Remember, ordered searches find words only in the order in which you request them. For example, an ordered search for `holy spirit` will not find `spirit holy`.

✓ Understanding Search Widths

The search width is how far apart your words can be in matches. Here are what the widths mean:

`Close Together` : search words adjacent or nearly adjacent

`Not as Close` : a few words apart

`Far Apart` : many words apart

`Very Far Apart` : a few verses apart.

2. Press **(ENTER)** to view the first match.
3. Press **(MENU)**.
4. Press the arrow keys to highlight `Expand Search` under `Search`.

9. Press the arrow keys to highlight a book under the Old or New menu.

10. Press **ENTER and then select a section with matches.**

✓ Unexpanding Search Words

You can unexpand expanded words in a multiple-word search by highlighting Unexpand a Word under the Search menu. Then press **ENTER**. Then highlight a search word to unexpand. Then press **ENTER**.

Only an expanded search word can be unexpanded. You can unexpand a fully expanded search up to three times.

✓ Understanding Expansion Levels

When you expand a search word, you see a message showing the current expansion level.

The screenshot shows a search interface with a text input field containing the text "Pick a Word to Expand". Below the input field, there are two buttons labeled "Expand". The second "Expand" button is highlighted with a thick black border, and a message box next to it displays "Expansion Level 2".

There are four expansion levels. Each level adds related words to your search.

Expansion Level 1 is the unexpanded search word (e.g., belief) alone. Level 2 adds inflections (e.g., believe and believed). Level 3 adds compound and related words (e.g., believer and unbelief). Level 4 adds synonyms (e.g., understand and obeyed).

If an expansion level adds no words, the expansion automatically moves to the next level. For that reason, many words are fully expanded to Level 4 after less than three expansions.

Picking Search Words

You can also search for a word by highlighting, or picking, it from a Bible verse. You can pick and search for any word except the short, common words listed on p. 24. Try this example.
