Footnotes

1. Not all products with USB connectors may communicate with each other due to chipset variations and specifications.
2. i.LINK is a trademark of Sony used only to designate that a product contains an IEEE1394 connection. The i.LINK connection may vary depending on the software applications, operating system and compatible i.LINK devices. Not all products with an i.LINK connection may not communicate with each other. Please refer to the documentation that comes with any device having an i.LINK connection for information on compatibility, operating conditions and proper connection. For more information on any Sony device having an i.LINK connection, contact Sony at 1-800-686-7669.
3. Requires HDTV with HDMI connector (sold separately) and equivalent display capability. Upscaled image quality will vary.
4. Line-in Recording feature requires connection to cable, satellite, or other set-top box with built-in ATSC tuner. Cable or satellite service maybe required. Fees may apply.
5. Playback may not be compatible with all discs, depending on recording conditions. DVD and CD media/formats are not universally compatible.
6. Multi Brand TV remote is compatible with most major TV brands. Please check your owner's manual to determine compatibility.
7. BRAVIA® Sync™ for Theater works with select Sony television and home theater products. Please check owner's manual to determine

compatibility.

IMPORTANT FACT: U.S. law requires all over-the-air broadcasting to switch from analog to digital signals on February 17, 2009. After that date, this product will require a converter device in order for it to receive/record over-the-air broadcasts via an antenna from your local TV stations. If you are a pay TV subscriber, your cable or satellite box should provide this functionality without additional equipment. Playback of recorded media (e.g. DVD or VHS movies) should remain unaffected.
