**Assembly is complete! Please take the following steps before using the gym:**

1. Make certain all bolts are tightened securely.
2. Make certain all cables are seated into all pulley grooves. A cable rubbing against steel will peel the nylon coating, voiding warranty and resulting in a need for replacement.
3. Pre-stretch the cables. Pull on the cables with great force, helping remove any kinks and providing any initial cable stretch.
4. Be aware the cables can loosen and slightly stretch upon initial use.
5. For better performance, apply a household lubricant (such as silicone) to any adjustable areas.
6. Enjoy many years of a Fit Lifestyle.
