Verbatim Mini DigitalMovie™ DVD combines the nostalgia and charm of a movie reel with the latest video recording technology. Mini DigitalMovie™ DVD discs are unique and versatile and can be played back on most home DVD players. The mini DVD media provides a reliable and cost effective format for video/data recording, distribution, and storage. Mini DigitalMovie™ DVD includes a Hard Coat VideoGard™ Protection applied to the recording surface protecting the disc from everyday handling. Mini DigitalMovie™ is 40X more scratch resistant than a standard Mini DVD. Preserve your precious moments caught on video against smudges, fingerprints and scratches which can occur in everyday handling of standard discs!

Why Choose Verbatim?

Reliable Media for Every Occassion

Verbatim DVD RW offers 4.7GB or 120 minutes of rewritable storage capacity, superior recording quality, and compatibility with 1x to 8x DVD+RW and 1x to 6x for DVD-RW writers. Verbatim DVD RW is ideal for archiving or backing up 4.7GB of data or 120 minutes of DVD-quality video. Verbatim also offers high speed DVD RW media: 8x DVD+RW and 6x DVD-RW for optimal use in archiving and backing up PC data.

Preferred by DVD drive manufacturers, Verbatim DVD RW utilises Super Eutectic Recording Layer (SERL) recording dye, which minimises noise during write/rewrite cycles and provides superior archival stability. Verbatim DVD RW media is compatible with most DVD-ROM drives.

Verbatim DVD RW media:

- was developed with a highly sensitive Super Eutectic Recording Layer to allow for high speed over writing
- attains consistent overwriting performance (up to 1,000 times) without sacrificing superb archival life
- is ideal for personal PC data backup or recording your favourite programs on a DVD recorder
- is used by drive manufacturers for inspecting drives due to consistent high quality rewrite abilities
- once finalised, are compatible during playback with the vast majority of DVD drives and players in the market
