Uses (2) 7W Xelogen* high-output lamps that last 7,000 hours!

Each Point of Sale Package includes: Dome light with lamps, wire harness, interchangeable lenses, hardware, and install instructions

Slim profile designed to fit into tight spaces

5.75" L x 1.38" H x 2.25" W including mounting flange and switches

New Interior Dome Light from Havis-Shields!

Havis-Shields introduces the new Interior Dome Light with interchangeable red and clear lights. The red lights let the officer not be illuminated, are not visible outside the vehicle and interior glare is eliminated. The slim profile is designed to fit into tight spaces and provide general illumination for cab compartment and other vehicle interior lighting needs.

- Two individually switched 7W Xelogen* lamps outperform standard LED fixtures with higher light output, comparable life cycle, lower cost, and a replaceable lamp.
- Push button on/off switches allow for independent control of both lamps
- 7W Xelogen lamps provide as much usable light as 12-watt standard halogen lamps but with less heat and lower amp draw.
- Convenient mounting tabs on both ends of the fixture allow for easy installation without opening the fixture.
- Lenses are made from high-impact polycarbonate and housing material is high strength black nylon.
- Integral specular reflectors provide optimal light output and distribution.
- Shipped with two sets of interchangeable lenses (red and clear), allows for four lens combinations! The red lights emit a red glow that does not illuminate the officer at night, while still providing ample light to work by.

Bulb Type - (2) 7W Xelogen* high output lamp
Bulb Lumen Rating - 105 each, 210 total
Amp Draw - 0.6 each lamp, 1.2 total
Bulb Life - 7,000 hours

*Xelogen is a trademark of THHC Lighting
