- JPEG Viewer

AUDIO

- Stereo TV with Double Baffle Speaker System
- WMA & MP3 Playback

CONVENIENCE

- 4 Picture Preference Modes
- Commercial Skip for VCR
- Headphone Jack

ADVANTAGE TOSHIBA

14" FST PURE® TV with DVD Player and built-in VCR for the ultimate in convenience.

DivX® Home Theater Certified allows playback of DivX, AVI and MPEG4 (.ASF) compressed files downloaded from the internet from a personal computer and stored on a CD-R/RW.

Full-function 4-Head VCR for special effects and optimum audio quality.

Stereo TV with double baffle speaker system which delivers the best sound by using the TV cabinet as a baffle for better bass and voice response.

MW14F52

TECHNOLOGY & BENEFITS

VIDEO

FST PURE® Flat Tube Design - Due to its flat design, viewing angle and picture linearity are greatly improved over traditional tube designs, delivering the most accurate, life-like images possible.

Digital Picture Zoom - This interactive DVD feature allows you to select an area of the picture you want to zoom in on and magnify it. Enhanced digital processing during moving video or freeze-frame playback produces superior color fidelity and resolution, even when you're zoomed in. Also can be used to expand letterbox-only films to increase the viewable area on-screen.

JPEG Viewer - Enables the display of digital photographs captured in the JPEG format. Simply load the CD with your favorite photos and create custom slide shows with a few simple clicks of the player's remote control.

AUDIO

Double Baffle Stereo Speaker System - These front-firing, side-mounted speakers deliver the best stereo sound by keeping the sonic image widely separated within the cabinet.

WMA & MP3 Playback - Recordable Compact Discs (CD-R & CD-RW) with music stored in either the Windows Media™ Audio or MP3 file formats can be enjoyed.

Coaxial Dolby® Digital and DTS® Surround Sound Output - Use the single RCA-type output jack to send signature multi-channel audio to an audio/video receiver with a compatible input.

CONVENIENCE

Icon TV/VCR/DVD Menu - Offers simple operation by using picture symbols of key menu functions instead of plain text. Quickly access various TV features via pull down menus.

Picture Preference Modes - Includes preset picture settings tailored for various programs and allows quick adjustments at the touch of a button. Instead of accessing Brightness, Contrast, Color, or Tint each time you switch from a movie to a sporting event, use the preset Picture Preference Modes (Standard, Sports, Movie, Memory) to change the quality of the picture without all the fuss. The Memory Mode allows you to customize your own settings and save them into the television's memory.

Commercial Skip - After a program has been recorded, pressing the SKIP button once during playback will automatically advance the tape 30-seconds forward bypassing recorded commercials. Pressing the skip button on the remote again will advance the recorded tape for another 30-seconds for a total of 60-seconds (30 sec x 6 Maximum).
