Features

- PC Compatible via USB transfer audio files quickly and easily to a computer for further processing or archiving.
- 256MB³ Built-in Flash Memory uses a high capacity IC chip, which may be recorded over and used again and again, with distortion-free clarity.
- ◆ Over 130 Hours² of Recording Time in LP Mode is available on the integrated circuit chip which may be recorded over and used again.
- 3 Recording Modes² allows you to choose the quality of recording: Long Play (LP) 150h 15m, Standard Play(SP) 81h 15m and High Quality(HQ) 30h 25m
- 4 Message Folders provide separate message areas for different applications, such as business memos, correspondence, personal reminders, and more.
- ▲ Large LCD Display shows number of messages recorded, recording length, date, time, and battery power remaining.
- ▲ Single Function Buttons on the Front Make the Unit Easier to Use Ergonomic buttons make controlling the unit easier than ever by putting all the buttons where they can be easily accessed.
- ▲ Digital VOR (Voice Operated Recording) stops the recording during silent pauses, saving valuable recording time, then begins recording again without missing a single syllable thanks to the digital buffer.
- Add Recording allows you to insert and add additional information to any message without affecting the original
- Selectable Microphone Sensitivity (Hi/Lo) enables you to record different situations, from group meetings to individuals, more effectively.
- Date and Time Stamp let's you see the day and time you recorded your message on.
