PHILIPS

General Information

Since it is usual for DVD movies to be released at different times in different regions of the world, all players have region codes and discs can have an optional region code. If you load a disc of a different region code to your player, you will see the region code notice on the screen. The disc will not playback, and should be unloaded.

The region code for Singapore is 3.

The region code for Australia is 4.

Manufactured under license from Dolby Laboratories. "Dolby", "Pro Logic" and the double-D symbol are trademarks of Dolby Laboratories.

CAUTION (WARNING LOCATION: ON THE BACKPLATE OF SET)

**NEVER MAKE OR CHANGE
CONNECTIONS WITH THE POWER

Introduction

Thank you for purchasing this Philips DVD player. This Owner's Manual explains the basic operation of this DVD player.

Environmental Information

All unnecessary packaging has been omitted. We have tried to make the packaging easy to separate into three materials: cardboard (box), polystyrene foam (buffer) and polyethylene (bags, protective foam sheet).

Your DVD player consists of materials which can be recycled and reused if disassembled by a specialized company. Please observe the local regulations regarding the disposal of packaging materials, exhausted batteries and old equipment.

Supplied accessories

- DVD-Video player
- Remote control with Batteries
- Audio cable
- Video cable
- AC Cord
- Owner's Manual

Safety Information

- Before operating the DVD player, check that the operating voltage indicated on the typeplate is identical with the voltage of your local power supply. If not, please consult your dealer.
- Place the DVD player on a flat, hard and stable surface.
- There must be sufficient room in front of the player for the drawer to be opened.
- In cabinet, allow about 2.5cm (1 inch) of free space all around the player for adequate ventilation.
- Do not expose your player to extreme of temperature or humidity.
- If the DVD player is brought directly from a cold

to a warm location, or is placed in a very damp room, moisture may condense on the lens of the disc unit inside the DVD player. Should this occur, the DVD player would not operate normally. Leave the power on for about one hour with no disc in the DVD player until normal playback is possible.

- The mechanical parts of the set contain self-lubricating bearings and must not be oiled or lubricated.
- When the DVD player is switched to Standby mode, it is still consuming some power. To disconnect the system from the power supply completely, remove the AC power plug from the wall socket.

Symbols Used in this Booklet

The below symbols appear in some headings and notes with the following meanings:

	– Description refers to playback of DVD-video discs
	– Description refers to playback of Video CDs
	– Description refers to playback of Audio CDs
	– Description refers to playback of Super VCDs

Helpful Hints!

- **Some DVD video discs require specific or allow only limited functions during playback.**

Functional Overview

Front and Rear Panels

Caution: Do not touch the inner pins of the jacks on the rear panel. Electrostatic discharge may cause permanent damage to the unit.

Functional Overview

Remote Control

Note:
Press digit "1" for about 2 seconds to OPEN or CLOSE disc tray.

Preparation

Basic Connections

- Please refer to the instruction books of your TV, VCR, Stereo System or other devices as necessary to make the best connections.

- Make one of the following connections, depending on the capabilities of your existing equipment.

The following guidelines are options for the best picture and sound quality available on your DVD player.

Video Connections

Connecting to a TV

If your TV has a CVBS Video input connector,

- Connect the CVBS VIDEO OUT on the DVD player to the CVBS VIDEO IN (cable supplied).

If your TV has a S-Video input connector,

- Connect the S-Video OUT on the DVD player to the S-Video IN (not supplied).

If your TV has a Component video (Y/Cb/Cr) input connector,

- Connect the Y/Cb/CR VIDEO OUT on the DVD player to the corresponding connector on the TV using the component video cable (not supplied).

Caution: Component video and S-video can not work at the same time, so you have to set one of them to be active by the such way as shown on the chapter [Video output].

Warning!

- Never make or change connections with the power switched on.
- Connect the DVD player directly to your TV, instead of eg. a VCR, to avoid distortion because DVD video discs are copy protected.
- Do not connect the DVD player AUDIO OUT to PHONO IN of your player.

Preparation

Sound

- 1 Digital audio connections provide the clearest sound. Connect one of the DVD player's DIGITAL AUDIO OUT (COAXIAL or OPTICAL) to your amplifier or receiver.
- 2 If digital connections are not possible, connect the DVD player's red and white AUDIO OUT to your amplifier, receiver, stereo or TV.

Connecting to a Audio System

- 1 You can also listen to the sound of audio CDs and DVD video discs by connecting to an optional stereo systems.
- 2 Connect the Left and Right AUDIO OUT on the DVD player to the Left and Right AUDIO IN on the stereo systems.

