If the accessory is found by **EURO-PRO Operating LLC** to be defective in material or workmanship, **EURO-PRO Operating LLC** will repair or replace it free of charge. Proof of purchase date and \$14.95 to cover the cost of return shipping and handling must be included. * Non-durable parts, without limitation, which normally require replacement are specifically excluded from warranty.

The liability of **EURO-PRO Operating LLC** is limited solely to the cost of the repair or replacement of the unit at our option. This warranty does not cover normal wear of parts and does not apply to any unit that has been tampered with or used for commercial purposes. This limited warranty does not cover damage caused by misuse, abuse, negligent handling or damage due to faulty packaging or mishandling in transit. This warranty does not cover damage or defects caused by or resulting from damages from shipping or repairs, service or alterations to the product or any of its parts, which have been performed by a repair person not authorized by **EURO-PRO Operating LLC**.

This warranty is extended to the original purchaser of the unit and excludes all other legal and/or conventional warranties. The responsibility of **EURO-PRO Operating LLC** if any, is limited to the specific obligations expressly assumed by it under the terms of the limited warranty. **In no event is EURO-PRO Operating LLC** liable for incidental or consequential damages of any nature whatsoever. Some states/provinces do not permit the exclusion or limitation of incidental or consequential damages, so the above may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state or province to province.

***Important: Carefully pack item to avoid damage in shipping. Be sure to include proof of purchase date and to attach tag to item before packing with your name, complete address and phone number with a note giving purchase information, model number and what you believe is the problem with item. We recommend you insure the package (as damage in shipping is not covered by your warranty). Mark the outside of your package "ATTENTION CUSTOMER SERVICE". We are constantly striving to improve our products, therefore the specifications contained herein are subject to change without notice.**

Spray Nozzle

The Spray Nozzle makes rinsing easier.

- Rotate the sprayer tip to vary the water flow from a jet stream to a soft light misting spray.
- Squeeze trigger handle to control water flow.
- To obtain a continuous flow of water without holding the trigger against the handle use the trigger lock. Squeeze the trigger against the handle, then flip down the trigger lock. It should rest in the opening at the top of the trigger handle.

Quick Switch™ Adaptors

Use the adapter set to quickly connect various items in your kit to each other or to your hose. You can mix and match accessories to meet your needs.

Note: To release the male adaptor from the hose adaptor or male threaded adaptor, pull outer ring in direction of arrow.

GETTING TO KNOW YOUR CAR CARE KIT

Extension Pole

The extension pole can be used as a handle for the window squeegee/scrubber or as an extension for the scrub brush.

- Screw on the chosen accessory to the female end of the extension tube.

Squeegee with Window Scrubber

The squeegee with window scrubber can only be used with the extension pole.

Double Sided Sponge

The double sided sponge has a natural chamois side and a durable scrubbing side.

Wheel & Crevice Brush

This soft-bristle brush is the right tool for cleaning your aluminum, mag or wire wheel covers.

The soft bristles allow you to get it into hard to reach areas and small openings in addition to cleaning large surfaces.

NOTE: Do NOT leave wheel & crevice brush in water for long periods of time. This will damage the brush.

Heavy Duty Scrub Brush

The heavy duty scrub brush helps eliminate the tough greasy grime and other hard to clean spots. To use the heavy duty scrub brush:

- Attach the brush to the extension pole which is attached to the water control valve, male adaptor, hose adaptor and then to the hose.

OR

- Attach the brush to the water control valve, male adaptor, hose adaptor and then to the hose.

The Dust Brush

The dust brush is good for quick clean ups for the interior surfaces of a vehicle.

NOTE: The dust brush should not be used wet. It is more efficient when used without water.

Important: Let all accessories dry thoroughly before storing in storage case.

Important: Never use brushes on loose, chipped or damaged paint.
