

OKI®

The standalone
fax that handles
your needs
out of the box
— with upgrades
for the future.

OKIFAX® 5050 PLAIN PAPER FACSIMILE

PLAIN PAPER
FACSIMILE

SOLID PERFORMANCE ENSURING SOLID VALUE.

If you're looking for a strong ROI from your telecommunications equipment, here's one fax machine that can really

pay off. The OKIFAX® 5050 will give you your money's worth – and then some.

With its fast 14.4 modem speed, it can transmit a page in just 6 seconds¹ and deliver lower telephone costs.

Place your document on the machine's 30-sheet feeder, scan it into memory, enter dialing instructions and walk away. It takes just 6 seconds to scan a page, lets you dial locations at the touch of a button and, with dual access, do two things at once – such as setting up an outgoing fax while another one is coming in.

The OKIFAX 5050 has a 20-page¹ document memory, important if the paper supply or toner should run out when no one's around. This can be

increased to up to 100 pages¹ with an optional non-battery memory expansion card. Or, to store up to 120 pages¹ if the power is cut off (non-volatile memory), an optional battery back-up expansion card is available.

A universal paper tray holds 250 sheets of either letter- or legal-size paper.

With the 500-sheet optional letter/legal paper

**Keeping up
with you now
and your plans
for growth.**

tray, you can increase the OKIFAX 5050 capacity up to 750 sheets.

What's more, in addition to its regular facsimile features, the OKIFAX 5050 is also a convenience copier,

able to turn out up to 99 copies from a single original.

¹ Based on ITU-T Test Chart #1.

GIVING YOU THE IMAGE YOU WANT.

The digital LED printhead of the OKIFAX® 5050 gives incoming faxes and file documents the look

of a business presentation. And, unlike thermal faxes, the plain paper output won't fade or curl – which means you won't have to copy the pages if you want to file or retransmit them.

For a better-looking bottom line, the only consumables the machine needs are dry toner cartridges, image drums and standard copier paper. Okidata includes an image drum and toner cartridge in

An optional second universal paper tray expands the paper capacity to 750 letter- or legal-size sheets.

the purchase price to keep your operating costs low from the start.

As for reliability, the printhead of the OKIFAX 5050 has no moving parts – unlike those found in conventional laser machines –

which is why Okidata covers it with a full 5-year limited warranty.

You can always count on your OKIDATA Facsimile Dealer for excellent service, advice and the right productivity solutions as your needs grow and change.

Customer service for the OKIFAX 5050 is available

7 days a week, 24 hours a day² by dialing 1-800-OKIDATA.

Plus, Okidata has a comprehensive fax-back system and a dynamic Web site, for support few fax manufacturers can match.

The OKIFAX 5050. The perfect investment for all your business needs – now and in the future.