Audio Connections

Connecting to Optional Equipment

- A digital component with a built-in MPEG 2, Dolby Digital™ or DTS decoder allows you to enjoy the surround sound while producing the effect of being in a movie theater or a concert hall.
- If your receiver has a Dolby Digital™, MPEG 2 or DTS decoder, Connect to A/V receiver with digital coaxial or optical cable**
- Connect the DIGITAL COAXIAL AUDIO OUT of the DVD player to the corresponding input on the receiver using the normal audio or video cable supplied.

Analog connection to a multi-channel A/V receiver with 6CH connectors

- A multi-channel decoder enables playback of DVDs recorded in multi-channel surround without the need of optional decoder. Connect the audio out jacks to the corresponding jacks of your A/V receiver with six cables. In the SPEAKER SETUP menu, select DOWNMIX to OFF and enable the 6CH decode function by the method introduced on the chapter [Setup Menu].

Notes:

- If the audio format of the digital output does not match the capabilities of your receiver, the receiver will produce a strong, distorted sound or no sound at all.

Preparation

Inserting batteries into the Remote Control

- 1 Open the battery cover.
- 2 Insert batteries with the correct polarity as indicated by the + and - symbols inside the battery compartment.
- 3 Close the cover.

CAUTION!

- Remove batteries if they are exhausted or not to be used for a long time.
- Do not use old and new or different types of batteries in combination.
- Batteries contain chemical substances, so they should be disposed off properly and kept away from children.

Using the Remote Control

- Direct the remote control at the remote sensor of the DVD player.
- Do not drop or give the remote control a shock.
- Do not leave the remote control near extremely hot or humid place.
- Do not spill water or put anything wet on the remote control.

NTSC/PAL Conversion

This player is equipped with a NTSC/PAL conversion feature to convert the video output of the disc to match your TV system. The conversions supported are as below:

Disc Type	Format	Output format		
		Selected mode		
		NTSC	PAL	AUTO
DVD	NTSC	NTSC	PAL	NTSC
	PAL	NTSC	PAL	PAL
VCD	NTSC	NTSC	PAL	NTSC
	PAL	NTSC	PAL	PAL

Notes:

- AUTO can only be selected when using a TV that has both the NTSC and PAL systems.
- Slight picture distortions may occur due to this conversion. This is normal. Thus, the AUTO format is most suitable for the best picture quality.

Display on Front Panel

Various icons will appear on the front panel display depending on the current status of the player.

	CDDA disc		Repeat
	DVD disc		Search backward
	Play		Search forward
	Disc lock		Setup
	MP3 disc		Slow backward
	SVCD disc		Slow forward
	VCD disc		Stop
	Info		Zoom
	No disc		Pause
	Open		

Preparation

Connecting the power supply

- 1 Plug the female end of the power cable supplied into the Power connector on the rear of the player.
- 2 Plug the male end of the cord into an AC outlet.

Switching On

- 1 Switch on the TV and DVD player.
- 2 Set the TV to the correct Video IN channel. (eg. EXT1, EXT2, AV1, AV2, AUDIO/VIDEO, etc. Please refer to your TV owner's manual for detail)
→ The player display lights and the default screen appears on the TV.
- 3 If you are using an external equipment (eg. audio system or receiver), turn them on and select the appropriate input source that was used to connect to the DVD player output. Refer to the equipment owner's manual for detail.

Operation

Basic Playback

- 1 Press POWER ON/OFF on the front panel.
- 2 Press OPEN/CLOSE on the front panel to open disc loading tray.
- 3 Place the chosen disc in the tray, with the label facing up.
- 4 Press OPEN/CLOSE again to close the tray.
→ After recognizing this disc the player begin to playback automatically.

Notes:

- DVDs may have a region code. Your player will not play discs that have a region code different from the region code of your player.
- If 'Disc Lock' is set to ON and the disc inserted is not authorized, the 4-digit code must be entered and/or the disc must be authorized (see 'Disc Lock').

General operation

Video control during playback

STOP DVD VCD CD SVCD

- 1 You can resume the play from the point at which you stopped last time, if you just press the STOP key once. It will start from the beginning if you press the STOP key twice to stop playback.

PAUSE/STEP DVD VCD CD SVCD

- 1 To get a still picture, press PAUSE key during playback.
- 2 To step forward to the next frame picture, press PAUSE key again.
- 3 To resume normal playback, press PLAY.

SEARCH DVD VCD CD SVCD

- 1 To search the contents in fast speed, press the ► or ◀ for fast forward/backward searching.
- 2 Press the ◀ or ► again to increase the speed for searching.
- 3 Press PLAY to return to the normal playback.

Operation

SLOW MOTION

DVD

- 1 To get slow motion effect during playback, press **▲** or **▼**.
- 2 Press **▲** or **▼** again, you can get different playback forward/backward speeds.
- 3 Press **PLAY** to return to the normal play back.

VCD **CD** **SVCD**

- 1 To get slow motion effect during playback, press **▲**.
- 2 Press **▲** again, you can get different playback forward speeds.
- 3 Press the **PLAY** key to return to the normal play back.

