Accessories

- **Included accessories:** 2 x AA Batteries, Full SCART cable, IR Blaster, Power cord, Remote control, RF cable, User manual, Quick start guide
- **Remote Control 12NC:** 2422 549 00923

Dimensions

- **Packaging dimensions (W x H x D):** 549 x 160 x 443 mm
- **Set dimensions (W x H x D):** 435 x 76 x 335 mm
- **Set weight:** 5.13 kg
- **Weight incl. packaging:** 8.1 kg

Power

- **Power consumption:** <38 W
- **Power supply:** 220-240V, 50Hz
- **Standby power consumption:** <3

Product highlights

Dual Media

Philips DVD Recorders support 'dual media' recording - the ability to create recordings on DVD+R/RW, DVD-R/RW and DVD+R DL discs. Now you can buy any disc and the Philips recorder will always create fully compatible recordings, which can be played by any DVD player.

Guide Plus+ on-screen TV guide

GUIDE Plus+ is an Electronic Program Guide - a free on screen TV Guide that shows what's on TV for the next couple of days and lets you program the timer of the DVD Recorder with the push of a button.

Pause live TV

A very large built-in memory records the program you are currently watching when you press the pause button. When it suits you, you can resume the program from the moment you pressed 'pause' as if you're watching a live program.

Instant replay

With Instant Replay you are in control of exciting TV moments so you can enjoy a precious TV moment like a scene in a movie or football match again immediately, at the press of a button. The Hard Disk can play back any scene while continuing to record TV program.

Flex Time

With FlexTime you can watch a program while it's still being recorded, thanks to the extreme speed of a Hard Disk.

Digital TV Tuner (DVB-T)

The DVD recorder's integrated DVB-T tuner lets you receive Digital Terrestrial TV to watch or record. The video signal is kept digital without any analogue steps inbetween, to preserve the high picture quality.

i.LINK digital input

Also known as IEEE 1394 and FireWire. i.LINK is the worldwide standard for connecting digital video devices, used on digital home video equipment such as DV and D8 camcorders, as well as PCs. Conveniently, it carries all audio and video signals via a single cable. With i.LINK Digital Video input you can copy your home videos in their original digital picture quality.

5.1 channel audio recording

Digital 5.1 channel audio recording lets you capture - along with the video - the original sound from digital multi-channel sources such as satellite receivers so that you can store it on DVD. These recordings can then be played back in multi-channel only on your Philips Recorder or in Stereo on any DVD player.
