- **Picture compression format:** JPEG
- **Picture enhancement:** Flip photos, Rotate,

Slideshow, Zoom

Multimedia Applications

- **Multimedia connections:** USB memory class device
- **Playback Formats:** DivX, JPEG Still pictures, MP3

Connectivity

- **Front / Side connections:** Microphone, USB
- **Rear Connections:** Composite video (CVBS) output, Digital coaxial out, Component Video out, Progressive, Analog audio Multi-channel out

Convenience

- **Child Protection:** Parental Control, Child Lock
- **On-Screen Display languages:** English, Polish, Russian
- **Karaoke:** MIC volume

Power

- **Power supply:** 230V, 50Hz
- **Power consumption:** < 10 W
- **Standby power consumption:** < 1 W

Accessories

- **Included Accessories:** Audio/Video cable, Remote Control, World Wide Warranty leaflet, 2 x AAA Batteries, User Manual

Dimensions

- **Set dimensions (W x H x D):** 360 x 37 x 210 mm
- **Packaging dimensions (W x H x D):** 415 x 82 x 282 mm

Product highlights

192kHz/24 bit audio DAC

192KHz sampling enables you to have an accurate representation of the original sound curves. Together with a 24-bit resolution, more information is captured from the original analogue sound wave form, giving a much richer audio reproduction.

5.1 audio and stereo output

Karaoke Scoring

Karaoke Scoring is an advanced feature that automatically rates your singing and gives you a humorous picture that is tied to your scores.

Plays it all

Play virtually any media format you want - whether they be DivX, MP3s, WMA or JPEGs. Experience the unbeatable convenience of great playability, and the luxury of sharing media files on your TV or home theater system - in the comfort of your living room.

Progressive Scan

Progressive Scan doubles the vertical resolution of the image resulting in a noticeably sharper picture. Instead of sending a field comprising the odd lines to the screen first, followed by the field with the even lines, both fields are written at one time. A full image is created instantaneously, using the maximum resolution. At such a speed, your eye perceives a sharper picture with no line structure.

Create MP3s

Convert the contents of your favorite CDs to MP3 files on your Philips product, and store it directly on a thumbdrive or on your portable media player through a USB cable. Enjoy the convenience of creating MP3 files right in your living room, without a PC, and even while the CD is playing.

Hi-Speed USB 2.0 Link

The Universal Serial Bus or USB is a protocol standard that is conveniently used to link PCs, peripherals and consumer electronic equipment. Hi-Speed USB devices have a data transfer rate of up to 480 Mbps - up from the 12 Mbps in original USB ones. With Hi-Speed USB 2.0 Link, all you have to do is plug in your USB device, select the movie, music or photo and play away.