NOTE:

-The **SLOW BACKWARD** function is not available for the Super VCD/VCD/CD disc.

Audio control during playback

Setup Menu

Parental Control

Movies on DVDs may contain scenes not suitable for children. Therefore, discs may contain 'Parental Control' information which applies to the complete disc or to certain scenes on the disc. These scenes are rated from 1 to 8, and alternative, more suitable scenes are available on the disc. Ratings are country dependent. The 'Parental Control' feature allows you to prevent discs from being played by your children or to have certain discs played with alternative scenes.

- VCD, SVCD, CD has no level definition, so parental control function has no effect on those kinds of discs as well as most of illegal DVD discs.
 - You can follow the steps below to setup the parental control:
- 1 Press the ▲▼ keys to highlight the PARENTAL item.
 - 2 Press OK to open its menu.
 - 3 Move to its submenu by pressing the ► key.
 - 4 Then use the ▲/▼ keys to highlight a rating from 1 to 8 for the disc inserted.
 - 5 Press OK to confirm, then press the ◀ key to return to the PREFERENCES menu.

No Parental Control

Parental Control is not activated. The Disc will be played in full.

- 1 Select NO PARENTAL item.
- 2 Press OK.

Ratings 1 to 8:

The disc contains scenes not suitable for children. If you set a rating for the player, all scenes with the same rating or lower will be played. Higher rated scenes will not be played unless an alternative which has the same rating or lower is available on the disc. If no suitable alternative is found, playback will stop and the 4-digit code has to be entered.

Default setup (shown on the left)

If some problems occur during setting DVD, the item DEFAULT is used to reset all items to factory default and all your personal setting will be erased.

- 1 Press the ▲▼ keys to highlight the DEFAULT item.
- 2 Press OK to open its menu.
- 3 Enter its menu by pressing the ► key.
- 4 Press OK.

NOTE: When this function is executed, all setups will be reset to factory defaults.

Smart Navigator

In this menu, it contains of the setting when you playback picture CD and MP3 CD.

- 2 Press the ▲ ▼ key to highlight the PREFERENCE item.
- 3 Press OK to open the PREFERENCE menu.
- 4 Press the ▲ ▼ to highlight the SMART NAV menu.
- 5 Press OK to open the menu.
- 6 Press ► to enter the menu.
- 7 Press ▲ ▼ to highlight the NO MENU or WITH MENU item.
 - NO MENU: playback all images or MP3 musics in sequence automatically
 - WITH MENU: playback images or MP3 musics in the selected folder.
- 8 Press the OK key to confirm your selection

Maintenance

Cleaning the Cabinet

- Use a soft cloth slightly moistened with a mild detergent solution. Do not use a solution containing alcohol, spirits, ammonia or abrasives.

Cleaning Discs

- When a disc becomes dirty, clean it with a cleaning cloth. Wipe the disc from the center out. Do not wipe in a circular motion.
- Do not use solvents such as benzene, thinner, commercially available cleaners, or antistatic spray intended for analog records.

Troubleshooting

WARNING

Under no circumstances should you try to repair the system yourself, as this will invalidate the warranty. Do not open the system as there is a risk of electric shock.

If a fault occurs, first check the points listed below before taking the system for repair. If you are unable to remedy a problem by following these hints, consult your dealer or service center.

Problem	Solution
No power	– Check if the AC power cord is properly connected.
No picture	– Check if the TV is switched on. – Check the video connection.
Distorted picture	– The disc is badly scratched or dirty. – Sometimes a small amount of picture distortion may appear. This is not a malfunction.
Completely distorted picture or black/white picture with DVD or Video CD	– Make sure the NTSC/PAL setting at the DVD player matches the video signal of your television. (See NTSC/PAL Conversion)
No sound or distorted sound	– Adjust the volume. – Check that the speakers are connected correctly.
No audio at digital output	– Check the digital connections. – Check the settings menu to make sure the digital output is set to ALL or PCM. – Check if the audio format of the selected audio language matches your receiver capabilities.
Disc can't be played	– Ensure the disc label is facing up. – Check if the disc is defective by trying another disc.
No return to start-up screen when disc is removed	– Reset the unit by switching the player off, then on again.
The player does not respond to the remote control	– Aim the remote control directly at the sensor on the front of the player. – Reduce the distance to the player. – Replace the batteries in the remote control. – Insert the batteries with their polarities (+/- signs) as indicated.
Buttons do not work	– In order to completely reset the player, unplug the AC cord from the AC outlet.
Player does not respond to some operating commands during playback.	– Operations may not be permitted by the disc. Refer to the instructions of the disc.
DVD Video player cannot read CDs/DVDs	– Use a commonly available cleaning CD/DVD to clean the lens before sending the DVD Video player for repair.
