

### Kit Includes:

### Installation:

1. Remove the two screws and lens on each tail light.
2. Remove the light bulb from socket.
3. Carefully remove the gasket from the housing. If the gasket is hard or brittle it should be replaced.

4. Now is a good time to clean or replace the lenses and housings if necessary. If the lenses are in poor condition a replacement set is recommended.

5. Insert the LED assembly bulb base into the tail light housing socket.
6. Place the new LED assembly into the housing so that the mounting bracket sits into the groove for the lens gasket.

7. Replace the lens gasket. The gasket will sit on top of the mounting bracket tabs.
8. Replace the lens and carefully tighten the screws.
9. Repeat for the other tail light.
10. Test the tail lights, brake lights, and turn signals. If the turn signals do not flash you will need to upgrade your flasher. If you are replacing only the rear turn signals you should be able to use a heavy duty electronic flasher from your local parts store. If you are replacing both front and rear or do not have front bulbs you will need a no-load flasher, Dakota Digital part number LAT-NLF.

---

#### SERVICE AND REPAIR

DAKOTA DIGITAL offers complete service and repair of its product line. In addition, technical consultation is available to help you work through any questions or problems you may be having installing one of our units.

Should you ever need to send the unit back for repairs, please package the product in a good quality box along with plenty of packing material. Ship the product by UPS or insured Parcel Post. Be sure to include a complete description of the problem, your full name and address (street address preferred), and a telephone number where you can be reached during the day. An authorization number for products being returned for repair is needed. We will contact you if any repair charges exist. Any returns for warranty work must include a copy of the dated invoice or bill of sale.

---

#### LED LIGHTING LIMITED LIFETIME WARRANTY

DAKOTA DIGITAL (the Company) warrants to the ORIGINAL PURCHASER of this LED Lighting product under normal use and condition, be proven defective in material or workmanship DURING THE LIFETIME OF THE CAR IN WHICH IT WAS ORIGINALLY INSTALLED, such defect(s) will be repaired or replaced (at the Company's option) without charge for parts or labor directly related to repairs of the defect(s).
