### Key Technologies

**Full HD 1080p Resolution** Experience Full HD 1080p picture quality, the highest at-home resolution, and take full advantage of HD sources like a Blu-ray Disc™ Player or PlayStation®3 gaming console via the 16:9 wide screen panel (1920 x 1080).<sup>3</sup>

**Edge LED backlight** Enjoy a slim design plus amazing dynamic contrast with an Edge LED backlight.

**Motionflow™ 240Hz Technology** Experience smoother motion detail and clarity with Motionflow™ 240Hz technology. Motionflow™ 240Hz technology quadruples frame rate from the standard 60 frames per second and applies Image Blur reduction to deliver a crisp, fluid and realistic viewing experience during fast-action scenes.

**Built-In Wi-Fi®** Enjoy the convenience of built-in wireless connectivity to your home entertainment network and make accessing your online entertainment - including movies, photos, music, videos and more - even easier!<sup>1</sup>

**BRAVIA® Internet Video** Instantly stream a wide variety of movies, TV episodes, videos and music from a large selection of entertainment apps including: Netflix®, YouTube™, Slacker® - the list goes on and on.<sup>2</sup>

**BRAVIA® Internet Widgets** Personalize your viewing experience by adding information apps to your screen so you can instantly access the latest local news, weather, sports headlines and Twitter® updates.<sup>2</sup>

**BRAVIA Engine™ 3** Enjoy Sony's most advanced processing system for superior image detail, exceptionally vibrant, life-like images, reduced noise and optimized contrast and color with the BRAVIA Engine™ 3 fully digital processor.

**LightSensor™ Technology** Automatically increase or decrease the level of brightness of your TV's backlight based on a room's lighting conditions with the integrated LightSensor™ technology. Dim the lights to watch a movie and the sensor dims the backlight, which also helps reduce unnecessary power consumption.

**USB Input** Share your photos on the big screen or listen to your favorite music. Simply connect your digital camera, USB-enabled MP3 player, or USB storage device directly to your HDTV's USB input.

**Energy Saving Switch** Eliminate standby power consumption without having to unplug your TV. Simply turn the Energy Saving Switch to off position and the TV no longer draws energy from the power source.
