operate as described in this owner's manual, the laser may be dirty. Consult an Authorized Service Center for inspection and cleaning of the laser.
Handle Discs by the edges.
Keep the Disc in its case.

AUDIO OUT Jacks: jacks located on the back of the DVD Player which are used to send audio to another system (TV, decoder, or amplifier).

CD: Compact Disc (audio)

Coaxial jack: Used to send digital audio to a decoder or amplifier, allowing you to adjust the volume at the decoder or amplifier. This connection provides the 5.1 channel surround sound as heard in movie theaters.

Dolby Digital: A surround sound system that provides 5.1 channel sound as used in movie theaters.

DTS: Digital Theater Systems. This is a surround sound system, but it is different from Dolby Digital. The formats were developed by different companies.

DVD: Digital Video Disc.

OPTICAL Jack: Converts electrical signals into optical signals before sending the audio to the amplifier. Optical audio is not prone to external electrical influences and has less noise, which reduces adverse effects on external equipment. Be sure to keep the protective cap on the jack when the jack is not being used. This keeps dust out of the jack.

Remote Control: the small unit that came with your DVD Player; allows you to operate your DVD Player from a distance.

S-Video: Produces a clearer picture by sending separate signals for the luminance and the color. If you connect an optional S-Video cable, you will not need to use the supplied yellow video cable.

VIDEO OUT Jack: jack located on the back of the DVD Player which is used to send video to a TV.

90 Days Free Labor/One Year Parts Exchange. This product must be carried in for repair.

WHO IS COVERED?
You must have proof of purchase to receive warranty service. A sales receipt or other document showing that you purchased the product is considered proof of purchase.

WHAT IS COVERED?
Warranty coverage begins the day you buy your product. *For 90 days thereafter,* all parts will be repaired or replaced, and labor is free. *From 90 days to one year from the day of purchase,* all parts will be repaired or replaced, but you pay for all labor charges. *After one year from the day of purchase,* you pay for the replacement or repair of all parts, and for all labor charges.

All parts, including repaired and replaced parts, are covered only for the original warranty period. When the warranty on the product expires, the warranty on all replaced and repaired parts also expires.

WHAT IS EXCLUDED?
Your warranty does not cover:
- labor charges for installation or setup of the product, adjustment of customer controls on the product, and installation or repair of antenna systems outside of the product.
- product repair and/or part replacement because of misuse, accident, unauthorized repair or other cause not within the control of Philips Consumer Electronics.
- reception problems caused by signal conditions or cable or antenna systems outside the unit.
- a product that requires modification or adaptation to enable it to operate in any country other than the country for which it was designed, manufactured, approved and/or authorized, or repair of products damaged by these modifications.
- incidental or consequential damages resulting from the product. (Some states do not allow the exclusion of incidental or consequential damages, so the above exclusion may not apply to you. This includes, but is not limited to, prerecorded material, whether copyrighted or not copyrighted.)
- damage caused by the use of non-VHS tapes or tapes that have not been tested and labeled for use in two, four, six, and eight hour VHS recorders.
- a product that is used for commercial or institutional purposes (including but not limited to rental purposes).

WHERE IS SERVICE AVAILABLE?
Warranty service is available in all countries where the product is officially distributed by Philips Consumer Electronics. In countries where Philips Consumer Electronics does not distribute the product, the local Philips service organization will

attempt to provide service (although there may be a delay if the appropriate spare parts and technical manual(s) are not readily available).

MAKE SURE YOU KEEP...
Please keep your sales receipt or other document showing proof of purchase. Attach it to this owner's manual and keep both nearby. Also keep the original box and packing material in case you need to return your product.

BEFORE REQUESTING SERVICE...
Please check your owner's manual before requesting service. Adjustments of the controls discussed there may save you a service call.

TO GET WARRANTY SERVICE IN U.S.A., PUERTO RICO OR U.S. VIRGIN ISLANDS...
Take the product to a Philips factory service center (see enclosed list) or authorized service center for repair. When the product has been repaired, you must pick up the unit at the center. Centers may keep defective parts.

(In U.S.A., Puerto Rico and U.S. Virgin Islands, all implied warranties, including implied warranties of merchantability and fitness for a particular purpose, are limited in duration to the duration of this express warranty. Because some states do not allow limitations on how long an implied warranty may last, this limitation may not apply to you.)

TO GET WARRANTY SERVICE IN CANADA...
Please contact Philips at:

1-800-661-6162 (French Speaking)
1-800-363-7278 (English Speaking)

(In Canada, this warranty is given in lieu of all other warranties. No other warranties are expressed or implied, including any implied warranties of merchantability or fitness for a particular purpose. Philips is not liable under any circumstances for any direct, indirect, special, incidental, or consequential damages, howsoever incurred, even if notified of the possibility of such damages.)

REMEMBER...
Please record below the model and serial numbers found on the product. Also, please fill out and mail your warranty registration card promptly. It will be easier for us to notify you if necessary.
