

# Installation Instructions

## Oval Headlight Kit

Part No. 1687237

For Fits Intermediate, Pro, and Large Frame Snowthrowers

### Kit Contents:

Ref	Part No.	Qty.	Description
1	1732322	1	Headlight Assembly
2	2825094	2	Wire Ties
3	1733415	1	Bracket, Clamp

Figure 1. Contents

This kit adds an optional headlight to snowthrowers equipped with an stator coil.

### WARNING

Before beginning any service work turn off the engine, remove the key, and wait for all movement to stop. Wait for hot surfaces like the muffler and cylinder head to cool.

### INSTALLATION

1. Models with tube handle bars: Mount the headlight to the handle bars using the clamp provided.  
Models with channel handle bars: Mount the headlight assembly directly to the handle bars using an available hole in the channel assembly.
2. Check that the light does not interfere with the operation of the controls, or control linkage. If it does, relocate it.
3. Route the wire leads to the engine.
4. Connect the bullet lead to the engine's stator coil output.
5. Connect the eyelet connector to the foot of the engine block, secure to one of the engine mounting bolts.
6. Secure the wires, using the wire ties provided, to the handle bars away from moving parts. Be sure all controls function correctly.
