- Record Speed: Long Play, Standard Play
- Record Speed Selection: Auto LP, Per Menu
- Picture Improvement System: Digital Studio Picture Control
- Audio Recording Level: Automatic
- Special Features: Auto Standby

On Tape Standard

- Additional Playback Standard: NTSC Playback on PAL TV

Remote Control Unit

- Remote Control - Type Number: RT301/111
- Remote Control - Codes: VCR1, TV Commands

Connectors Rear

- EXT1: Black, Euro CVBS in/out
- EXT2: Black, Euro CVBS in, Euro Decoder
- Terrestrial Antenna In/Out: 75 Ohms (IEC type)

Tape Deck

- Number of Video / FM Audio / Flying Erase Heads: 4 / 2 / 0
- Play: +1
- Still Features: Perfect
- Index Related Functions: Next/Prev. index search
- Head Cleaning: Automatic
- Tape Length Recognition: Automatic
- Tape Counter: Linear Relative (h.m.s), Tape Position Indicator, Time Left (h.m)
- Winding / Rewinding Time (E180): <65 sec.

Programming

- Number of Events: 8/year
- Programming System: Manual Timer, One Touch Recording
- Record Link: SCART 2

General

- Voltage: 198 - 264 V
- Frequency: 50Hz
- Standby Power Cons.: <3 W
- Backup Presets: 1yr
- Backup Clock - Calendar - Timer Event: 1mn
- Set Size - W x D x H in mm: 360 x 230 x 93
- Packaging - W x D x H in mm: 426 x 290 x 181
- Equipement Supplied: Aerial Cable, Batteries for RC

Product Highlights

• Digital Studio Picture Control

Philips' Digital Studio Picture Control optimises the playback picture quality. It measures the tape's performances, adapts the resolution and reduces the picture noise.

You obtain the best possible picture quality on your screen regardless of the tape you use.

• New Turbo Drive deck

The new Turbo Drive deck offers:

Speed

65-second ultra fast rewind speed.

Reliability

To guarantee an optimum reliability, the heads are automatically cleaned each time a cassette is inserted or ejected.

Intelligence

The Tape Position Indicator, in wind and re-wind situations, displays the accurate position of the tape on the screen and indicates progress by means of a moving/blinking arrow. At any time, you can follow the tape movement on the screen.

• Record Link

„Record link“ is the answer if you want to record a programme from your satellite receiver or any other external device when you are not at home.

To prepare for a recording only the timer of the satellite receiver needs to be programmed. The VCR will automatically detect the activation of the satellite receiver via the Scart cable connection and will start recording simultaneously. If the receiver gets deactivated again, the recording will also stop.
