

# MODEL H8220 1/2" EXTENDED ANVIL IMPACT WRENCH INSTRUCTION SHEET

<b>⚠ WARNING</b>	
	<b>EYE/EAR INJURY HAZARD!</b> Wear safety glasses and hearing protection when using this tool!
	<b>INJURY HAZARD!</b> Always disconnect tool from air to prevent unexpected operation during service!
	<b>DO NOT EXCEED 120 PSI!</b> Personal injury could occur.
	<b>SHATTERING HAZARD!</b> Use sockets rated for impact wrench use only.

**Figure 1.** Model H8220

## Specifications

Drive Size.....	1/2"
No-Load Speed.....	7,500 RPM
Maximum Torque.....	420 ft/lb
Air Inlet Size.....	1/4" NPT
Air Consumption.....	5 CFM
Operating Pressure.....	90 PSI
Weight.....	6 lbs

## Inventory

- A. 1/2" Extended Anvil Impact Wrench..... 1
- B. 1/4" NPT Air Fitting..... 1
- C. Oil..... 1

## Operation

Install any 1/2" drive socket into your air impact wrench. Push the reverse valve, shown in **Figure 1**, in or out to change direction. Turn the valve knob from 1 to 6 to adjust air flow. Connect to air line regulated at 90 PSI.

Insert one shot of grease into the grease fitting shown in **Figure 1**, every three months. The impact wrench **MUST** be regularly lubricated with 3-4 drops of air tool oil directly into the air fitting before each use. For best results, we recommend using an in line filter, lubricator, and regulator, as shown in **Figure 2**.

**Figure 2.** Installing your tool.
